the Taxation of Steam Vessels Recom-
mended to Pass.Inquiry to Be Made Into Accounts of Expert
Printer and Condition of the
Stock.Senate Passed Bill Prohibiting the Sale of
Decayed, Tainted and Unwholesome
Poultry and Game.Boxrud's Bill to Encourage the Use of
Wagons With Wide Tires Passed
Almost Unanimously.

ST. PAUL, March 13.—In the house to-
day committees reported as follows: H. F.
532, by Mr. McInnis, taxation of steam
vessels, to pass; H. F. 109, to collect
taxes by installment to postpone; H. F.
5, licensing use of pound nets in interna-
tional waters, to pass; H. F. 455, to regu-
late county assessor, salaries, to post-
pone; S. F. 551, by Senator Spencer, to
determine boundary between St. Louis
and Lake counties, to be placed on gen-
eral orders; H. F. 76, to encourage
smelting of pig iron and steel, substitute
reported, providing for three commis-
sioners to investigate the subject and
appropriating \$5000 for such investiga-
tion; S. F. 405, for care of dependent
children during examination, to pass; S.
F. 106, to purchase land for a fourth in-
sane hospital, to pass; H. F. 600, to regu-
late and improve grain inspection, to
pass.

The joint committee on printing has
appointed a sub-committee, composed of
Senators Theden and Miller, and Repre-
sents Dore and Ahlstrom, to examine
the accounts of the expert printer and the
condition of the stock in the secre-
tary of state's office.

DOINGS OF THE SENATE.Consolidation of County and City Governments
in Certain Cases.

ST. PAUL, March 13.—In the senate
this morning the following bills were in-
troduced:

Mr. Lloyd, to transfer \$150,000 from
gross earnings fund to roads and bridges
fund, Judiciary.

Mr. Johnson, to confer upon state
board of health power to analyze patent
medicines, Public Health.

Mr. Sheehan, by request, to authorize
the state board of health to employ a
physician or other person to examine
or otherwise provided with a system of
water supply to contract with private
companies for a public supply of water,
Judiciary.

Mr. Stevens, proposing an amendment
to section 2, article 11 of the constitu-
tion, authorizing the legislature to con-
solidate county and city governments of
counties where 75 per cent or more of the
population are residents of a city,
Judiciary.

Mr. Johnson, committee substitute for
S. F. 485, for the licensing and regulation
of newsboys and bootblacks, Committee
of the whole.

Senator Pottinger had fixed up his
plucked poultry bill so that it was ob-
jectionable to two senators. He had
introduced a substitute to it, however,
which prohibits the sale of decayed, tainted
and unwholesome poultry of all kinds
and of game. It passed by a vote of
32 to 2.

There was considerable debate over
S. F. 25, Barr's bill to provide for the
establishing of section or property lines
in any township in the state. Senator
Barr explained how it worked, and the
senate was passed.

Senator Vasey turned all his satire
loose on H. F. 151, Boxrud's bill to en-
courage the use of wagons with tires
three inches in width, allowing a re-
duction of \$2 of road tax. Senator Hot-
elmann led the farmers, and the lawyers
were routed, the bill passing by an al-
most unanimous vote.

THE NEW KNIGHTS OF LABOR.Claim That Two-Thirds of the Original Knights
Have Joined.

PITTSBURG, March 13.—Delegates are
arriving to the conference in this city to-
morrow to discuss the formation of a
new national party which shall have for
its principal objects the abolition of the
drink traffic and the free coinage of
silver.

Among the speakers who will be pre-
sented are Mrs. A. M. Rice and Mrs. S. M.
Perkins, of Cleveland. The conference
will be held in Lafayette hall, which is
historical interest as being the birth-
place of the Republican party.

A FIGHT WITH ROBBERS.

They Blew Open a Bank Safe, but Secured
Nothing.

FORT WAYNE, Ind., March 13.—Burg-
lars entered the bank of Walmath &
Son at Roanoke, fourteen miles south
west of this city, early this morning and
blew the safe door open with dynamite.

The noise of the explosion brought a
night watchman and some citizens to the
scene, and a fierce fight with revolvers
ensued. A number of shots were ex-
changed, but so far as learned no one
was injured. The burglars escaped with-
out securing any booty.

Spot Himself.CHICAGO, March 13.—A Bowman, a
broker, shot and killed himself in his
office at 162 Dearborn street this after-
noon.**The Italian Minister Protests.**

WASHINGTON, March 13.—Marquis
Imperali, first secretary of the Italian
legation, called at the state department
this morning and directed the attention
of the officials to the news from Wash-
ington Col. of the assassination of four
Italians. He asked that the good offices
of the state department be used im-
mediately to prevent further killing of his
countrymen.

La Prairie's Election.

LA PRAIRIE, Minn., March 13.—The
following ticket was elected yesterday:
President, Eugene A. Arnold; trustees,
E. A. Johnson, A. M. Bissler, Milton
Baker; recorder, Joseph McMahon;
treasurer, John A. Bowman, Jr.; justices
of the peace, Courtney A. Buell, M. A.
Leahy; constable, Al Harmon.

EXPERIMENT IS A SUCCESS.Shipping Pacific Wheat to Liverpool via
Panama.

MINNEAPOLIS, March 13.—The ex-
perimental shipment of Pacific coast
wheat from Portland, Ore., to Liverpool
by way of Panama, undertaken by F. H.
Peavey & Co., of this city, bids fair to be
a success. The firm today received
mail advices from Colon to the effect
that the trans-shipment had been effect-
ed at the isthmus without injury to the
wheat.

The new route saves the long voyage
around the Horn. It was a question
whether the wheat would not be spoiled by
the weather it would encounter cross-
ing the isthmus, but this fear is now
proved groundless, and it is probable
that coast wheat will go by this route in
future.

NO INDICTMENTS FOUND.George Grindall and Maggie Wachter Set at
Liberty.

MINNEAPOLIS, March 13.—The grand
jury has decided not to indict George
Grindall and Maggie Wachter for per-
jury in the Hayward murder trial and
they have accordingly been set at
liberty.

The arrests were on warrants sworn
out by Eliot's attorneys, and the jury
after hearing the evidence decided that
conviction would be next to impossible.

TAYLOR PROBABLY CAUGHT.The South Dakota Treasurer Under Arrest in
Mexico.

CHICAGO, March 13.—Officials of the
Pinkerton detective agency here de-
clared today that they have received no
information from their men regarding the
reported arrest in Mexico of W. W.
Taylor, the missing treasurer of South
Dakota, however, they believe that the
last word received from their opera-
tives who have been following Taylor was
that the ex-treasurer was supposed
to have sailed from Havana, Cuba, for
Vera Cruz and that the detectives be-
lieved they were close on his trail.

The Pinkerton people also admitted
that the Associated Press dispatches
telling of the capture, gave the correct
aliases of the detectives who are after
the man. It was apparent that the
officers belong to the story.

DETROIT'S HEALTH BOARD.The Council Will Not Appropriate Any Money
for It.

DETROIT, Mich., March 13.—The fight
between Mayor Pingree and the Detroit
health board recently appointed by the
governor has assumed a new phase. A
majority of the common council last
night refused to appropriate any money
for the health department, and instead
authorized the appointment of a com-
mittee of aldermen to look after the city's
health.

The members of the health board de-
cided today, on advice of the city coun-
cil, to bring legal proceedings to com-
pel the council to appropriate money for
the health department. A bill will also
be introduced in the legislature to the
same end.

THE CAPTAIN PERISHED.A Tugboat Sunk by Collision in New York
Harbor.

NEW YORK, March 13.—The tugboat
N. B. Starbuck, Capt. Brandow, was
sunk off Pier 17, East river, at 10:45 a.
m., by the steamship Seneca, of the
Ward line. The captain and crew of five
men were thrown into the river and had
to swim for their lives.

All were picked up by surrounding
tugs but Capt. Brandow's wounds were
so serious that all efforts to resuscitate
him were futile and he died at the barge
office. The Starbuck was passing a line
tug, Col. of the Seneca at the time of the
accident.

NEW NATIONAL PARTY.Prohibition and Free Silver Coinage to Be Its
Platform.

PITTSBURG, March 13.—Delegates are
arriving to the conference in this city to-
morrow to discuss the formation of a
new national party which shall have for
its principal objects the abolition of the
drink traffic and the free coinage of
silver.

Among the speakers who will be pre-
sented are Mrs. A. M. Rice and Mrs. S. M.
Perkins, of Cleveland. The conference
will be held in Lafayette hall, which is
historical interest as being the birth-
place of the Republican party.

A FIGHT WITH ROBBERS.They Blew Open a Bank Safe, but Secured
Nothing.

FORT WAYNE, Ind., March 13.—Burg-
lars entered the bank of Walmath &
Son at Roanoke, fourteen miles south
west of this city, early this morning and
blew the safe door open with dynamite.

The noise of the explosion brought a
night watchman and some citizens to the
scene, and a fierce fight with revolvers
ensued. A number of shots were ex-
changed, but so far as learned no one
was injured. The burglars escaped with-
out securing any booty.

Spot Himself.CHICAGO, March 13.—A Bowman, a
broker, shot and killed himself in his
office at 162 Dearborn street this after-
noon.**The Italian Minister Protests.**

ALL PEACEFULThe Love at New Orleans, Where the Riot-
ing Occurred Yesterday, Was Quiet
This Morning.Police Were on Hand Early in Force Expect-
ing There Would be More Violent
Deeds.Not a Negro Put in an Appearance on the
Levee and This Prevented
Trouble.Street Car Employes Were Talking of Going
on Strike But Will Appeal for
Justice.

NEW ORLEANS, March 13.—The levee,
the scene of yesterday's rioting, presents
a peaceful aspect this morning. Where
yesterday crowds of excited workmen,
armed with all kinds of weapons, pat-
rolled the river front, nothing was to be
seen this morning but squads of police-
men discussing the affair of yesterday
and the probable outcome. The police
did not wait until actual shooting began
before they took action, as was the case
yesterday was one never to be forgotten.

Word was sent to all precinct com-
manders last night to have their forces
on the river front at daybreak this morn-
ing. Consequently the police were on
hand in large numbers to prevent a re-
petition of yesterday's bloody affair.

There was a heavy fog hanging over the
river all morning, and the police were
under the impression that the rioters
would again take advantage of this fact
and commit deeds of violence. But this
belief did not pan out for the simple
reason that not a negro put in an ap-
pearance on the levee.

Every colored man whose business
calls him to the river front took a day off
today and very sensibly kept at home.
The various agents who have up to yester-
day been working negro screenmen
told their men to remain away until they
were sent for. At a meeting of the
agents last night, they decided that in
view of the present unsettled state of
affairs it would be bad policy to attempt
to work their colored laborers. They
realize that the white screenmen have
been worked up to a pitch of fury, and
that if an attempt was made to work
today more blood would be spilled.

The result was that the ships which are
being loaded by agents employing col-
ored laborers are undisturbed today.
There are, however, a dozen or more
ships receiving their cargoes, but they
are handled by white men and are not
being bothered at all. From present
appearances all trouble on the levee is
over, and unless something unusual hap-
pens there will be no repetition of yester-
day's rioting.

Governor Foster was up bright and
early this morning, notwithstanding the
fact that it was late when he retired. He
remained at his hotel until about 9
o'clock, first having received informa-
tion of his situation from the river were.
He received a number of ship agents and re-
iterated his assertion of last evening that
he would maintain peace and quiet at
all hazards.

He, however, advised the agents not
to attempt to work their colored labor
today. He believed that if the negroes
were kept off the scene twenty-four hours
the fighting spirit of the whites would die
off. The governor also received infor-
mation that the military were at their
armories, and he could be moved at a
moment's notice. Governor Foster said
early this morning that he did not antici-
pate any more trouble.

There is a rumor going the rounds that
the street car employes will go out on a
strike today at noon. For some time
past there has been trouble between the
employes and the railroad company on
the question of hours. Last night the
employes held a large meeting and it
was decided that one more demand
would be made upon the presidents, and
if it was refused that a strike would be
ordered. The employes this morning
denied that the strike would go into
effect at noon, but there is a well-defined
suspicion that it will take place.

Should the strike be ordered, it would
greatly intensify the feeling that now
prevails among the labor element of the
city. One thing that caused consider-
able talk was the presence of President
Shaw, of the Screenmen's association at
the car employes' meeting last night.
He made a very incendiary speech and
said that he advised the car men to
strike.

Governor Foster, when seen by an As-
sociated Press reporter at 10 o'clock this
morning, stated that he had nothing new
to report. He said that he had request-
ed another meeting of all exchanges, var-
ious military commanders and other in-
terested parties which will be held some
time this forenoon to discuss the situa-
tion. He declined to state what would
come before this meeting, stating that
there was a time to talk and a time not
to talk, and this was one of the times not
to talk.

The governor, however, said: "I am
determined that the law shall be upheld
at all times, and that the commerce
of the city shall be protected. If neces-
sary, all the power of the state govern-
ment will be used to that end."

It is now stated that they will
submit their case to a committee of citi-
zens and appeal to the governor. Several
more of the rioters have been arrested.

Receiver Appointed For.

CHICAGO, March 13.—A bill has been
filed in the superior court asking for the
appointment of a receiver for the State
Mutual Life Insurance company. The
company is the one whose officers, ex-
cuse Governor John L. Beveridge, president,
and S. M. Biddison, secretary, were in-
dicted by the postal authorities several
months ago on the charge of using the
mails for illegal purposes.

DR. FIELD REGULATOR CO., Atlanta, Ga.

FOLEY'S LARGE DEAL.

The Seine River Gold Property Owner Has Interested Eastern Men in the Wiegand Mine.

All Stock is to Be Withdrawn and Funds Will Be Provided for Full Development.

Mr. Foley and Others Have Acquired Title to Thirty-seven Forties in the Seine Region.

It was learned yesterday that a deal of great importance to this section of the country had been closed. I. C. Foley, of this city, owner of gold properties on the Seine river, received notification of the fact that a proposition made by him to certain Eastern capitalists had been accepted, and that work should be commenced immediately upon the development of the Wiegand mine.

A short time ago Mr. Foley made an Eastern trip for the purpose of interesting capital in the Seine River gold country, and spent some weeks in that pursuit. Two young men of means were interested and induced to make a trip to Rainy Lake to see if the showing bore out Mr. Foley's statements. From Chicago to Rainy Lake and back to Chicago in seven days was probably one of the quickest trips on record, but it sufficed to convince the two capitalists that the new gold fields are a promising place of investment, and they returned home satisfied with what they saw at the Wiegand mine.

Yesterday Mr. Foley received notification that his offer had been accepted. The Eastern men, who are well-known capitalists of good standing, have bought into the Wiegand. All stock will be withdrawn, and the company will be made a close corporation. The new men will provide all funds necessary for a full development of the mine, and as soon as it may be known how much and what kind of machinery is needed, they will put in everything necessary. The work will be pushed as fast as possible. All the numerous veins on the property will be stripped in order to determine their length and outcrops, and shafts will be sunk on all veins. On No. 5 vein, which has already developed, a shaft will immediately be sunk 100 feet.

Another deal has just been completed by Mr. Foley which is probably the largest made since the deposits in the Rainy Lake region first called public attention to themselves. After several months of negotiations he has secured title to thirty-seven 40-acre mining localities between the Scott Island and Wiegand properties, directly in the auriferous formation in which those properties lie.

On this land, amounting to 1480 acres, to which the title has but lately been acquired, the Seine Bay Land company has been formed. Mr. Foley having interested several Duluth men. The land has not been fully explored, but as it lies in the formation of gold bearing rock it is believed to be as rich as any of the surrounding country. The company, which has been formed, is composed of J. C. Foley, W. D. Cliff and F. W. Sullivan, of Duluth, and Capt. J. F. Foley, of Segunaw.

BECAME A RAVING MANIAC.

The Murderer of a Chicago Man Adjudged Insane.

KANSAS CITY, March 13.—A special to the Star from Mexico, Mo., says: Thomas Quinlan, the murderer of George Klumpfenstein of Chicago, has been adjudged insane. Quinlan tried to kill himself by cutting his throat and came near succeeding.

When he killed Klumpfenstein he was perfectly sane, but after he was sentenced to the penitentiary his mind failed and he became a raving maniac.

Florists Banqueted.

PITTSBURGH, March 13.—The visiting committee of the florists who were here arranging for the annual convention of the American Society of Florists in August were banqueted at the Hotel Anderson last night.

Who Wants It.

GOOD SPIRITS

Follow good health while you have it. Follow good health while you have it. Follow good health while you have it.

To reach, reclaim and restore such unfortunate cases to health and happiness, is the aim of an association of medical gentlemen, who have prepared a treatise, and therefore require contributions and treating of the nature, symptoms and curability, by home treatment, of such diseases.

A copy of this useful book will, on receipt of this notice, with 10 cents in stamps, for postage, be mailed securely sealed in a plain envelope. Address: THE INTERNATIONAL MEDICAL ASSOCIATION, Buffalo, N. Y.

WHEAT DECLINED TODAY.

There Was a Little Reaction from Yesterday's Sudden Advance.

The wheat market was fairly active today but there was some reaction from yesterday's sudden advance, the decline being due to weaker advices from Liverpool. There was good trading in futures. Business in cash wheat was very fair. The elevator took some No. 1 hard winter in round lots at 10 1/2 cts. May, but the ruling rate was 10 1/4 cts. The close was 1/4 ct. lower for futures, as follows:

No. 1 hard cash, 10 1/4 cts; March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts; No. 2 hard cash, 10 1/4 cts; March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts; No. 3 hard cash, 10 1/4 cts; March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts.

Car inspection today—Wheat 68. Receipts—Wheat, 62,238 bu. Shipments—Wheat, 10,000 bu.

New York Money.

New York, March 13.—Money on call nominally 2 per cent. Prime commercial paper, 2 1/2 cts. Sterling exchange steady at 24 1/2 cts. for demand and at 24 1/4 cts. for 60 days. Commercial bills, 24 1/4 cts. Silver certificates, 105 1/2 cts. Gold, 105 1/2 cts.

The Liverpool Market.

LIVERPOOL, March 13.—Wheat spot, quiet. No. 1 hard, 10 1/4 cts; No. 2 hard, 10 1/4 cts; No. 3 hard, 10 1/4 cts; No. 4 hard, 10 1/4 cts; No. 5 hard, 10 1/4 cts; No. 6 hard, 10 1/4 cts; No. 7 hard, 10 1/4 cts; No. 8 hard, 10 1/4 cts; No. 9 hard, 10 1/4 cts; No. 10 hard, 10 1/4 cts.

Cattle and Hogs.

CHICAGO, March 13.—Receipts, 42,000; market active; light steady; others easy at 10 1/4 cts. for demand and at 10 1/4 cts. for 60 days. Commercial bills, 24 1/4 cts. Silver certificates, 105 1/2 cts. Gold, 105 1/2 cts.

The Chicago Market.

CHICAGO, March 13.—Close—Wheat: March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts; No. 2 hard cash, 10 1/4 cts; March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts.

The Minneapolis Market.

MINNEAPOLIS, March 13.—Close—Wheat: March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts; No. 2 hard cash, 10 1/4 cts; March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts.

Gossip.

Received over private wire of B. E. Baker grain and stock broker, Room 107, Chamber Commerce.

Wheat has declined slowly today. A good many taking profits who failed to catch the top yesterday. The market was also disappointed by the cables and the light exports. The close was 1/4 ct. lower for futures, as follows:

No. 1 hard cash, 10 1/4 cts; March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts; No. 2 hard cash, 10 1/4 cts; March, 10 1/2 cts; May, 10 1/4 cts; July, 10 1/4 cts; September, 10 1/4 cts; December, 10 1/4 cts.

Colonial Bank Fund.

WHITE PLAINS, N. Y., March 13.—White a gang of laborers at Knollwood, the estate of A. T. Gillender, were excavating for improvements to the property, they dug up an old iron pot containing 250 pieces of gold and silver colonial money, of dates ranging from 1735 to 1770. It is supposed that the gold and silver belonged to some of Washington's soldiers who were encamped near the property during the battle of White Plains.

There is more catarrh in this section of the country than in any other. It is put there and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure the local trouble, increased the general misery. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, a medicinal preparation, is the only one that cures. It is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Sent on circulars and testimonials. Address: HALL'S CATARRH CURE CO., Toledo, O.

Sold by druggists, 7c.

FIGHT AT CRIPPLE CREEK.

Officers and Miners Fight and One Man is Killed.

CRIPPLE CREEK, Col., March 13.—The whole Cripple Creek district is greatly excited over a lively running fight last night between an officer and a number of miners and former railroad men, in which one man was killed and another injured.

Constable Frank Lupton had arrested a man named McQuaid at Victor for participation in the railroad strikes last summer. A number of his companions objected, and in the melee one man, Seth Ralston, was shot through the cheek. The officers finally got Ralston and McQuaid before a justice of the peace, where both were put under \$200 bonds, which they refused to give.

Lupton placed his prisoners on a train to bring them to Cripple Creek, but the train was stopped by a mob of miners, preventing the train's departure. When the constable approached the locomotive, the engineer jumped off and ran. Finally the mob broke up, but after going a mile was stopped ostensibly to let off passengers.

Patrick Looney and a couple of other men attempted to enter the train, but were lured by the mob. Lupton grappled with Looney and as he was looking around pulled a gun and fired. Looney was instantly killed. The prisoners were safely landed in jail here without further incident, but further trouble is expected.

FATHER FLANERY SHOT OUT.

Not Allowed to Take Part in Dean Seymour's Funeral Services.

AUBURN, N. Y., March 13.—The funeral services of the late Very Rev. Dean Seymour here were the most imposing rites ever witnessed in local church circles.

At the commencement of the services Father Flanery, of St. John's, was silenced by Bishop McQuaid, entered the vestry, carrying his missal and a silver headed cane, apparently intending to take part in the celebration of the mass, when he was stopped by Vicar General O'Hare, who commanded him to go where he was wanted.

Without any, Father Flanery left the church through the vestry and re-entered the auditorium shortly after, taking his seat among the worshippers.

LORD ROSEBURY TO RESIGN.

Another Report That the British Premier is About to Resign.

NEW YORK, March 13.—A special from London says: Lord Rosebery, owing nominally to the present state of his health, has determined to place his resignation in the queen's hands.

The real object of yesterday's cabinet council was not to consider the resignation, but to discuss the date of dissolution, which will take place immediately after the Easter recess.

Sudden Death.

PANA, Ill., March 13.—W. H. Newcomb dropped dead in his store here today of neuritis of the heart. He was a pioneer Democratic leader, postmaster and ex-mayor.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her. She is now well and happy.

To the Public.

There will be an exhibition given Thursday afternoon at 3 o'clock at the Spaulding house of the workings of a new fire escape with which Mr. Frisbee, with the consent of Mr. Silvey, receiver, has fitted up each room for the safety of his guests.

J. F. Foley, the agent, wishes the public to witness the same for their own benefit. 626 Chamber of Commerce, Duluth, Minn.

The Chinese War.

Don't forget Dr. Kikawa's lecture on the Chinese and Japanese war at the Unitarian church this evening. Admission 25 cents.

SIX ITALIANS KILLED.

A Mob Deals With Supposed Murderers in Colorado.

WALSBERG, Col., March 13.—A mob in ambush at 7:30 last evening fired on a wagon containing nine Italians, who are charged with beating A. J. Hixon, a saloonkeeper at Rome, six miles from Walsburg, Sunday last. Four of the Italians and the wagon driver were killed.

Later—A mob entered the Walsburg jail early today and killed two more of the Italians charged with the murder of A. J. Hixon. Six Italians in all have been killed.

RAINY LAKE GOLD REGION.

Capt. Pratt Has Given an Option on His Scott Island Interest.

Capt. Jay Pratt has given a 60-day option on his interest in Scott Island to U. M. Thomas, agent for a wealthy gentleman of St. Paul, Minn., says the Fort Francis News of March 6. Capt. Pratt was the discoverer of this promising island, which is located in Seine bay near the mouth of Seine river, and comprises about sixteen acres. Last fall an interest in the island was transferred to a party of capitalists, who contracted to sink a shaft and erect a stamp mill, but for lack of funds the mill was not erected. A shaft was sunk twenty-eight feet in ore that assayed as high as \$25 per ton. The party for whom the option is taken is expected up in about two weeks to inspect the property, and if he is satisfied with it and can make satisfactory arrangements with the other parties interested, the work of development will again be undertaken and a stamp mill erected in the early part of next summer.

A party of Wisconsin capitalists arrived on Sunday to look over the property. The party consisted of D. M. Hyde, of the millionaire lumber firm of Hyde & Sons, Appleton; W. B. Felton, a local capitalist and owner and speculator; Appleton; G. S. Conner, banker, Rhinelander; and T. E. Dockery, Fond du Lac. The party will visit the Seine River gold district.

D. C. Kelly, of the Kelly Mosher gold mine, was in town yesterday, says the Rainy Lake Journal. It is reported that he has refused an offer of \$50,000 for his interest in this wonderful gold property. It unquestionably is one of the richest gold properties yet discovered in the Rainy Lake district, and tenassay yielded all the way from \$7 to \$75 to the ton in gold. The property comprises 120 acres and has eleven well-defined veins, four of which have shafts sunk on them.

W. F. Mack, the Cleveland vessel owner, who is president of the Little American Mining company, together with H. and A. C. Bates, of Duluth, arrived in town last night, accompanied by James Hildreth. Mr. Weimer has discovered a shaft in the property to the new company.

W. R. Triggs and the Quirk boys own lots 661 and 662 on Swell bay and are working on a half mile shaft. A shaft is now down on one of the veins thirty feet and they are going on with the work. The vein they are now working on is a half mile wide on the surface, but at the bottom of the shaft it is between five and six feet wide and the first assay on the property from rock taken from the surface gave a return of \$12.84 to the ton in gold.

USE IT IN TIME.

Catarrh starts in the nasal passages, affecting eyes, ears and throat, and is in fact, the great enemy of the mucous membrane. Neglected colds in the head result invariably in catarrh, causing an excessive flow of mucus, and if the mucous discharge becomes interrupted the disagreeable results of catarrh will follow, such as bad breath, severe pain across forehead and about the eyes, a roaring and buzzing sound in the ears and oftentimes a very offensive discharge. No one knows anything of the life of a catarrh sufferer who has not the acknowledged cure for these troubles.

IT WAS A RATTLING MILL.

JIM SELLER, Iowa's Colored Pug, Knocked Out by a White Man.

MAINTOWN, Ia., March 13.—Jim Seller, the colored welterweight champion of Iowa, met his first defeat last night, being knocked out in the fourth round with a white man named Greenwood near Webster City.

An all round fight among the spectators followed the announcement of the result, and many eyes were blacked and heads bruised. A number of arrests will probably be made.

A Chance to Save Money.

There is no lighter and easier way you should not feel well and strong. That great offer of Dr. Greene's is proving the best friend that weak and delicate people ever had. Buy it for the life of him at this office, 35 West Fourteenth street, New York city, telling the symptoms you are suffering from, will be immediately answered by the doctor, describing your complaint minutely, and making you understand perfectly just what ails you. And all this costs you nothing. You don't have to leave your home and you don't have to pay any doctor's fee to learn exactly what your complaint is, and how to get well and strong, from Dr. Greene, the greatest living specialist in curing nervous and chronic diseases. The doctor makes a specialty of curing patients through his great system of letter correspondence, and is having wonderful success. Thousands of weak, delicate men and women are writing him about their complaints, and are being permanently cured. It was he who discovered that world-renowned curative, Dr. Greene's Nervura blood and nerve remedy. Write the doctor at once and see what he says about your complaint. It will probably be the means of your getting back your health.

THE FISHING INDUSTRY.

An Important Bill Now Before the Wisconsin Legislature.

To the Editor of The Herald:

The effort now being made by the Wisconsin Academy of Sciences to secure an appropriation through their present legislation for the establishment of a geological and natural history survey of their state should enlist the hearty support of not only Wisconsin citizens engaged in the fishing industry but of all fishermen and fish culturists and surveyors of the fish-culturist and fisherman.

President C. R. Van Hise, of the Wisconsin Academy of Sciences, in urging the measure says:

"The zoological portion of the proposed survey would concern itself chiefly with the life of the waters of the state. In no direction are we more ignorant than in regard to the life, food and enemies of our fish. Yet from the standpoint both of profit and sport a knowledge of these things is necessary. Our state, bounded by two of the great lakes, and situated with numerous smaller bodies of water, will always find her fisheries a leading interest. We now expend thousands of dollars annually to raise and plant fish in our waters. We know little of their food and enemies and the other conditions for their preservation, growth and multiplication. As an example, we may refer to the whitefish. No one knows anything of the life or fate of the millions of fry planted in the lakes by this and adjoining states. No one knows anything of the food, enemies or habits of the young whitefish. It is not too much to say that the cost of a study of the lower animal and plant life of the lakes, such as would give the conditions for intelligent action in planting whitefish, would be immediately repaid. Nor are the questions less important which are connected with our thousands of smaller lakes. From these the population of Wisconsin will draw a continually increasing supply of food. But ignorant management of our waters is as irrational and wasteful as ignorant agriculture. We should enter upon the study of the problems of water-life with the same union of practical and scientific aims as is shown in the handling of problems of agriculture."

The importance of the investigations conducted as outlined by President Van Hise cannot be over-estimated and any citizen of Minnesota interested in the welfare of her fisheries should use his influence with Wisconsin friends to urge the measure.

PRESENT EPIDEMIC

Of Cold in the Head or Catarrh is Almost Universal in Duluth.

A Thorough Course of Treatment at the Copeland Medical Institute Cures all Such Troubles.

Now that catarrhal affections of every description seem to have assumed something of an epidemic form in Duluth, it would seem timely and proper to again present the list of symptoms prepared by Dr. Copeland to enable sufferers to understand the specific nature of their ailment. Probably more than 50 per cent of the climate sickness now prevalent, though known under many different names, would be found under competent diagnosis to be simply a subtle catarrhal infection and poisoning of some vital part or vital organs of the body.

Catarrh of the Head and Throat.

The most prevalent form of catarrh and its results from neglected colds. Speedy and inexpensive cure by the Copeland system.

Sold in Duluth by Smith & Smith, 101 West Superior Street.

MEDAL REMAINS HERE

The Duluth Rink Defeated the St. Paul Men Yesterday Afternoon Again Winning the Merriam Trophy.

Harry Hurdon Defended it Against D. McMillan, of St. Paul, and the Game Was Exciting.

Hurdon Played a Magnificent Game and Made Many Brilliant Shots—Woodruff vs. Fullerton This Afternoon.

At 3 o'clock yesterday afternoon the St. Paul rink skipped by Dan McMillan, took place on the ice at Glen Avon to play for the Merriam medal, the trophy of the state championship, against a Duluth rink, skipped by Harry Hurdon. The surrounding ices were covered with spectators, and every play in the game was watched with interest and brilliant plays, of which there were not a few, were received with tumultuous applause.

The ice was in a most excellent condition, likewise the players. Early in the game it became apparent that Harry Hurdon was playing a phenomenal game. Time after time a brilliant play of his brought a round of applause from the spectators. In one head the visiting rink had laid five stones in position, when Hurdon sent his last shot into second, halting the visitors' stones out of the way and spoiling St. Paul's chance for four points. Up to the tenth end, when the score stood 11 to 10 in favor of Duluth, the game was even. From then on the Duluth rink gained, and the score in the sixteenth end resulted 17 for Duluth and 12 for St. Paul.

The rinks were as follows:
St. Paul, D. McMillan, skip 12; Harry Hurdon, skip 17.
Duluth, H. Hurdon, skip 12; Harry Hurdon, skip 17.

The score by heads was as follows:
St. Paul, 11 2 0 1 0 2 0 4 0 3 0 0 11—12
Duluth, 10 2 0 1 0 2 0 4 0 3 0 0 10—12

This gives Duluth the Merriam medal for another year.

After the game supper was served at the rink with much jollity. D. MacLeod, Charles McMillan and James Quigley gave Scottish songs and ballads. In the evening two games were played as follows: Dr. Carson, 15; Thomas Gibson, 9; Dan McMillan, 5; C. McMillan, 10.

C. B. Woodruff is playing S. F. Fullerton for the curler's buttons at the rink this afternoon.

BETHEL SEWING CLASS.
One of the Greatest Features in Connection With That Institution.

One of the greatest features connected with the work of the Bethel is the sewing school for girls. Every Saturday afternoon seventy-five or eighty of them ranging in ages from 5 and 6 up to 14 and 15 years, gather in the large audience room at the Bethel and under the superintendence of a number of volunteer instructors are taught the use of the needle and other accomplishments in the sewing line. They make great progress, too, and are apt pupils. They are the most interested lot of children a person ever laid eyes on and the most diligent in their work shows plainly that their instructors make it a pleasure for them rather than a task. Many of them are becoming remarkably proficient and are acquiring a knowledge which will be invaluable to them in their after lives.

CARNEY IN THE LEAD.
He Pulled Away From Aikine in the Playing Yesterday.

C. M. Aikine went to pieces in the pool match yesterday and James Carney, the Minneapolis man, pulled away from him in lively shape. In the afternoon Carney began with Aikine fifty-eight balls in the lead. He ran down 243 while Aikine was making 200 and began in the evening only fifteen balls behind.

In the evening Carney needed 215 to bring his score up to 500, and he made them while Aikine was getting 137. This left the latter 737 or sixty-three balls behind. Aikine only swept the table once, while Carney cleared it off four times in the afternoon and four times in the evening.

Play was resumed at 3 o'clock this afternoon and at 8 o'clock this evening they will play again.

I you can't get coal delivered promptly try the Duluth Van company. They deliver promptly. No. 10 East Superior street.

City Band Concert.

Tomorrow evening the concert of the new Duluth City band will be given at the Temple. Under the leadership of Otto Muhlbauser the band has been rehearsing constantly for several weeks. Yesterday the men appeared on the street traveling over the street car line and they made an excellent impression. In giving this concert the band will be assisted by Mrs. D. H. Day, the talented pianist, the High School Musical society under the direction of A. F. M. Cuntance, the Bohemian club and others.

Hermann's Many Wonders.

Next Friday and Saturday, at the Lyceum, will be a carnival of mirth, magic and mystery. For Hermann, with his many acts of necromantic diablerie will hold forth. Hermann's entertainment this season is brought thoroughly "up to date" and is brim full of magic and meriment. He presents several decided novelties which he has never been known to be connected with before, such as a biblical miracle, a spectacular magic-comedy which is a short play with speaking parts and a national patriotic illusion. The names of these marvels are "The Asiatic Trunk Mystery," "The Columbian Transformation," "The Artist's Dream" and "Noah's Ark."

"Adame Hermann will produce her best, useful and bewildering spectacular acts which are of the most elaborate order and require the use of fourteen different calcium lights. Special attention is paid this season to the musical part of the entertainment. Hermann, carrying with him the eminent musician, Eddie Fox, who, with the aid of an orchestra, will introduce many novel and unique melodies.

BANKERS ORGANIZE.
Duluth and Superior Men Formed an Association Last Evening.

An association was formed last evening by the bankers at the head of the lake. Thirty-five of them were at the Spalding and enjoyed a banquet. The dinner lasted until 10 o'clock and the question of organizing was then discussed. A committee of six was appointed to draft a constitution and by-laws. They are E. T. Buxton, T. C. Alvord and H. T. Fowler, of Superior, and F. W. Paine, E. W. Matter and J. F. McLaren, of Duluth. The meeting was adjourned subject to the call of the chairman at the West Superior hotel. An annual banquet is to be one of the features of the organization.

FARMERS' INSTITUTE

Talks on Poultry, Small Fruits, Stabling of Dairy Cows and Clover Growing Given Yesterday.

"Agricultural Education in the Public Schools" Was Discussed by Professor George T. Powell Last Evening.

Superintendent Gregg Discussed "The Selection of Dairy Cows" Today and Gave Some Valuable Points.

The farmers' institute held three sessions yesterday and everyone was well attended. At the afternoon session Mrs. Tilson started out with an address on shelter for poultry. She showed the advantage of having a scratching shed in connection with the main poultry house. A plan of ventilation was presented and numerous questions answered.

Professor Powell spent half an hour in answering questions concerning the growing of small fruits, particularly currants and raspberries. He said that a good crop of currants would realize about \$300 an acre.

W. L. Carleton talked on the stabling of dairy cows. Dirty milk, as supplied in many Duluth hotels and boarding houses, is due to carelessness on the part of the dairymen. First class results in dairying can only be secured by keeping the cow warm and comfortable.

Theodore Louis closed the afternoon session with a talk on growing clover. He showed what fertilizing power clover has on soil and stated that on clover soil he had raised 120 bushels of corn and sixty of oats.

Last evening, at the Central High School Assembly hall, Professor Powell gave a lecture on "Agricultural Education in Public Schools." He described several systems that might be employed. In the lower grades, the teachers could give short talks on some agricultural subject and on the natural sciences.

A great deal of information on the growth of seed could be imparted to pupils. Not one person in fifty knows how the bean sprouts out of the ground. Blackboard pictures could be given of the different stages of plant growth.

The ignorance of people concerning plants about them is surprising. Few know that timothy consumes soil and that clover preserves and fertilizes it.

The ignorance of city children about country life and the commonest agricultural matters is astounding, said the speaker. In the Boston schools, for instance, it was a short time ago found that 25 per cent of the children were not aware that milk came from cows. Sixty per cent did not know that bread was made from wheat. Forty-seven per cent did not know that wood came from trees.

This illustrates the fact that too much time is devoted to technical training and too little to the natural sciences and agricultural topics.

The speaker concluded with the statement that country life produces independence of spirit. If agricultural subjects were more generally taught in the public schools, the speaker said, the great influx of country boys to the cities, where they are starving, and, instead, would give them a deep interest in farm work and pursuits.

This Morning's Session.
The session of the farmers' institute opened promptly this morning, and despite the cold, a goodly number were present. The interest among all classes is remarkable. Many attend and give the closest attention who never had heard of the institute before. The speaker, Judge Knapp, was present yesterday, went to the lecture last night and was right on hand this morning.

He opened the session by talking on cabbages, cows, hens and raspberries, with genuine interest and satisfaction. The speaker, Judge Knapp, who is actually engaged in those pursuits, or who expect to be, must not be forgotten.

The morning session opened with a talk on the topic, "Selection of Dairy Cows," by Superintendent O. C. Gregg. He referred to a year's test of a herd of cows, the state experiment station. The cows were selected by Professor T. L. Haacka and Superintendent Gregg and purchased at farmers' prices. The cows made a record of 100 pounds of butter each. Superintendent Gregg also said that of four essential points in the selection of cows for milk, the first to be considered in the selection of an animal is depth of flank. That is an indication of strong digestive powers—a most important thing in the selection of a milk cow.

The speaker then made the following points:
Dairy quality does not exist with uniformity in any dairy breed. The dairy breeds may be classed as Holstein, Jersey, Holstein, Guernsey and Ayrshire.

Fine dairy blood is found in limited quantities in the short horn. Scientific dairy breeding is a matter of recent origin.

Many full blooded dairy animals are utterly worthless because their form does not conform to what is now known to be the dairy form, which is always found in all heavy milkers.

The law of dairy development was briefly outlined by Superintendent Gregg and both the direct and indirect results of dairy conditions as affecting the form of the animal were pointed out. The essential points were held to be comparatively few in number but were the very important things to be observed in the selection of dairy cows.

At the close of the talk many questions were asked and answered.

Professor Powell spent half an hour in talking on and answering questions about garden vegetables, seeds, varieties, methods of soil culture, and was followed by Mrs. Tilson on one of her matchless talks on poultry. This morning she confined her remarks principally to vermin, chicken roasts and the better arrangement and the care of poultry houses.

The session closed at 4 o'clock this afternoon, and will be held at the same place tomorrow night. The speaker attended both days will pronounce it a complete success in every respect.

I. O. O. F.
Robert Donald, of Model lodge No. 147, Wyoming, Ont., died last night at St. Luke's hospital. He was buried under the auspices of the order here on Friday afternoon at 2 o'clock.

Not a Secret Patent Medicine.

Whether we eat to live or live to eat, it is certain that the possession of a healthy stomach and sound digestion go a long way toward making life desirable, successful, enjoyable. Beauty in woman, strength, mental capacity, endurance in man, depend more upon vigorous digestion than upon any other one thing.

The dyspeptic man is irritable, uncertain, fearful of the future. The dyspeptic woman is nervous, sallow, subject to headaches and despondency.

And what is the cause of these common types of men and women? Simply, indigestible food, nothing more, nor less. The appetite being capricious, not enough food is eaten and what is eaten, instead of being properly digested, remains in the stomach for hours, a sour, fermenting mass, poisoning the blood, a source of irritation to every nerve and organ. No wonder people suffer from poor blood, shattered nerves, headaches, palpitations, heart, irritable tempers and gloomy, discontented feelings.

Now, what is the nature of the cure for this common condition? Is it "blood purifiers" and "nerve tonics"? By no means, because they don't reach the seat of the trouble. Go to the fountain head, the stomach, get that in good healthy working order, and pure blood, strong nerves, bright eyes, clear color will be the natural result.

Why not? Where does blood, nerve, bone, sinew and flesh come from anyway, if not from the stomach, the food we eat and digest?

To cure indigestion, the one thing necessary is to give the stomach a rest or partial rest by the daily use for a time of some remedy which will digest food.

There is a very excellent preparation of this kind, not a marvelous secret patent medicine, but a pleasant, harmless combination of vegetable essences, fruit salts, pure pepsin and Golden Seal, sold by druggists under name of Stuart's Dyspepsia Tablets, and nothing to equal it has yet been produced in the whole category of patent medicines.

Stuart's Dyspepsia Tablets is superior to them all, because when these tablets are used you know what you are taking into your stomach. No secret is made of their composition and physicians and chemists know that one grain of Stuart's Tablets will digest 3000 times its own weight of wholesome food. Dr. Jennings recommends them highly, not only as a cure for indigestion, but also because they increase flesh by increasing nutrition.

Dr. Handson says to increase flesh, appetite and to secure healthy digestion I have found nothing so safe, so effective as Stuart's Dyspepsia Tablets. James Bevan, of Madison, says, "I suffer from nervous dyspepsia and catarrh of stomach. Everything I ate seemed to sour on my stomach, could not enjoy my food, and I was losing weight. My druggist advised Stuart's Dyspepsia Tablets and I can now eat anything I want, have gained in flesh and good spirits and I know the tablets did it and I shall always keep them within reach."

One of the most remarkable cures ever made by these tablets was in the case of Mrs. Sarah Skeels, of Lynville, Iowa, who had chronic dyspepsia for twenty-five years, and doctors pronounced her case incurable, yet she enthusiastically says that the tablets did it and she is now doing good for a weak stomach than \$50 worth of ordinary doctor's fees.

AMONG THE SAWMILLS.
Brewer & Sons of Saginaw Have Entered the Duluth Lumber Field.

J. B. Stevens has a contract to saw 100,000,000 feet of logs for Brewer & Sons, of Saginaw. This is the first season the Saginaw firm has entered the Duluth field for sawing, and the contract is only a starter. This year it will handle 20,000,000 at Duluth and Ashland.

Merrill & King already have 45,000,000 feet of sawing in sight for this season, and the contract is only a starter. This year it will handle 20,000,000 at Duluth and Ashland.

The Lesure mill has 15,000,000 feet of logs in sight for this season's cut. It will run only one day.

It is understood that within a few days vessels have been chartered to take 12,000,000 feet of lumber from the Richards mill at New Duluth to Chicago. Ten million of this will be this season's cut. The firm has sold its entire 1895 cut.

THE LEGISLATIVE PARTY.
The Solons Will Arrive Tomorrow Evening and Will Be Entertained.

The legislative party will arrive in Duluth tomorrow evening. Preparations have been made for entertaining them during their stay. They will be first taken to supper and afterward there will be a reception of entertainment at the school at the High School. The school board has extended the use of the Assembly hall. A special effort will be made to show the legislators that Duluth is one of the most progressive cities in the state in matters of education.

The reception committee of the chamber of commerce, consisting of E. C. Gridley, Ray T. Lewis and James H. Higgs began the work of preparing for the visit of the legislative party. The committee has now been increased. President Hugo is a member, ex-officio, and Col. Graves, Leonidas Merritt, James E. York, L. N. Wilkerson, A. G. Leland, G. C. Harley, Superintendent Derfeld and W. E. Richardson have been added.

Mr. Hugo is in St. Paul and he will find out the number coming and advise the committee here, also furnishing whatever other information he can secure.

After the reception at the High School, the party will leave for the range and spend all of Friday and most of Saturday there. On Saturday they will return to Duluth about noon. Lunch will be served in the evening a banquet will be given. The visitors will return to St. Paul on Saturday night.

A meeting of the committee was called for 3 o'clock this afternoon to make further arrangements for the entertainment of the visitors.

ANDERSON BILL BEATEN.
Failed to Get the Required Number of Votes in the Senate.

St. Paul, March 12.—The Anderson bill for the taxation of unused railroad lands was lost in the senate late yesterday afternoon, owing to the unavoidable absence of one or two senators who favor it. It took twenty-eight votes to pass it and it received only twenty-seven. Senators Cronkrite, Lloyd, Stebbins and Smith were absent, and it is believed at least two would have voted for the bill.

Seeing that the bill was defeated, Senator Barr, of Blue Earth county, changed his vote to the negative so that he might later move a reconsideration of the vote.

Will Muster in a Camp.
Tomorrow evening, at the Grand Army hall, Hayes block, No. 32 East Superior street, Post Col. E. H. William, of St. Paul, mustering officer, will muster in a camp of Sons of Veterans. For some time there has not been a camp in Duluth, the old one having disbanded.

The Modern Way.
Comments itself to the well informed, to the pleasantly and effectively what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and rid the body of colds, headaches and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs.

Ten-Acres Tracts.
On Vermillion road, two and one-half miles from Woodland car line, for sale by J. C. & R. M. HUNTER.

NOTICE OF MORTGAGE SALE.
Default has been made in the payment of the sum of twenty-nine hundred thirty and 56/100 dollars, which amount is claimed by me as due on the date of this notice upon a certain mortgage containing a power of sale now held and delivered by Mary L. Lewis to American Loan and Trust Company, dated January 21st, 1895, and recorded in the office of the recorder of deeds of St. Louis county, Minnesota, on the 17th day of February, 1895, at 11 o'clock a. m., in Book 121 of mortgages, on page 621.

Which mortgage was duly assigned by said American Loan and Trust Company to W. W. Braden, state auditor and recorder of deeds of St. Louis county, dated April 24th, 1895, and recorded in the office of the recorder of deeds of said county on the 28th day of April, 1895, at 2 o'clock a. m., in Book 50 of mortgages, on page 276.

Which mortgage was duly assigned by said W. W. Braden, to William E. Richardson, as assignee of said American Loan and Trust Company, by written instrument, dated December 11th, 1894, and recorded in the office of the recorder of deeds of said county on December 13th, 1894, at 2:30 o'clock p. m., in Book 121 of mortgages, on page 281.

And whereas, all interest in said mortgage held or owned by said American Loan and Trust Company, was assigned by said W. W. Braden, to William E. Richardson, as assignee of said American Loan and Trust Company, by written instrument, dated January 21st, 1895, and recorded in the office of said recorder of deeds on January 22nd, 1895, at 10 o'clock p. m., in Book 121 of mortgages, on page 281.

And whereas, all interest in said mortgage held or owned by said American Loan and Trust Company, was assigned by said W. W. Braden, to William E. Richardson, as assignee of said American Loan and Trust Company, by written instrument, dated July 11th, 1894, and duly recorded in the office of said recorder of deeds on November 13th, 1894, at 10 o'clock a. m., in Book 121 of mortgages, on page 281.

And whereas, all interest in said mortgage held or owned by said American Loan and Trust Company, was assigned by said W. W. Braden, to William E. Richardson, as assignee of said American Loan and Trust Company, by written instrument, dated July 11th, 1894, and duly recorded in the office of said recorder of deeds on November 13th, 1894, at 10 o'clock a. m., in Book 121 of mortgages, on page 281.

THANKS IT TRUE.

William A. Pinkerton Believes the Report of the Arrest of Defaulting Treasurer Taylor is Correct.

Taylor Went From Tampa to Havana and He Had Some Trouble on the Steamer.

He Became so Upset That the Captain and the Purser Observed Him Very Closely.

Attorney General Crawford Is Now on the Way to Washington to Secure Extradition Papers.

JACKSONVILLE, Fla., March 14.—William A. Pinkerton, who is here, thinks that the dispatch from Havana which announces the arrest of Taylor, the fugitive Dakota treasurer, is true. One of the detectives of the Pinkerton agency who has been following Taylor all over the country, was in Havana the other day on a very hot trail and the last heard of him was when he sailed from Vera Cruz, where Taylor had gone on the preceding steamer. The news of the arrest was probably brought to Havana from Vera Cruz by the same vessel, which has just had time to make the trip. Taylor has made a very extensive tour since he disappeared from Chicago so suddenly. From Tampa he took the steamer Olivette for Havana. It was on that steamer that a detective got the most positive proof of his identity. There was some trouble about his stateroom. It was sold to some one else, a gentleman and wife holding duplicate tickets, and Taylor was turned out. The vessel being crowded, there was no cabin for him, and the steward made him a bed in the smoking room. But the fugitive was very obstinate and upstirred, and made such a disturbance that the captain and finally the captain had to be called in to quiet him. They succeeded in doing so, and in that experience observed him a great deal more closely than they usually do passengers. When the detective came along with his photograph, almost every man on the ship identified it instantly, and the officer was convinced beyond a doubt that he had been following the right man. The ship's people knew the man, and he had been in the city three days before.

Mr. Pinkerton also believes that he has a good share of his plundered away. Wherever he has been, the fugitive has given himself all the pleasure possible, has required the best and has had plenty of money to pay for it.

TO GET EXTRADITION PAPERS.
Attorney General Crawford Is On the Way to Washington.

PIERRE, S. D., March 14.—Attorney General Crawford has gone East on a mysterious mission, supposed to be connected with the Taylor matter. He left hurriedly after receiving a dispatch and managed to avoid all questions. The general impression that he has gone to Washington to secure the papers necessary to extradite Taylor from Mexico.

It is known that Taylor has powerful friends and influences back of him, and the state officers desire to be thoroughly prepared for the vigorous fight they will have to make before Taylor is brought back to American soil.

THE WISCONSIN LEGISLATURE.
Three Appointments Made to the State Board of Health.

MADISON, Wis., March 14.—Governor Upham has appointed J. Q. Sutherland, of Janesville, as member of the state board of health and vital statistics, in place of J. S. Reeves, of Appleton, for the term ending February 1, 1900. G. W. Harrison, of Ashland, in place of Henry Day, of Eau Claire, for the term ending February 1, 1900. H. J. McNeal, of Fond du Lac, in place of J. W. Hancock, for the term ending February 1, 1901.

The committee on agriculture reported substitute for the bill providing for a handbook setting forth the natural advantages and resources of Northern Wisconsin. The substitute cuts the issue from 50,000 to 25,000 copies of 200 pages. The bill authorizing the governor to grant two unconditional pardons each year went to a third reading, although objections were raised against it.

Amnesty for Capt. Roman.
ROME, March 14.—The birthday of King Humbert was celebrated today. His majesty granted amnesty to a number of offenders, among them being Capt. Roman, the French officer who was convicted of espionage and sentenced in November last to fourteen months' imprisonment and to pay a fine of 1200 francs.

Warship Probably Lost.
TANGIER, March 14.—A Moorish steamer has gone in search of the missing Spanish cruiser Reina Regente, in the hope that she has taken refuge in some Moorish port not having telegraphic communication with Europe. As time passes and no news is received of the warship, the belief that she has foundered with all hands grows stronger.

A Missing Husband.
NEW YORK, March 14.—Edward G. Bendery, 30 years of age, of Chicago, came to the city on Saturday with his wife and put up at the Morton house. Mr. Bendery left the hotel on Tuesday night and has not been seen by his wife since. Mr. Bendery is a canvasser and came to the city to secure employment.

THE TROUBLES IN SAMOA.

Charges of Impediment Against the President of the Council.

APIA, Samoa, Feb. 27, per steamship Arawa, via San Francisco, March 14.—The big German mercantile firm of Frings & Co., which was brought into unpleasant notoriety through importing and selling rifles and ammunition to the rebels, has been forced into insolvency. A large number of local tradesmen have been affected by this bankruptcy.

King Malletta and his government have prepared charges of impediment against Herren Schmidt, the president of the council, and have sent a petition to the three treaty powers praying for his recall. The rebel party are at present congregated in Aana, but there has been no recent outbreak.

King Malletta and his government have prepared charges of impediment against Herren Schmidt, the president of the council, and have sent a petition to the three treaty powers praying for his recall. The rebel party are at present congregated in Aana, but there has been no recent outbreak.

Several Valuable Buildings Burned and Two Men Fatally Hurt.

LARAMIE, Wyo., March 14.—One of the most disastrous fires in the history of this city broke out at midnight. The immense building of the Trading Company, which had a large stock of goods, is completely destroyed. The loss will probably reach \$150,000. There is about \$60,000 insurance.

The Trading building, which was crushed like an egg by the falling walls and the stock is buried under the ruins. Four men were injured. James Foster is dead, and George Cordine, a university student, who was buried with the others under a falling wall, cannot live. The fire broke out in the rear of the building, and the flames spread to the large stock of goods, which was entirely destroyed.

ALL QUIET AT WALSBERG.
Governor McIntyre Does Not Fear Any International Trouble.

DENVER, March 14.—Governor McIntyre's advice to Walsenburg today are to the effect that all is quiet and the sheriff does not anticipate any further trouble. The governor does not think there is any international question will arise over the trouble, although he will assist the representatives of the Italian government in every way to get at the truth of the matter.

He stated today that since the officials of the country had extended to the Italians the same degree of protection they would have accorded to Americans, no complaint of treaty violations could arise.

The killing of Deputy Sheriff Walsby at the time the attack was made on the prison was some degree of inadequate protection, which might be made by the Italian government.

STRIKERS CLAIM VICTORY.
Two-Thirds of the Pittsburgh Miners Working at Union Rate.

PITTSBURGH, March 14.—The strike of the miners of the Pittsburgh district is but one week old today and there are nearly two-thirds of the miners of the district at work at the union rate—60 cents per ton. The strikers consider the fight practically won, but they may yet bump diverse and adverse circumstances in the persons of obstinate railroad operators.

The river operators have conceded the demands of the miners and there has been a general resumption of work at all the river mines.

Two Passengers Hurt.
NEW YORK, March 14.—A train on the elevated railroad crashed into the bumpers at Third avenue and thirty-four street today. Two passengers were badly hurt. Lydia Thompson, supposed to be the actress, was injured internally. She was taken to Bellevue hospital. Maudie Fisher, 38 years, received bodily injuries.

Would Meet Wolcott.
BOSTON, March 14.—"Mysterious" Billy Smith sent a letter to Matchmaker Kennedy, of the Seaside club, of Coney Island, stating that he is willing to meet Joe Wolcott in a 25-round contest at Coney Island. Smith wants to match at 142 pounds.

Only the American Flag.
SPRINGFIELD, Ill., March 14.—The committee on federal relations of the house today made a favorable report on Kaiser's bill to prohibit the raising over any public building in this state of any flag save the stars and stripes.

A Great Stallion Dead.
FORT WAYNE, Ind., March 14.—Strathmore, the great stallion, is dead, from the effects of a fall he received about three weeks ago. He was foaled in 1886 and was the most famed of all Rysdyk's Hambletonians.

The Mayor Acquitted.
NEW ORLEANS, March 14.—Judge King read his decision in the impeachment proceedings against Mayor Fitzpatrick. Three charges have been decided so far. They are in favor of the mayor, acquitting him on all charges.

His Condition Hopeless.
MADISON, Wis., March 14.—Chairman Thom, of the Republican state central committee is somewhat better today. His death is only a matter of a short time, however.

A Bank Wrecked.
MARSHALL, Mo., March 14.—The Corder bank, twenty miles west of here, was wrecked by burglars last night. The vault was broken open and the money and the bank's books were carried off. The burglars became scared at the explosion and fled empty handed.

Says She Was Persecuted.
NEW YORK, March 14.—Zella Nicolaus, accompanied by her husband, was again before the extraordinary grand jury today to continue her story of police persecution which she began yesterday.

MINNE'S OFFER.

Formal Offer of Loring Park as a Capitol Site by Minneapolis to the Legislature.

An Animated Debate Ensued and a Motion to Refer to a Special Committee Defeated.

The Speaker Sent It to the Judiciary Committee to Report on the Offer's Legality.

The Charter Bill is to be Taken Up First Thing on Monday in the Senate.

ST. PAUL, March 14.—Although the state capitol commissioners have contracted for a new capitol site in this city, as directed by the state constitution, the city of Minneapolis, through Mayor Pratt, the park board and city council, today presented to the house of representatives a proposition that Loring park, a 36-acre park in the residence portion of Minneapolis, would be donated to the state as a capitol site if the state would locate the capitol there and build thereon.

A lively debate was precipitated on the reference of the proposition, the motion for a special committee being taken as an attack on the speaker and his composition of the public buildings. Mr. Douglas, one of the ablest lawyers on the floor, maintained that the proposition, although doubtless made in good faith, had no legal standing, as Loring park had been acquired for park purposes, and under the law could be used for no other purpose, and he refused the statutes covering the point, together with several supreme court decisions in support of his position.

Mr. Gibbs moved to table the whole matter, but the motion was lost, as also was the motion for special reference, and the speaker sent it to the judiciary committee to determine the legality of the proposition. A similar proposition was received from the city of Stillwater and laid on the table.

Secretary Langum reported that the senate had passed a large number of bills, among the number being H. F. 1, the famous Anderson railroad land tax bill. Among them was also a house bill to furnish money for grass seed for forest fire sufferers, which had been amended in some slight particulars, and on motion of Mr. Warren, the amendments were immediately concurred in and the bill passed as amended. The house adjourned until Monday morning.

In the house yesterday afternoon two bills introduced by Mr. Cant, one relating to redemption from tax sales, and the other to fees of clerks of district courts, were among those given final passage.

THE DOINGS OF THE SENATE.
The Charter Bill To Be Taken Up First Thing on Monday.

ST. PAUL, March 14.—Senator Cronkite was still among the missing when the senate was called to order this morning. An echo of the fight of the preceding night on the Anderson bill was heard when Senator Yale made a request that he be recorded as voting in the negative. He was out at the time the vote was taken. President Day said this could not be done, but that a record of Senator Yale's request would be made in the journal.

The following bills were introduced: Mr. Spencer, to encourage the propagation of whitefish in lakes of an area of not less than three square miles. Game and game law.

Mr. Stebbins, relating to chattel mortgages. Judiciary.

Mr. Potter, to provide for election of state dairy commissioner by the people. Public health.

Mr. Potter, to prevent adulteration of candy. Public health.

Mr. Morgan, to amend the law relating to the terms of district court in the county of Hennepin. Passed under suspension of the rules.

Mr. Morgan, to amend the law relating to grand and petit juries in the county of Hennepin. Passed under suspension of the rules.

The charter bill was to have been made a special order today, but with the understanding that it should be taken up the first thing Monday, it gave way to the regular order. Senator Fuller's proposal for an amendment to the constitution, repealing the amendment forbidding special legislation so far as it relates to cities, was made a special order immediately after the Sheehan home rule bill is disposed of. The latter bill follows the charter bill.

United States Senator Wilson, of Washington, was a visitor in the chamber, and a recess was taken for the senators to make his acquaintance. Later Senator Wilson addressed the senate at length.

The calendar was taken up and the O'Brien corrupt practice bill was passed with but one dissenting vote. The other bills passed were: S. F. 381, the Jones Russian thistle bill, appropriating \$25,000 for the destruction of the weed.

S. F. 480, providing for the giving of bonds by contractors for public works and improvements and for the better security of the state and the public corporations thereof, and parties performing labor and furnishing material therefor.

S. F. 65, Mr. Fuller, to validate the acts of villages heretofore attempting to be incorporated in Minnesota.

The senate went into committee of the whole, with Senator Ringdahl presiding. Bills recommended for passage: H. F. 372, to establish the office of state auditor at the experiment station; S. F. 400, to reincorporate villages of 200 inhabitants and over; S. F. 267,

to define vagrancy and provide punishment therefor. S. F. 358, to define and construe the words "railroad company" and "railroad" where the same occur in title 1, chapter 34, statutes of 1878; S. F. 495, to amend section 2, chapter 121, laws of 1887, to provide for public school libraries; S. F. 427, to amend section 13, chapter 65, statutes of 1878; S. F. 473, to amend section 6, chapter 65, statutes of 1878, relating to courts of justice of the peace; H. F. 46, relating to the requisites of summons issued by justices of the peace; S. F. 36, to provide that a personal service of notices must be made before the right to redeem land or real property from sales for local improvements or other assessments can be extinguished; S. F. 513, to make adjacent lands to an incorporated village used as a cemetery a part of such incorporation.

The senate will not be in session again until 10 o'clock Monday morning. Among the bills given final passage yesterday were: S. F. 242, providing the amount of fees to be charged by clerks of district courts, the Spencer bill for Duluth, and H. F. 527, to give the Duluth park commissioners power to plan parkways and plant trees.

Northern Pacific Express.
ST. PAUL, March 14.—Receiver Thomas F. Oakes, of the Northern Pacific railroad, arrived in the city yesterday from Washington. The expected removal of the Northern Pacific Express company's headquarters to St. Paul from Chicago will follow in a few days, and the visit of Mr. Oakes has to do with the proposed removal. H. H. Browning, general manager of the express company, is also in the city and spent some time yesterday in company with Mr. Oakes.

Fire at Stillwater.
ST. PAUL, March 14.—A special to the Dispatch from Stillwater, Minn., says: F. Garret's stock of furniture was badly damaged by fire last night, also the building owned by Mrs. Evans. Mr. Garret places his damage at \$5000. The stock was valued at \$7000 and was insured for \$5000. The damage to the building is about \$1800.

THE LATEST FROM HAWAII.
Excitement Over the Recent Rebellion Quieting Down.

HONOLULU, March 7, per steamship Arawa, via San Francisco, March 14.—Excitement over the recent rebellion here is gradually quieting down. The Hawaiian government is now directing its principal attention towards the abettors of the insurrectionists who are now on American soil.

W. A. Kinney, who acted as judge advocate of the military commission which tried the rebels, is among the passengers who will leave on the steamer Arawa for San Francisco today. He carries with him the testimony and affidavits in the schooner Wahlberg case. The Wahlberg is the vessel which landed arms for rebels and which is now detained at San Diego.

Kinney is accompanied by George Townsend and Charles Warren, half whites, both of whom spent several days on the schooner while she was lying off the coast waiting to land arms for the rebels. They will be able to identify the vessel and the captain and crew of the craft.

Upon reaching San Francisco Kinney will proceed to San Diego to act in behalf of the Hawaiian government. The witnesses who accompany Kinney were among over twenty-five rebels who were convicted and sentenced for treason, but in view of their recent services to the government President Dole has suspended sentences.

ALL QUIET AT NEW ORLEANS.
Negro Screaming at Work Under Military Protection.

NEW ORLEANS, March 14.—Four years ago today New Orleans was the scene of wildest excitement. On that day a mob of several thousand determined men under the leadership of a number of prominent citizens marched to the old parish prison and shot to death eleven Italians who were implicated in the assassination of Chief of Police Hennessy.

Today, the fourth anniversary of this famous event, New Orleans is again passing through a state of excitement. Its militia, the flower of the youth of the city, have been ordered to the levee to protect the negro laborers from mob violence.

Notwithstanding that military protection had been promised them, some of the darkies were dubious about visiting the scene of the late slaughter, for they feared that the whites could easily hide themselves behind a cotton bale and pick the negroes off before they could reach their assistance. However, about fifty men made their appearance at 7 o'clock, but work was not begun until 10 o'clock, when the troops arrived.

Later—at the Harrison wharf, as soon as the military reached the scene, the work of loading the British steamship Engineer began. There are no signs of trouble in that vicinity. Notwithstanding the appearance of the militia on the levee at the head of Josephine, Jackson and Seventh streets, not a bale of cotton was being moved. The stevedores were prepared to load the vessels, but the negro draymen, who do the hauling, were still afraid to resume work and no cotton is being delivered from presses down town.

Capt. Shepard Dying.
WASHINGTON, March 14.—Capt. L. G. Shepard, chief of the revenue cutter service, treasury department, is dying of pneumonia at his home here.

Release of Pension.
WASHINGTON, March 14.—[Special to The Herald.]—A reissue of pension was today granted to Francis M. Stevens, of Montrose, Minn.

Bank Suspended.
DUBOIS, Pa., March 14.—The Bank of Dubois, at this place, closed its doors this morning. No statement has yet been given out.

Will Be Voted On.
ALBANY, N. Y., March 14.—The assembly today passed the concurrent resolution submitting to a vote of the people the question of woman's suffrage, by a vote of 86 to 61.

GIVEN AWAY FREE

AT THE GLASS BLOCK STORE.

Tomorrow, Friday, again we give away HASSOCKS FREE with every purchase of \$1 or over in our Carpet, Rug, Shade and Upholstery Dept. You can have your choice of 200 new Hassocks. All new goods. Special bargains tomorrow in Carpets, Rugs and Curtains.

New Dress Goods—
Friday we put on sale Dress Flannels, 40-in.; Storm Serges, 50-in.; they are worth 65c to 75c, Friday's price only—**39c**

New Handkerchiefs
On Sale Friday, 100 doz New Handkerchiefs, assorted styles, worth up to 10c, for each only—**5c**

Bleached Cotton—
Friday we offer a good Bleached cotton, a yard wide, worth 8c, for each yard—**4 1/2c**

Dress Goods—
A new lot of Black and Colored 48-in wide, worth 85c, for each yard only—**50c**

We are showing the finest line of NEW SHIRT WAISTS at prices never before equaled. See the Tailor-made Shirt Waist we offer at—**48c**

A Big Sale

GOING ON NOW IN OUR Glassware Dept.

See what we are almost giving away—

BARGAIN COUNTER NO. 2.
WHITE WOOL BLANKETS
Extra and 1st, worth \$1 to \$15, Friday at—**HALF PRICE**

Panton & Watson

WEST DULUTH ITEMS

Charles W. Hoyt Would Vacate Rather Than See West Duluth Lose the Municipal Court.

He Says Under the Amendment of 1893 Judge Boyle Could Hold Legal Court There.

He Wants to Know if Moral Suasion Cannot Induce Judge Himebaugh to Withdraw.

Charles W. Hoyt makes the following statement in reference to the trouble over the judgeship of Municipal Court No. 2. "Being deeply interested in the life or death of our court here in West Duluth, I would like to venture an expression on the subject. I am deeply sensible of the great honor conferred with so generous a hand. No office in the gift of this or of any people could tempt me to leave it. But to save this court, to protect the people of this end in the enjoyment of that which is theirs and in the interests of the lawyers of this locality, I will, if need be, relinquish all my rights in this matter."

"Under the amendment of 1893, I think Judge Boyle could hold a legal court here. If Judge Himebaugh would only let it, I think the court would soon begin to do business. Under existing conditions, however, we are asking altogether too much of the city of Duluth. Why must we take two years more of Himebaugh or have our court killed?"

This term expired last Tuesday and he is now trying to hold under color of title until when the legislature will have adjourned. As he terms it, he is lying low until then, when he will up and assert his rights against the city. Isn't there moral suasion enough in this community to induce the gentleman to vacate?"

West Duluth Briefs.

Dr. F. A. Hoyt, of St. Cloud, brother of C. W. Hoyt, has decided to visit West Duluth at stated periods and practice his profession. He will be at the Bennett next week for the first time.

The friends of Dr. and Mrs. Burnside were shocked to learn of the death of their 7-year-old daughter, Eda, early this morning of typhoid fever.

The choir of St. James church will give a concert at Great Eastern hall on Saturday evening. Bishop McGillicuddy will deliver an address.

A marquisette ball, under the direction of Edward Warner, will be given on Monday evening at Great Eastern hall.

W. A. Lawson has gone to Minneapolis to engage in business.

E. A. Clark, of Ashland, was in the city yesterday.

G. J. Mallory and George Hall returned this morning from St. Paul.

Emmett Carlen left yesterday for Floodwood, Minn., where he has accepted a position.

Mr. McElowney will assist in the services at the Congregational church Sunday evening, which will be of a gospel nature.

Mutually Mistaken.

As a colored man was turning into Beaulieu street from Great avenue the other evening he collided with a colored man who was just turning into the avenue from the other direction. The shock of the collision was so great that they both turned back and looked at each other. "Who's a fule pison?" shouted the other.

"Who am I?"

"An' you're a fule, sah! Jess a-walkin' in de middle ob de sidewalk wif yo' head down, like a hog."

"An' you're a fule, sah! I'll knock de yellow eyes off yo' eyes."

"An' don't yo' call me a fule pison, or yo' won't hev no jaw to eat panecake wid."

They stood for a moment surveying each other and breathing hard, and then the first advanced a step and called out:

"Who, an' dat yo', Mistah 'olnshing?"

"Dat's me, sah. Am dat Mistah Tompkins?"

"Yes, sah. Slood, now, but yo' mustn't da scuse me. I fought yo' was a white man."

"Jess da same wid me. Shako, Mistah Tompkins, an' don't knock no drink wid me. Law me, but hegs yo' pardin and hope yo' won't lay it up agin me."

—Detroit Free Press.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and confined their local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful, and acts directly on the blood and mucous surface of the system. The office of F. J. Cheney & Co., Toledo, Ohio, is at 100 North Main street.

How to Catch Them.

"It's all very well to talk about catching bonds of \$10 each," remarked Mr. Dukane, "but that is not the way to induce women to buy."

"What would you advise?" asked Mr. Gaswell.

"Let Secretary Carlisle advertise bonds at \$9.98, marked down from \$10." —Pittsburgh Chronicle-Telegraph.

WHEAT FIRM AND HIGHER.

Good Business in Cash Stuff and Futures Fairly Active.

The wheat market was active and higher today. Cables were unchanged. About the only news of importance was the Cincinnati Price Current's report of wheat in farmers' hands, which is placed at 115,000,000 bushels; this was 40,000,000 more than reported by the government and to that extent was heavier. But its deductions showed that with the usual consumption and the average export the stock would all be exhausted by July 1, and this left the trade somewhat in doubt as to whether the report as a whole should be treated as liberal or bullish. Some of the crop reports were received from Kansas, Missouri and Ohio, which helped the bulls a little. The market ruled firm, however, and advanced steadily. May started at 61 1/2c, and after losing 1/2c, recovered and at noon had reached 61 1/2c. An hour later it was at 62 1/2c, and sold at higher before the close. Cash stuff was fairly active, the mills took about 25,000 bushels, mostly No. 1 northern at 144 1/2c under May. The elevators bought a little at the May price for car lots, and at 145c over May for retail lots of No. 1 hard. The new crop is higher than yesterday for cash and 1/2c higher for futures. Following were the closing prices:

No. 1 hard cash, 61 1/2c; March, 62 1/2c; May, 63 1/2c; July, 64 1/2c; No. 1 northern cash, 62c; March, 63c; May, 64c; July, 65c; No. 2 cash, 61c; March, 62c; May, 63c; July, 64c; No. 2 northern cash, 61c; March, 62c; May, 63c; July, 64c; No. 2 northern, 61c; March, 62c; May, 63c; July, 64c.

Cattle and Hogs.

Chicago, March 14. Cattle: Receipts, 8,000; official yesterday, 4,000; market active at 54 1/2c to 55c; No. 1, 54 1/2c; No. 2, 54c; No. 3, 53 1/2c; No. 4, 53c; No. 5, 52 1/2c; No. 6, 52c; No. 7, 51 1/2c; No. 8, 51c; No. 9, 50 1/2c; No. 10, 50c; No. 11, 49 1/2c; No. 12, 49c; No. 13, 48 1/2c; No. 14, 48c; No. 15, 47 1/2c; No. 16, 47c; No. 17, 46 1/2c; No. 18, 46c; No. 19, 45 1/2c; No. 20, 45c; No. 21, 44 1/2c; No. 22, 44c; No. 23, 43 1/2c; No. 24, 43c; No. 25, 42 1/2c; No. 26, 42c; No. 27, 41 1/2c; No. 28, 41c; No. 29, 40 1/2c; No. 30, 40c; No. 31, 39 1/2c; No. 32, 39c; No. 33, 38 1/2c; No. 34, 38c; No. 35, 37 1/2c; No. 36, 37c; No. 37, 36 1/2c; No. 38, 36c; No. 39, 35 1/2c; No. 40, 35c; No. 41, 34 1/2c; No. 42, 34c; No. 43, 33 1/2c; No. 44, 33c; No. 45, 32 1/2c; No. 46, 32c; No. 47, 31 1/2c; No. 48, 31c; No. 49, 30 1/2c; No. 50, 30c; No. 51, 29 1/2c; LARGEST CIRCULATION IN DULUTH

OFFICIAL PAPER OF CITY OF DULUTH.

Entered at the postoffice at Duluth, Minn., as second-class mail matter.

HERALD'S CIRCULATION,

17,148

HIGH-WATER MARK.

The Weather.

U. S. AGRICULTURAL DEPARTMENT, WEATHER BUREAU, DULUTH, MINN., March 14.—The area of high pressure has moved southwest to the Upper Mississippi valley, causing falling temperature superabundant in the central valley and lake region. The coldest weather is in the central valley. It is generally fair in the upper lake region and the Northwest. Duluth temperature at 7 a. m. today, 6 degrees below zero; maximum yesterday, 1 degree below zero; minimum yesterday, 14 degrees below zero.

DULUTH, March 14.—Forecast for Duluth and vicinity till 7 p. m. (Duluth): Fair; warmer today and tomorrow; southwest winds.

LAKES AND RIVERS, March 14.—Forecast till 8 p. m. tomorrow. For Wisconsin: Fair and slowly rising temperature tonight and Friday; south-easterly winds. For Minnesota: Fair and warmer tonight; Friday fair; southerly winds.

The Legislature's Visit.

For the first time in the history of Duluth, all the members of the legislature will visit the city in a body. The Herald extends to them a hearty welcome. Many of them will for the first time look upon the coming metropolis of the Northwest. They will see here the foundations laid broad and deep for the greatest city in the West. It is but a question of time when Duluth, by reason of her commanding geographical location and because of the vast mineral and agricultural resources in the territory directly tributary, will pass all other cities in the race for commercial supremacy.

There is no city in the country which at this time requires more legislation, both state and federal, of a local character. Duluth's needs in this respect are peculiar from those of the other sections of Minnesota. For this reason the visit of the legislators, while largely of a social character, should also be made one of education, so far as Duluth's needs are concerned. It is a great opportunity to present to the special attention of all the members of the legislature the legislation which is required. It is an opportunity which may not soon repeat. This work should be attended to by men who are thoroughly qualified to discuss the various subjects, and the Herald would suggest to the committee on arrangements that men be selected to handle each question on which legislation is required and that they be requested to present facts and arguments to the members in support of such legislation.

The party will reach here this evening, and will spend tomorrow and Saturday on the iron ranges, returning to Duluth on Saturday afternoon. A strong effort should be made to induce as many as possible to remain here over Sunday, when an excellent chance will be presented for carrying out the program above suggested. It must not be forgotten that the work done along these lines will have more than present benefits. Many of the visitors will be found in future legislatures when their friendly assistance will be needed again. All the senators hold over to the next legislature. In taking action at this time therefore we will be aiding Duluth not only now but in the future.

Duluth legislation at Washington, especially in the matter of deepening the waterway to the lower lakes, was greatly benefited by the visit here a few years ago of members of the senate and house committees. A visit from the whole state legislature should be made at least equally beneficial to the city.

The Anderson Bill Passed.

For three days the state senate considered the Anderson bill, for the taxation of all unused railroad lands of which there are many thousands of acres in the northern part of the state, which passed the house some time ago by a large vote. The bill has been before the legislature in two previous sessions, each time being killed in the senate. It has always been fought strongly but never before with such great energy as at present, three days being devoted to its consideration.

On Monday the senate devoted four hours to the discussion of the measure and Tuesday it was considered for five hours longer. The vote was then taken and the bill received only twenty-seven affirmative votes, while twenty-eight are necessary to carry. Senator Barr, a friend of the bill, said it was lost before the vote was announced and changed his vote to "no" in order to make a record. When the senate met at 2:30 p. m. yesterday afternoon he made the expected motion and a call of the senate was immediately ordered.

The senate was held under the call

until nearly 11 o'clock last night, but finally the necessary twenty-eight votes were present and the bill was passed.

The delay was due to the absence of Senator Cronkite, a Populist, who has been considered a friend of the bill.

The sergeant-at-arms was unable to find him in either city, but finally enough votes were secured to pass the bill without his vote.

The bill was a feature in the last campaign in many parts of the state, but many senators held that it was unconstitutional or that it would invalidate the gross earnings tax from which the state gets now nearly \$1,000,000 a year. Attorney General Childs was called upon for an opinion on this point. He decided that the bill was constitutional and that it would not invalidate the gross earnings tax. But many of the senators would not place confidence in the attorney general's opinion and voted against the bill. It is possible that railroad influence, rather than fears that the gross earnings tax would be endangered, was the cause of some voting that way.

Senator Spencer was among those who opposed the bill. There are over 200,000 acres of unused railroad lands in St. Louis county, nearly 15,000 in Cook county and a little more than 11,000 in Lake county. By the Anderson bill these lands are made subject to taxation. Even should the gross earnings tax be invalidated by the Anderson bill, St. Louis county would be the gainer, because all the terminals of the various roads in Duluth would then be liable to taxation by the city.

The Bimetallism Conference.

A Washington dispatch says that a new light appears to have broken in upon the silver leaders. Senator Teller, their chief spokesman on the delegation to the international monetary conference, now expresses the hope that if a conference be held it will take action favorable to silver. At the last conference the attitude of the German delegates, who stated that their government was satisfied with its present monetary system and would not consider the possibility of change, thus making their presence at the conference merely that of spectators, precluded action favorable to silver. Germany appears to have shifted her position in this regard, and Senator Teller looks for positive results.

He does not expect Great Britain to embrace bimetallism herself, but he hopes she will agree to reopen the mints of India and possibly to keep part of the reserve of the Bank of England in silver, and with these concessions he thinks, Germany and France, and the other states of the Latin union, will join the United States in steps advancing well on the road to bimetallism. He insists that the bimetallism standard was maintained for more than half a century in spite of England's attitude and could be again. What he seems really to hope for is the substantial restoration of the status prior to 1871, before Germany demonstrated silver, when England was the only single gold standard country.

This recognition by the extreme silver men of the benefit, if not the necessity of an international agreement to make bimetallism successful, is encouraging to men who are friendly to silver and yet who cannot subscribe to many of the wild vagaries of the extreme silverites.

The chamber of commerce has appointed a committee to look into Auditor Halden's request for legislation that will authorize an increase in the amount allowed for clerk hire in his office. This is a proper move. There is no doubt that the inquiry will show the justice of Auditor Halden's claim, as The Herald pointed out in an article a few weeks ago. But the proposition to increase the amount allowed for clerk hire in the county treasurer's office should be strenuously opposed. There is no excuse for an increase in the treasurer's office. Treasurer Grossett kept well within the limit of the legal appropriation, and there is no valid reason why the present treasurer cannot do likewise, because the work has not increased.

It is estimated by a London mathematician that the whole population of the world could be packed in a box measuring only 1140 yards in width, 1140 yards in depth and 1140 yards in height. Each person, he says, could be allowed twenty-seven cubic feet of room in such a box.

Nervous Prostration

Hood's Sarsaparilla Cures Nervous Strength and Good Health.

"Hood's Sarsaparilla has helped me wonderfully. For three years I have been doctoring but could not get cured. Soon after beginning to take Hood's Sarsaparilla there was a change for the better. In a short time I was feeling splendidly. For several months previous I could not lie down to sleep on account of my heart trouble and nervous prostration. I now rest well and am able to do work of whatever kind. If I had not tried Hood's Sarsaparilla I do not know what would have become of me."

and the box itself could be deposited, when full, in any of the principal London parks, with ample room to spare, and a cyclist could run around it in about six minutes, the distance being two and a half miles.

The Connecticut senate has repealed the last of the blue laws. It was a statute which provided that a justice of the peace might convict a person on his personal knowledge without corroborative testimony of the offenses of Sabbath breaking, swearing, blasphemy and drunkenness.

The Gerry whipping post bill has been defeated in the New York assembly. Wife beaters in the Empire state can now resume business at the old stand. It was a righteous measure and should have been enacted.

Czar Nicholas has abolished the knout, which is one move towards a more civilized state of affairs.

A duel between Max O'Rell and Mark Twain would be the colossal joke of the century.

The present cold snap is merely a reminder that winter has not lost its grip.

A Daily Hint from L'art de la Mode.

MUNICIPAL REFORM MEETING.

Rev. T. M. Findley Spoke Last Evening in the
Absence of Dr. Cleland.

At the meeting of the municipal reform movement last night, which was attended by a fairly large crowd, W. F. Moore stated that the impression that the movement was directed against the municipal government was entirely wrong. They have no quarrel with any one, but they expect to have the laws enforced. They expect to have saloons closed at 10 o'clock at night and on Sundays, to keep the social evil confined to its own district, and to prohibit gambling. Beyond that they do not expect to go.

Owing to the sudden illness of Dr. Cleland, Rev. T. M. Findley made the address of the evening on "The Trinity of Evil." He attributed the lack of good government all over the land to a lapse of public integrity. People no longer expected perfect faith in their office holders, and laughed at the idea. Small wonder was it that many of them fell, with the opportunities for concealment of their faithlessness and the temptation to accept hush money. He condemned the practice of voting for men on party lines, and said that that opened the way for corruption in municipalities. He was in favor of no half way measures, and thought the only way to rid of these evils was to wipe them out root and branch.

To Consumptives.

As an honest remedy Foley's Honey and Tar does not hold out false hopes in advanced stages, but truthfully claims to give comfort and relief in the very worst cases, and in the early stages to effect a cure. Max Wirth.

Money.

I want applications for a few large loans at a low rate of interest. If you have good security, you can get low rates.

I have a first-class business block on Superior street for sale on terms that will be favorable to the purchaser.

I have some dwelling houses in good localities for sale or for rent at low prices.

I have good companies in which to place your insurance; companies able and willing to pay losses promptly.

INCREASE IS NEEDED

County Auditor Presented a Communication to the Chamber Showing Why He Needs More Clerk Hire.

A Committee Appointed at His Request to Investigate the Matter and Make a Report.

Question of Arranging for Possible Aid for the Chamber From the City Brought Up.

County Auditor Odin Halden presented a communication to the chamber of commerce at yesterday's meeting in relation to the resolution against allowing him more money for clerk hire which was adopted at the previous meeting. He said his desire was to administer the affairs of his office economically and make as good a record as his predecessor and his interest in the bill raising the amount allowed for clerk hire was prompted by no other motive. Said he: "Under the statutes of 1878 the auditor's office was allowed a certain percentage for clerk hire which would at the present time and under the present valuation be about \$3000. This was a general law and applied to all counties. In 1891 there was a special law enacted repealing a law of 1880 of a similar character fixing the limit for clerk hire in the auditor's office of St. Louis county at \$8000. The undoubted intention of the legislature was that the latter law would take the place of all preceding laws so that at present I am not allowed to exceed the sum of \$8000 in clerk hire, or rather I do to exceed that sum, I do so at the risk of being compelled to pay out of my own pocket any sum expended in excess of that amount.

Last year there was expended \$10,557 for clerk hire in this office. I will have to expend about that amount this year in order to keep up the records properly and next year I will need at least \$12,000.

It would seem to me that now is an opportune time to have a law enacted fixing the responsibility for clerk hire beyond question, and that all moneys be expended under the supervision of the county commissioners as at present. I would suggest that a committee be appointed from your chamber to visit the county auditor's office and investigate the matter thoroughly, and that they report to your body at earliest date possible in order that action may be had as speedily as possible.

The Committee Appointed.

M. O. Hall moved that a committee of three be named as requested by Mr. Halden and suggested ex-Auditor LaVaque as a proper man for chairman.

Mr. LaVaque hardly considered that the proper thing and said he would prefer not to serve. Mr. LaVaque said there was some question as to whether \$10,000 was the limit allowed for clerk hire. It is \$8000, he said, the work cannot be done within the limit. He had always gone on the supposition that it was \$11,000. As to the amount expended by him in 1894 he said that was partially caused by the change in the office. He hired extra help to close up certain work which he had been continuing in office he would have allowed to run over to this year.

Mr. Halden explained that the work is increasing greatly. Where a short time ago there were only 30,000 delinquent descriptions there are now over 50,000, necessitating much more work.

M. O. Hall, C. J. Veland and Dr. Boyer were appointed as a committee to investigate the matter.

Up for the Chamber.

N. J. Upham brought up the matter of municipal aid for the chamber, and after some discussion a motion was adopted asking the legislative committee to consider the matter with members of the legislature and, if possible, have provision made in the new charter bill for a railroad commissioner or some other officer through whom the council could give such aid as it sees fit to the chamber.

The legislative delegation from this district was requested to support senate bill 1244, introduced by Dr. Cleland, for the establishment of a board of guardians for children in certain cases. The Children's Aid society desires the legislation.

The special committee of the reception committee, told of the plans for entertaining the legislative party and urged the co-operation of all citizens.

The committee on agriculture, mining and fisheries also reported the drafting of a bill providing for stocking certain lakes with white fish. This action was approved.

The chamber of commerce of West Superior asked the Duluth chamber to interest itself in securing excursions to the head of the lakes in June and October. Referred to transportation committee.

Prof. Niel

Government chemist, writes: I have carefully analyzed your "Royal Ruby Port Wine," bought by me in the open market, and certify that I found the same absolutely pure. This wine is especially recommended for its health-restoring and building-up properties; it strengthens the weak and restores lost vitality. Be sure you get Royal Ruby; \$1 per quart bottle. Sold by S. F. Boyce, druggist.

Cheap Land! Low Rates!

On April 2 a homesteaders' and business men's excursion will be run by the Minneapolis & St. Louis railroad from St. Paul and Minneapolis to Texas, Louisiana and other southern points. Rate, about half fare for the round trip. Excursion will go in through tourist cars with porter and conductor in charge. Berth rate only \$2.00. Free board at Texas ranches while looking over lands. For further information address A. B. Coute, C. T. and P. A. M. & St. L. R. R. Co., Minneapolis, Minn.

I you can't get coal delivered promptly by the Duluth Van company. They deliver promptly. No. 10 East Superior street.

CLOSE OF THE INSTITUTE.

A Most Successful Session Was Terminated Yesterday Afternoon.

The farmers' institute closed yesterday afternoon after a most successful session of two days. A part of the instructors left for St. Paul this evening and the rest went this morning.

The afternoon session yesterday opened with a talk on "Feeding Dairy Cows," by W. L. Carlyle. Feeders fed to dairy cows should be well cured. For Duluth conditions he recommended bran three parts, shorts one part and oil meal two parts. An addition of two parts corn meal would be a great improvement. Great care should be taken to feed cows according to their respective capacity, as one cow generally will digest more than another.

"Feeding Refuse to Pigs in the Neighborhood of Large Cities," was the subject of the next lecture. The young men were followed by Professor Powell in a talk on market gardening.

Professor Shaw then gave an address on the school of agriculture at St. Anthony park. More than 200 pupils are now in attendance, he said. One hundred have received instructions in the special dairy city classes and nearly a pumber of young ladies was expected to join the special class in April. They are taught, among other things, domestic economy and butter making. The young men are instructed in almost every feature of practical farm work—soil cultivation of grapes, dairying, horticulture, etc. Professor Shaw's department is animal industry. Living specimens of live stock are brought into the class room and the students required to pass on their points. Practical lessons are also given in carpentry, blacksmithing and killing and dressing meats for use on the farm.

The students are only charged for board, and that is given at cost. Col. Liggett, chairman of the agricultural committee, gave instructions to the students to have such animals as are fattened on the farm to be slaughtered for use in connection with the boarding house. Professor Shaw said that he was ready to bring man again and intended to live by farming, and knew the value of the education which this school can give as he knows it now, he would not have discouraged money to pay his way, providing it were not forthcoming in any other way. The young men of the farm homes of Minnesota will never know what they lose if they miss the help which this school can impart to them.

Amusements.

Duluth City Band.

Tonight the concert of the Duluth City band will be given at the Temple and it is creditable to the people of Duluth to know that a large audience is already assured. The City band has always been an organization of which every citizen is proud. It has been the pride of the city for many years and it is a pleasure to look for a time as though it would die a natural death for want of somebody to take hold of it. But the musicians came forward and decided to take its destiny into their own hands. A new organization was formed and was incorporated under the laws of Minnesota.

The members found that they were without several needed instruments which were the property of Mr. Meier, and also had no music. To raise funds to secure these they decided to give this concert.

Otto Numbler, who has led the Temple orchestra for several years and who has also been the leader of the Duluth Symphony orchestra which gave such contents of the work of the Red Cross society of Japan. He likened China to an ant hill. Poked into the hill and the ants began to move. They were every way. They have no patriotism and their soldiers are even cruel and atrocious to their own people.

He described the location of the Japanese army at present. The cry all over Japan is "On to Peking" and he expects that the Japanese will not know but that this would be a mistake. It might bring interference from foreign powers. There was, on the other hand, much to be accomplished by it. He was sure, however, that it would be best to negotiate "the eternal peace," as he called it with the present legation, rather than kill him and have to treat with other authorities.

Dr. Kitashima obtains most of his information as to the Japanese movements from his brother who is with the army as a surgeon. Dr. Kitashima himself was a student at Harvard college where he obtained the first doctor's certificate granted at that institution. He was a schoolmate of Rev. Mr. Southworth. Tonight he will lecture on "Life in Japan."

Elected Him Constable.

Henry Renault Is Evidently Not Believed Guilty by His Townpeople.

Among the officers of the village of Industrial elected Tuesday was Henry Renault, who was indicted by the last grand jury on a charge of manslaughter in the first degree and who was released by the county attorney. He was elected constable and the other officers were as follows:

Chairman, E. Perrault; clerk, Joseph Gadour; treasurer, J. L. Perrault; assessor, Otto Samsonson; supervisors, Henry Longtin and Henry Holden.

THE CHINA-JAPAN WAR

Interesting Lecture by Dr. Wataru Kitashima on the Great Conflict Now Being Fought There.

Causes Which Led Up to the War Were Clearly and Concisely Presented and Explained.

Japanese Have Known That It Was Coming and Have Been in Preparation for Years.

Dr. Wataru Kitashima lectured at the Unitarian church last evening on "The Chinese and Japanese War." The audience was not very large, filling about half the church. The lecturer gave a good idea of the causes of the war and the feeling among the people in Japan. It was undoubtedly new to everyone in the audience. Dr. Kitashima is nothing if not patriotic, and his apparent egotism was highly amusing at times. He has the most exalted opinion of Japanese courage and valor and a correspondingly low opinion of the Chinese. He attributes the higher quality of the Japanese, however, to the benefits of the civilization brought to them from other countries. They accepted it and the Chinese refused it. He admitted what he said they are conceded enough already. Several other choice Americanisms were used with good effect.

The Japanese, according to Dr. Kitashima, have been preparing for this war for many years. They knew it was coming from the time they threw off the Chinese yoke to accept the new civilization.

They returned and today every foot of China has been surveyed by these engineers. They knew it was coming. They knew every inch of China better than they do themselves.

Dr. Kitashima gave the idea that once Japan felt that she was ready to fight, she sent out a messenger with a challenge. This was not exactly what he meant to convey, however, and was only a little humor as his subsequent explanations showed. He did show, however, that there was the greatest of enmity between the people of the two nations, principally caused by the sneering of the Chinese at everything Japanese. There is evidently a little retaliation too for the lecture referred to the "pignails" several times in a manner, which greatly amused his hearers. He said that he was assigned as the first cause of the war.

The second cause was the Korean question. China claims Korea as her province and Japan maintains that it is independent. Should she yield to China in this she is afraid of aggression on her own shores. The breaking of the treaty recognizing Korea as independent was another cause. He proved to the satisfaction of the audience that Korea is independent by pointing to her legation. Vain, however, which would not be recognized by this government if she were a dependent.

The military movements of the Japanese were explained with great pride by the lecturer. He denied the reported activity at Port Arthur and spoke in high terms of the work of the Red Cross society of Japan. He likened China to an ant hill. Poked into the hill and the ants began to move. They were every way. They have no patriotism and their soldiers are even cruel and atrocious to their own people.

He described the location of the Japanese army at present. The cry all over Japan is "On to Peking" and he expects that the Japanese will not know but that this would be a mistake. It might bring interference from foreign powers. There was, on the other hand, much to be accomplished by it. He was sure, however, that it would be best to negotiate "the eternal peace," as he called it with the present legation, rather than kill him and have to treat with other authorities.

WEAK NERVES EPIDEMIC.

Weak Nerves Will Surely Break You Down.

Nerves Are the Very Foundation of Strength and Endurance.

If Your Nerves Are Weak, Lose No Time in Getting Them Strong.

You are growing older every day, and if you do not wish the unpinning years as they roll on their relentless way, to rob you of your hopes and joys, your pleasures, your ambitions, your very strength and energies, keep your nerves strong and vigorous.

It is the nerves which soonest wear out. You thoughtlessly use them up in work, pleasure or dissipation, and suddenly wake to find yourself broken down—that only your body remains, bereft of strength, energy and power, a mere wreck of what you were and with only dreariness, pain, weakness, and discontent your future portion. Then you realize the immeasurable depth of bitterness in Longfellow's lines:

"Oh, endless thrills of fire and frost!
The world is bright while you are young,
And dark and dead when you are lost."

Health, hope, happiness—everything is dependent upon strong and vigorous nerves. It is weak nerves which give to the young, fits, convulsions, hysteria, St. Vitus' dance, and the myriad nervous affections of youth. It is weak nerves which make women constantly tired, irritable, nervous, despondent, dragged out and miserable. It is weak nerves which conquer men in their struggle for mastery in the world, which render them nerveless, strengthless, powerless, with dull, feeble head, shaking, shattered and unsteady nerves, without appetite or good digestion, enfeebled from sleepless nights and wretched and discouraged from trying days. It is weak nerves which make age a curse instead of a blessing—a body, a casket from which every power and energy has fled, leaving only weakness, despair and utter weariness.

If there is any advice, which above all, other, should sink into the heart, it is the admonition to keep your nerves strong. Hence, the words of Mrs. Eliza E. Clements, of 126 Bright street, Indianapolis, Ind., should have weight with everyone.

"I was afflicted for six years with nervous debility. I could not sleep nights, and I was in a terrible condition. I had heart trouble, and it beat so hard I thought I should die. I was in constant misery and could do no work."

"I had heard much talk about the wonders of Dr. Greene's Nervura blood and nerve remedy, and now made up my mind to try it. I had given myself up for lost, but began to improve immediately under the use of this marvelous medicine."

A FOUL MURDER.

Horrible Double Tragedy Today at McGregor, a Small Town on the Northern Pacific Road.

Ben Jenetto and Wife, Who Kept a Small General Store, Killed By Two Brothers.

The Heads of the Two Victims Were Blown to Atoms With a Winchester Rifle.

Nick and A. Cristello, the Murderers, Took to the Woods and the Sheriff is Pursuing.

Word reached the city this morning of a horrible double murder at McGregor, a small station on the Northern Pacific road in Aitkin county. A telegram to Sheriff Butchart told of the tragedy and gave a description of the murderers. A special to The Herald gives some of the details of the horrible affair. It states: Ben Jenetto and wife, small general merchants, were shot and killed at McGregor this morning by Nick and A. Cristello, two brothers, over a dispute regarding the ownership of some logs. The victims' heads were blown to atoms with a Winchester rifle. The murderers took to the woods and trouble is expected before they are arrested, as they are tough characters.

Sheriff Mausten and posse with the coroner left for the scene of the murder on the first train. All the participants are Italians. Particulars are hard to get. A. Cristello is about 27 years old, weighs 180 pounds, is 5 feet 8 inches tall, and one side of his face is larger than the other. Nick Cristello is 30 years of age, weighs 160, is 5 feet 6 inches in height, is slightly cross-eyed and has a small moustache. Both were workingmen's clothes. One carried a Winchester and the other a Zulu shotgun. Officers in the surrounding country have been notified to look out for them.

ARE GOING TO LIBERIA.

Two Hundred Colored People Are Going to the African Republic.

PHILADELPHIA, March 15.—The Danish steamer Horsa passed out of the Delaware river today en route to Savannah. Her departure from this port makes the first step toward the immigration of colored people from the South to Liberia. At Savannah the boat will take aboard 200 passengers who expect to make their homes in the African republic.

The immigration movement to Liberia has been on foot for several years. In the South. Back of the movement is the International Migration society. Agents of this organization have traveled over the South, and some of the colored people have taken up with it enthusiastically. The Horsa is a fruit steamer and it is expected she will bring back a cargo from Liberia. In the hold of the ship have been placed 600 tons of coal and in the upper are two single and double berths built of wood, on each of which is a comfortable mattress and bed clothing. On the deck of the steamer have been constructed two large stoves to cook the immigrants' food during the voyage.

TO CHRISTEN THE ST. PAUL.

Prominent Citizens Are to Be Invited to the Ceremony.

PHILADELPHIA, March 15.—At the solicitation of Charles H. Cramp, Miss Francis O. Griscom, daughter of Clement A. Griscom, president of the International Navigation company, will christen the big passenger steamship, the St. Paul, on March 25. Senator Cushman K. Davis, of Minneapolis, has been kind enough to direct the sending out of invitations, and among others, he will invite prominent citizens of Minneapolis as well as of St. Paul. Of the latter city members of the board of trade and of various commercial bodies, together with the mayor and other officials will be invited here, and will be the guests of the International company during their stay.

Bailout for an Extradited.
LONDON, March 15.—The Times correspondent at Buenos Ayres telegraphs that he has been assured that the Argentine government has decided to grant the extradition of J. Spencer Balfour, who is wanted in England in connection with the Liberator Building society frauds.

Big Haul by Thieves.
BOSTON, March 15.—An apartment in Winthrop street, Roxbury, was entered by means of skeleton keys and \$8300 worth of property consisting of railroad and bank bonds, jewelry, bank books, notes and stock belonging to Miss Mary B. Swift, was taken. Miss Rebecca Remick also lost \$100.

Sir Henry Ponsonby Dying.
OSBORNE, Isle of Wight, March 15.—Sir Henry Frederick Ponsonby, private secretary to Queen Victoria and keeper of the privy purse, who has been stricken with paralysis on Jan. 7, has been pronounced to be dying.

Wall Street Suspension.
NEW YORK, March 15.—The announcement has been made on the stock exchange of the suspension of Butterick & Elliman, of 13 Wall street. The firm is a small one.

SPAIN MUST DISAVOW IT.

Gresham Takes Action Regarding the Firing Upon the Alliance.

MADRID, March 15.—The following cablegram has been received here: Taylor, minister, Madrid: This department is informed that on March 8 the United States Mail steamship Alliance, on her homeward voyage from Colon to New York, when six miles from the coast of Cuba, off Cape Maysi, was repeatedly fired upon by a Spanish gunboat with solid shot, which, fortunately, fell short. The windward passage where this occurred is the natural and usual highway for vessels plying between ports of the United States and the Caribbean sea. Through it several regular lines of American mail and commercial steamers pass weekly within sight of Cape Maysi. They are well known and their voyage embraces no Cuban port. Forcible interference with them cannot be claimed as a belligerent act, whether they pass within three miles of the Cuban coast, or not, and under no circumstances be tolerated when no state of war exists. This government will expect prompt disavowal of the unauthorized act and due expression of regret on the part of Spain, and it must insist that immediate and positive orders be given to Spanish naval commanders not to interfere with legitimate American commerce passing through that channel, and prohibiting all acts wantonly imperiling life and property lawfully under the flag of the United States. You will communicate this to the minister for foreign affairs, and urge the importance of a prompt and satisfactory response.

THE LEGISLATIVE PARTY.

Ely Was Reached This Morning and the Chandler Mine Inspected and Tower Then Visited.

TOWER, Minn., March 15.—[Special to The Herald.]—The legislative party arrived at Ely at 6:20 this morning and breakfasted at the Oliver house. A visit was then paid to the Chandler mine, where the soldiers went into the earth to see how the iron ore crop is harvested. From Ely the party came to Tower, dining here and looking over the mines at Soudan.

This afternoon the train left for Virginia, and the program was that the junketing party should be turned over to the Missabe at Virginia at 5 o'clock this afternoon. The party is expected to remain over night in Virginia, where the citizens of that newly fledged city have prepared a rousing reception. In the morning the Virginia mines will be visited and the party will then leave for Mountain Iron, where more mines will be inspected. From Mountain Iron the party will start for Duluth and if the program is carried out as planned, will arrive at Duluth at 2 o'clock. This must be construed to mean 3 or 4 o'clock, as the party has a great deal to see and do in the time allotted to it.

WERE BLOWN TO PIECES.

A Dynamite Factory Blew Up This Afternoon and a Number of Men Have Perished.

HOUGHTON, Mich., March 15.—[Special to The Herald.]—The dynamite factory of the Hancock Chemical company at Dollar bay blew up at 1 o'clock. The telephone and telegraph wires were broken by the explosion. A number of men are missing but it will require several hours' search to give the extent of the disaster and the loss of life.

WOULD HAVE OPPOSED IT.

Senator Cronkite Would Have Voted Nay on the Anderson Bill.

ST. PAUL, March 15.—Senator Cronkite has returned and is prepared to prove that he was not abducted on Wednesday, but that he was absent of his own accord and on business. No one was more surprised than he at the notoriety he had received.

He says that, to begin with, his presence at the time the vote on the Anderson bill was taken would not have affected it one iota, and he would have voted against it, and he is not afraid to go on record. The fight over the bill is not yet over. The railroad companies propose to test the bill before the supreme court before the matter is submitted to a vote of the people. The test will be made on the question as to whether or not Lieutenant Governor Day had a right to vote on the bill. The companies will contend that he had not.

Convicted of Murder.
WAPLELO, Iowa, March 15.—The jury in the case of Stephen Courtney, charged with the murder of County Attorney Jarvis, returned a verdict today of guilty in the first degree and fixed the penalty at life imprisonment at hard labor.

Snow Storm in Iowa.
DES MOINES, March 15.—Snow began falling last night and still continues. It lies an inch and a half deep. It is thawing on the pavements.

SECURED HIS CERTIFICATE.

Dr. Routh is Preparing to Take Office—Medical Society Considered It.

Dr. Routh, health officer elected, called upon City Clerk Richardson this afternoon, secured his certificate of election and a blank form for a bond. This bond will be filed at once and then fun between him and Dr. Goffe may be expected at almost any minute.

It is stated today that the allopathic physicians held a meeting last evening in the rooms of the St. Louis County Medical society in the Y. M. C. A. It was marked by one of the heaviest attendances ever known, about forty being present. It is said the ways and means for assisting Dr. Goffe to hold the health office another year and to contest the election of Dr. Routh was the order of business for the evening.

ALL WAS QUIET

Only the Presence of Squads of Soldiers on the New Orleans Levee Indicated Trouble.

Scene Today Was One of Bustling Activity and Nearly Every Ship Was Being Loaded.

The Rioters Remained Away and Nothing Occurred to Disturb the Peace of the City.

Governor Foster Will Keep the Military on the River Until All Danger Has Passed.

NEW ORLEANS, March 15.—If small squads of soldiers leaning against cotton bales or basking in the early morning sunshine on top of freight piles were missing from the levee this morning, no one would have thought that New Orleans was at the present time passing through one of the greatest labor crises it has ever had to deal with. The scene along the levee today is one of bustling activity. Nearly every ship in port, which came for the purpose of receiving cargoes of cotton, is now being loaded. In fact, it is not known that work is at a standstill on any vessel. Those ships, which are handled by stevedores employing colored labor, which fact brought on the trouble of last Tuesday, are being loaded as fast as men and machines can store the cotton bales in their hulls. The darkies are moving about their work with that low chant every Southern negro uses when his mind is occupied with labor. They have no fear now. They are surrounded on all sides by military, and they feel contented. Nevertheless whenever a small crowd gathers around one of the vessels, for the levee is now visited by hundreds of curious people, the negroes become a little nervous and glance suspiciously at the whites and then at the soldiers. If the latter appear to be contented the darkies regain their composure. There was a sigh of relief throughout the city this morning when daylight came. People went to bed last night with an undefined feeling of dread that before the night had passed something unusual would occur. What they most dreaded was fire. Many were under the impression that the strikers would change their method of warfare and apply the torch. Nothing occurred to disturb the peace of the city. The rioters remained away from the levee, and last night passed off without one. Her day, the rioters were detailed on the upper levee reached their destination at 7 o'clock. They marched from their armories without any incident worth mentioning. As soon as they had reached the various ships the negroes started into work. A few white screwmen hung around the scene but they were kept at a distance by the presence of troops.

Today the soldiers were tired out, and not in a hurry to resume their tedious detail. Their arrival was anxiously awaited by 300 negroes, who wanted, but were afraid, to go to work unprotected. As soon as the soldiers appeared on the wharf, the negroes threw off their coats, and ten minutes later cotton was being stored on the Engineer, the English steamer. No opposition was made by the dockers, more white screwmen who hung around. Governor Foster this morning stated that he would keep the military on the river until all signs of danger had passed. When asked if he expected an early settlement, he said he could not tell. There was a movement on foot among those whose interests are directly endangered by the recent trouble, to settle the affair, but it would take several days before anything definite could be done. The governor did not anticipate any more rioting.

A TRIP THROUGH MEXICO.

Mr. Kenkel Found the Country Delightful But Not So the People.

H. H. Kenkel, of the board of trade, returned last evening from a trip of several weeks through Mexico. T. J. McCarthy, of McCarthy Bros., Minneapolis grain men, accompanied Mr. Kenkel. They traveled over a large part of the country. Mr. Kenkel says Mexico is a country of great resources in everything except people. They are all either very rich or very poor. There seems to be no middle class. If there were, laws favorable to the investment of foreign capital, Mr. Kenkel thinks that a large amount would pour in but unfortunately they are decidedly the reverse. Professional men succeed well. In the City of Mexico there is a colony of Americans about 2500 in number. While in that city Mr. Kenkel saw a bullfight and says he never wants to see another. He found the country a delightful place to travel over and with comparatively little expense as well.

Silver Certificates Rise.

NEW YORK, March 15.—Silver certificates to the amount of 25,000 were sold this morning on the exchange at 62. This is the highest price paid for some time.

Ocean Steamships.

San Francisco, March 15.—Steamer China, Yokohama and Hong Kong. New York—Arrived: State of Nebraska, from Glasgow; Rhyland, Antwerp.

Motion for Review Denied.

WASHINGTON, March 15.—[Special to The Herald.]—The secretary of the interior today denied the motion for a review filed by the defendant in the case of Belvia Guertan against Josephine Anderson from the Duluth land district.

Panton & Watson

GLASS BLOCK STORE.

1000 beautiful decorated French China Cups and Saucers, worth \$1 and \$1.50, each for **49c**

THE HEARING ENDED

The Supreme Court Has Concluded the Hearing of Arguments in the Income Tax Case.

There is Considerable Speculation as to the Decision and When it Will be Reached.

Interest Revived in the Old Choctaw Claim by a Hearing in the Supreme Court.

WASHINGTON, March 15.—Now that the supreme court has concluded the hearing of the income tax case and all the light which the supreme court can expect to receive from outside sources has been thrown upon the questions involved, considerable speculation has arisen on the two points as to what the decision will be reached. Naturally no one would attempt to definitely settle either question, and the opinions of those who are entitled to consideration, are very much at variance on both points.

There is a substantial agreement in the belief that the court will make an effort to reach a conclusion at the earliest possible day and at any rate before the time set for the law to go into effect, which is April 15 next. The court is at all times disposed to accommodate government in such matters when it can do so without stretching the proprieties, and it is taken for granted that the judges in the present instance will make the importance of the treasury department of having the validity of the law finally settled before the machinery for its execution shall be put into complete operation.

That the necessity for an early adjudication for this and other reasons is understood by the court has been demonstrated by its advancing the cases on the document for argument out of their order. It is also believed on the part of many that the recess announced until March 25 is largely for the purpose of permitting immediate consideration of the cases, and the suggestion has been made that a decision may be rendered on the first sitting of the court after the recess.

Those who are most familiar with the methods of the court do not, however, accept the suggestion so early a decision as well founded and they say that on the other hand it may be delayed for a considerable time, even despite the suggestion of the court to reach an early determination. They base this opinion on the responsibility which the court will feel in finally disposing of the momentous questions as are involved, upon their knowledge of the characters of the members of the court for mature deliberation and upon the fact that the judges will each carefully consider it incumbent upon them to make very thorough investigations and to weigh carefully the questions presented by each and by one another before passing judgment.

Furthermore, in the absence of Justice Jackson, there is a possibility of a delay. While no one can have any basis for an opinion as to the character of the decision when it shall be reached, the general belief is that it will be unusual. The one way suggested by which side of the controversy will secure the majority of opinion is everywhere recognized as one of the questions which cannot be determined by the document itself shall be read from the bench.

There are those who profess to have seen indications of a leaning one way or the other by the suggestions and questions put by the members of the court to counsel while the argument was in progress, but the purpose of these suggestions was generally colored by the bias of the persons hearing them. There can, in fact, be no substantial basis for any prognostication as to the result. The opinion is expressed by some that but for the previous decisions sustaining the tax the law would surely be declared unconstitutional, but the first to aid the force of the precedent in the court.

Interest has been revived to some extent in the old Choctaw claim which attracted great attention five or six years ago, by the hearing now in progress in the supreme court of the United States for a readjustment of the claims of certain attorneys. The case goes back for many years. It was originated through the instrumentality of the late Gen. Albert Pike, and was based upon a claim for lands taken from the Choctaw Indians, but it was finally settled in 1889 by the payment of about \$2,000,000 awarded by a judgment in the supreme court.

While the matter was pending in the courts and in congress a number of attorneys and agents became interested in it, among them being one Henry E. McKee, who held a contract for 30 per cent of the claim whatever it might be. After the Choctaw claim was allowed, other attorneys applied to the courts of the District of Columbia for an injunction which was granted, to prevent McKee collecting the entire amount from the treasury. There was an informal in the writ served upon him, however, and he collected the money called for by his contract, amounting to about \$500,000, and left the country. He subsequently turned \$165,000 of the amount over to the local court, but it was not sufficient to meet all the demands, and was divided pro rata among those whose claims were considered to be proved. This settlement was unsatisfactory and the cases now being argued in the supreme court grew out of it. Among those to whom payments were made were John H. B. Latrobe, of Baltimore, and Ward Lamon, at one time a law partner of President Lincoln. One is five of the present cases. One is brought at the instance of McKee against the Lamon estate and another against the Latrobe estate, he claiming that they were not entitled to the money which was paid to them. The case against the Lamon estate and another against the Latrobe estate, he claiming that they were not entitled to the money which was paid to them. The case against the Lamon estate and another against the Latrobe estate, he claiming that they were not entitled to the money which was paid to them.

McKee, it appears, is still absent from the country and his whereabouts are unknown. The argument was begun Wednesday after the conclusion of the argument in the income tax cases, consumed the entire day yesterday and is still in progress. A large number of counsel are engaged in it, including Jeff Chandler, J. J. Weed, Enoch Totten, Reginald Fendall, James Coleman, Nathaniel Wilson, A. B. Duval and Calderon Carls. Secretary Smith has overruled the commissioner of the general land office in a decision affecting the selection of land to complete the grants to the state of Idaho under the enabling act. The commissioner held several selections for cancellation because the particular tract selected was less than a quarter section, the law providing that selection must be in tracts not less than a quarter section.

The secretary states that in the cases chosen by the commissioner it appears that there are other selections by the state adjoining the tracts of the less than quarter section, and he construes the law to mean that the state shall make its selection in as compact form as possible and that its land shall not be scattered about in forty and eighty acre tracts. When there are other selections adjoining making in all more than a quarter section, the secretary holds that they are valid.

REGULAR EVENT AT SEA.

A Reef Rushed Past a Ship at a Rapid Rate.

PORT TOWNSEND, Wash., March 15.—Capt. Charles A. Peterson, of the British bark Darr, which sailed from Puget Sound for Sydney last August, and is now at Shanghai, has sent the following letter to the branch hydrographic office here:

"On Dec. 30 last while my vessel was in lat. 40 N., long. 65 50 E., men working in the rigging reported reefs to westward. I went up with glasses and found for six or eight miles the water was milk white, with detached patches of the north, and with a clear blue water to the south. The ship was lying in a dead calm, with a glassy sea. At 3 p.m. the reef was clearly visible at 2 p.m. it passed, traveling at the rate of one and one-half miles per hour, rushing past the ship as if she was lying moored broadside on a strong tide.

"The sea was covered with a belt of white, transient foam a mile and a quarter broad, and in it were all kinds of rubbish from the shore, such as barks of trees and coconut husks. All kinds of fish found in the shallow water near the reef were playing around the whole reef or whatever it was passing by. At 5 p.m. the foam belt was out of sight to the eastward. I write fully on this, as it proves how easy a man might report false danger. Had a breeze arisen before noon and sailed from it, I would certainly have thought the reef existed."

WRECKAGE FROM THE CHICORA.

It is Now Beginning to Come Ashore at St. Joseph.

ST. JOSEPH, Mich., March 15.—Wreckage from the steamer Chicora, which was lost with twenty-four persons on board several weeks ago, has begun to come ashore here. Parts from around the engine room have been found, this being the first wreckage found from that part of the boat.

The chair which Engineer McClure used has also been found. Many are now advancing the theory that the wreck was not down from this point but that it had been driven up, allowing the wreckage which is under it to rise.

Hood's Sarsaparilla, acting through the blood, reaches every part of the system, and in this way positively cures catarrh.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Baking Powder

ABSOLUTELY PURE

traced great attention five or six years ago, by the hearing now in progress in the supreme court of the United States for a readjustment of the claims of certain attorneys. The case goes back for many years. It was originated through the instrumentality of the late Gen. Albert Pike, and was based upon a claim for lands taken from the Choctaw Indians, but it was finally settled in 1889 by the payment of about \$2,000,000 awarded by a judgment in the supreme court.

While the matter was pending in the courts and in congress a number of attorneys and agents became interested in it, among them being one Henry E. McKee, who held a contract for 30 per cent of the claim whatever it might be. After the Choctaw claim was allowed, other attorneys applied to the courts of the District of Columbia for an injunction which was granted, to prevent McKee collecting the entire amount from the treasury. There was an informal in the writ served upon him, however, and he collected the money called for by his contract, amounting to about \$500,000, and left the country. He subsequently turned \$165,000 of the amount over to the local court, but it was not sufficient to meet all the demands, and was divided pro rata among those whose claims were considered to be proved. This settlement was unsatisfactory and the cases now being argued in the supreme court grew out of it. Among those to whom payments were made were John H. B. Latrobe, of Baltimore, and Ward Lamon, at one time a law partner of President Lincoln. One is five of the present cases. One is brought at the instance of McKee against the Lamon estate and another against the Latrobe estate, he claiming that they were not entitled to the money which was paid to them. The case against the Lamon estate and another against the Latrobe estate, he claiming that they were not entitled to the money which was paid to them.

McKee, it appears, is still absent from the country and his whereabouts are unknown. The argument was begun Wednesday after the conclusion of the argument in the income tax cases, consumed the entire day yesterday and is still in progress. A large number of counsel are engaged in it, including Jeff Chandler, J. J. Weed, Enoch Totten, Reginald Fendall, James Coleman, Nathaniel Wilson, A. B. Duval and Calderon Carls. Secretary Smith has overruled the commissioner of the general land office in a decision affecting the selection of land to complete the grants to the state of Idaho under the enabling act. The commissioner held several selections for cancellation because the particular tract selected was less than a quarter section, the law providing that selection must be in tracts not less than a quarter section.

The secretary states that in the cases chosen by the commissioner it appears that there are other selections by the state adjoining the tracts of the less than quarter section, and he construes the law to mean that the state shall make its selection in as compact form as possible and that its land shall not be scattered about in forty and eighty acre tracts. When there are other selections adjoining making in all more than a quarter section, the secretary holds that they are valid.

For Sale by All Druggists.

PHOENIX, Ariz., March 15.—The bill curtailing the power of the courts in punishing for contempt is now in the hands of the governor. A committee of the Arizona Press association has waited on the governor urging its approval. The bill acts to protect the press by disqualifying a judge from trying contempt cases against himself and the giving of a right of a jury trial and appeal.

The wide departure of this bill from all laws on this subject and the great interest manifested by lawyers, the courts and the pressure of the press on the governor makes its fate a matter of much concern. The governor is both a lawyer and journalist.

WILL MEET YOUNG GRIFF.

George Green Will Meet Griff Before the Coney Island Club.

LOS ANGELES, Cal., March 15.—George Green, who is known all over the country as "Young Corbett," is going to meet young Griff, the Australian, before the Coney Island club in New York.

Esterday he received a dispatch from W. A. Brady, manager for Champion Corbett, apprising him that a match could be arranged, and asking whether he was desirous of going against the man who bested Jack McAuliffe.

Green replied by wire that he would only be too glad of such an opportunity, and told Brady to forward the ticket at once, which Brady in his message had offered to do.

VANDALIA EXPRESS WRECKED.

Cars Derailed and Burned and Two Passengers Injured.

TERRE HAUTE, Ind., March 15.—The Vandalia express No. 7 was wrecked two miles east of this city at 1:25 this morning. Conductor Rahm had his arm fractured and several passengers are badly bruised. A head end collision with a switch engine caused the accident. Both engines were wrecked, high in the air and the derailed cars burned fiercely, as well as a dozen loaded freight cars standing on the siding.

Both engines and freight cars escaped serious injury by jumping. The express was running at a speed of thirty miles an hour when the crash came. Two of the passengers known to be injured are J. D. Early, attorney of Terre Haute, and the other an actor of the "True Irish Hearts" company, who refused to give his name.

An air of mystery surrounds the wreck, no one volunteering any information whatever. The cars not damaged were taken away by a siding and sent on.

Governor Duff Dead.

SYDNEY, N. S. W., March 15.—The Rt. Hon. Sir Robert William Duff, G.C., governor of New South Wales, is dead in 1835. He was formerly a commander in the royal navy and was knighted in 1885. He was lieutenant of the counties of Banff and Kincardine, Scotland.

Shoplifters Arrested.

PITTSBURGH, March 15.—Three of the shrewdest and most successful female shoplifters in the country were arrested yesterday by detectives from Al. Lehighy. The women are sisters, Mrs. Celia Stakely, Mrs. Mary Cohout, and 10-year-old Annie Dennison. Goods worth \$200 were found in their house.

French Tax on Sugar.

PARIS, March 15.—A banquet given by the sugar refiners last evening the premier, M. Ribot, declared that he would support the proposition to place a sur-tax on all extra European sugars.

MURDERED FOR HIS MONEY.

A Cattle Buyer in Milwaukee Found Dead in a Field.

MILWAUKEE, March 15.—The police are investigating a mysterious and brutal murder which occurred some time between last Friday and Wednesday. Last Friday the friends of Ferdinand Moritz, a cattle buyer at 1022 Central avenue, notified the police that he was missing. The search for Moritz was quietly made with no satisfactory result. Yesterday a teamster, while driving along the road near the Pabst brewery farm on the western outskirts of the city, saw in the field some distance off the road the body of a man.

It turned out to be that of Moritz. He had been killed with a blunt instrument some kind, his head being terribly bruised. His clothing was torn and his money gone. The police believe that Moritz was murdered and his body taken to the spot where it was found.

JIMMY MURPHY VICTORIOUS.

Knocked Out a Minneapolis Man in the Third Round.

ST. PAUL, March 15.—The sporting element of the Twin Cities held a fistic session in a resort near the Wisconsin line last evening, which was a tremendous success. Oscar Gardner, the Omaha Kid, and Jack Cummings, of St. Paul, at 115 pounds each, were down for the preliminary event at six rounds, Gardner getting the decision after a pretty contest.

The event of the evening was between Eddie Schuch, of Minneapolis, 150 pounds, and Jimmy Murphy, of Kansas City, 118 pounds, a newcomer. This was one of the best fights of the season, the two men evenly matched in every particular. Murphy knocking his man out in the thirty-third round.

You will never have another such a chance buy and as J. G. Howard is offering for the next week.

NICOLA TESLA TALKS.

The Great Electrician Mourns Over the Destruction by Fire of His Workshop and Apparatus.

Is Now Obligated to Work Doubly Hard to Make Up for the Unfortunate Loss.

Edison Offered Tesla the Use of His Workshops in Which to Continue His Experiments.

NEW YORK, March 15.—Nicola Tesla, the electrician whose workshop and apparatus were destroyed by fire on Wednesday morning, was at work again last night. Although not yet recovered from the shock occasioned by his loss he spent several hours in drawing up the plans of a new invention. When seen at his apartment in the Gerlach hotel, Mr. Tesla was walking nervously up and down his room, dictating to a typewriter.

"Yes, I am at work again," said he in reply to a reporter's question. "I have already begun work on a new set of plans. I shall now be obliged to work doubly hard to make up for the most unfortunate loss I have sustained."

When asked if he could give an estimate of his loss, Mr. Tesla said: "No, that would be very difficult. In a case like this the loss cannot be estimated in dollars and cents. If it could be I might say that a million dollars would not pay for what has been destroyed."

"But you will doubtless be able to replace everything in time," said the reporter.

"I don't know," replied the inventor. "Somebody offering the use of his workshop and machinery, which will make him famous. In the case of an inventor, it is different. When at one blow, all his apparatus is destroyed, there were a few which had already been sent away. The larger part of my work, however, was a total loss. I do not insure it, as no insurance could cover its true value."

Mr. Tesla said that his electrical apparatus with which he hoped to improve the electric light had been destroyed with the rest. There were a few which had not been sent away, but they were of little value. He has shown me the greatest kindness and consideration. I do not think I will accept the offer, but shall probably within a short time secure other quarters in the city and begin my work again."

THE CUBAN REVOLUTION.

A Provisional Government Formed by the Insurgents.

TAMPA, Fla., March 15.—Cuban advances per steamer Oliver are as follows: Deputies of insurgent bands and societies have met in Los Negros and organized a provisional government. Gen. Maximino Gomez has been chosen commander-in-chief. Jose Marti has been designated an envoy to obtain from foreign nations a recognition of the rebels as belligerents.

Five hundred Spaniards are said to have been killed in the battle of Vergina.

ST. LOUIS, March 15.—The latest news from Cuba says that Gen. Gomez, the new commander-in-chief of the provisional government, has been arrested by the Spanish forces and is being held in a prison. He is armed with machetes and rifles.

A dispatch from Key West, says several boats with armed crews from the Spanish gunboat Infanta Ysabel, patrolled the shore of the island all of Wednesday night watching for a filibustering expedition which was reported ready to leave for Cuba.

MURDERED FOR HIS MONEY.

A Cattle Buyer in Milwaukee Found Dead in a Field.

MILWAUKEE, March 15.—The police are investigating a mysterious and brutal murder which occurred some time between last Friday and Wednesday. Last Friday the friends of Ferdinand Moritz, a cattle buyer at 1022 Central avenue, notified the police that he was missing. The search for Moritz was quietly made with no satisfactory result. High Grade
Footwear.

We have always been the leaders in the best grade of shoes in Duluth and this spring we have a larger stock and lower prices than ever before.

PHILLIPS & CO

TROUSLER-ARMSTRONG.

A Happy Wedding in the Chapel of St. Luke's Hospital.

Last evening at 8:30 o'clock Miss Marion Trussler and Thomas A. Armstrong were married in the chapel at St. Luke's hospital. The ceremony was a very pretty one. The chapel was decorated in a very pretty manner with carnations and ferns. The bride, at the request of Miss Taylor, the matron, wore the nurse's uniform and carried white roses. The groom was attired in evening dress. Miss Mary Fee attended the bride and carried pink roses. H. G. Cable was best man. Dr. Ryan performed the ceremony. W. H. Hubbard gave the bride away. Refreshments were afterward served and a quiet and informal reception held. The bride is one of the graduates of the hospital training school and her bridesmaid Miss Fee was in her class. The groom is the chief electrician of the Duluth Street Railway company. Quite a romantic interest is said to attach to the wedding. Mr. and Mrs. Armstrong will reside in the West End. Last night they left for St. Paul and will visit Chicago before returning.

Give Him a Show.
Atlanta Constitution: "One more request," said the sick man, "and I shall die satisfied."
"Name it," said the weeping wife.
"I want John to write my obituary, for he's the biggest liar in the family, and ain't never had much chance to spread himself."

You will never have another such a chance to buy land as J. G. Howard is offering for the next week.

The Duluth Press
Tomorrow, in addition to all the news of the week, will contain the official financial statement of St. Louis county; a splendid woman's page by the Zenith Press club, red hot paper by "Equipoise" on Mayor Lewis' appointments, and editorial on "Shall We Have a Crusade?" and "A Maundin Judge." Newsboys and agents supplied from our downtown office, No. 3 Palladio Building.

Keep your eye on John G. Howard and be sure you get some of that free land given away Monday, March 18.

Don't miss the big sale of new shoes at new prices soon to take place at the Glass Block store.

Coal Office Removed.
Duluth Fuel company's office is now in The Herald Building.

A Choice Building Lot.
On East Second street, just cheap. For sale by Grover H. Croswell, 314 Palladio Building, Duluth, Minn.

WEST DULUTH ITEMS

Great Preparations Are Being Made for the St. Patrick's Entertainment at Great Eastern Hall.

Bishop McGolrick and Rev. Father Curry Will Deliver Addresses and Fine Music Will be Given.

I. O. G. T. Will Give an Entertainment This Evening, the Band and a Male Quartet Assisting.

Extensive preparations are being made for the St. Patrick's eve concert at Great Eastern hall tomorrow evening and the entertainment promises to be one of the best local affairs of the season. Among those who will take part in the program are Miss Julia Donovan, Miss Anna Farrell, Miss Margaret McDonald, Miss Kirby, Joseph Sattler and F. Schult, also a number of Mrs. Oland's pupils and the cathedral quartet. Bishop McGolrick and Rev. M. B. Curry will deliver addresses.

West Duluth Briefs.
Dr. Forbes will leave for Brainerd tomorrow where he will exchange pulpits with Rev. George West. Dr. Forbes will also lecture at Brainerd on Monday evening.

The I. O. G. T. will give an entertainment at their hall this evening. Among the attractions of the evening will be music by the band, the female quartet and the Edison kineoscopes.

The funeral of Eda Burns will take place on Sunday afternoon at 2 o'clock. Mr. and Mrs. J. H. Dunham, father and mother of Mrs. Burns and J. W. Vars, of St. Paul, are in the city to attend the funeral.

THE MUNICIPAL COURT.
C. L. Wentz's Hearing Was Adjourned to the Afternoon Session.

In police court this morning Andrew Anderson went up ten days for drunkenness. John Drohan went along for thirty days for a similar offense. The hearing of C. L. Wentz, charged with forgery, was postponed until this afternoon.

Yesterday afternoon the case of the State against Assistant City Attorney Benham, charged with assault in the second degree, was continued one week for the third time, with the understanding that next Thursday afternoon the preliminary examination of the defendant be held without fail.

The Board May Propose.
It is quite probable that the board of trade will make some proposition to the produce exchange to induce the latter to join issues with the former and have its pit in the new Board of Trade building. It is believed that it could be made more economical for the produce men and assist the board as well.

Wants Damages for Delay.
W. H. Cross has filed two suits against W. H. Doyle. He alleges in one complaint that he contracted with Doyle to haul logs from Carlton county to the Eastern Minnesota at 75 cents per 1000. He arrived on the 10th of February with 1000 men and teams and was compelled to wait eleven days before going to work. He sues for \$7000 damages. After he had got to work he claims that part of his work was not paid for, and he sues for \$413.50 on that score.

Has Sold Farms Since.
George Crosby is satisfied that the farmers' institute was of great value to Duluth. He says he has sold four ten-acre tracts at Spring Garden near Lakeside since it was held here and has a deal opened for a large farm.

Received a Gold Brick.
The Marine National bank has received from the Bank of Rainy Lake a small gold brick with a request that it be sent to the government mint and the amount received for it placed at the credit of the bank. The brick is smaller than a walnut and is valued at \$116.

There is more catarrh in this section of the state than in any other. It is a local disease and until the last few years was supposed to be incurable. For a great many years it has been treated by a local doctor, and prescribed local remedies, and by constantly falling to cure with local treatment, it has become a chronic disease. Science has proven catarrh to be a constitutional trouble, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Chas. & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to 100. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circular and testimonials. Address, F. J. Chas. & Co., Toledo, O.

Ten-Acre Tracts.
On Vermillion road, two and one-half miles from Woodland car line, for sale by J. C. & R. M. HUNTER.

It's going to be immense—the values given at the big shoe sale at the Glass Block store soon.

THE HEART

It is liable to great functional disturbance through sympathy. Dyspepsia, or indigestion, often causes to palpitate in a distressing way. Nervous Prostration, Debility and Impoverished Blood, may cause the rapid pulsations. Many times, Spinal Affections cause it to labor anxiously. Sufferers from such Nervous Affections often imagine themselves the victims of organic heart disease.

ALL NERVOUS DISEASES, as Paralysis, Locomotor Ataxia, Epilepsy, or Pile, St. Vitus' Dance, Rheumatism, Neuritis, Melancholia and Kindred Affections, are treated as a specialty with great success by the Staff of the Invalids' Hotel, Pamphlet, References, and Particulars, enclosed in stamps for postage. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

WHEAT STARTED STRONG.

The Market Ruled Firm During Most of the Session.

Wheat started higher today, owing to cables showing an advance, and ended fairly firm until noon, when prices eased off. May started at 62 1/2c, sold up to 63c and declined to 62 1/2c. Trading was a fair volume. Cash stuff was very narrow. The mills took practically nothing and the elevators only a little. The close was unchanged from yesterday for cash and May and for lower for July and September. Following were the closing prices: No. 1 hard cash, 62 1/2c; March, 62 1/2c; May, 62 1/2c; July, 62 1/2c; September, 62 1/2c; No. 2 northern cash, 62c; March, 62c; May, 62c; July, 62c; September, 62c; No. 3 cash, 61 1/2c; March, 61 1/2c; May, 61 1/2c; July, 61 1/2c; September, 61 1/2c; No. 4 cash, 61c; March, 61c; May, 61c; July, 61c; September, 61c; No. 5 cash, 60 1/2c; March, 60 1/2c; May, 60 1/2c; July, 60 1/2c; September, 60 1/2c.

New York Money.

LARGEST CIRCULATION IN DULUTH
OFFICIAL PAPER OF CITY OF DULUTH.
Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

HERALD'S CIRCULATION,
17,148
HIGH-WATER MARK.

The Weather.
U. S. AGRICULTURAL DEPARTMENT, WRITERS
BUREAU, DULUTH, MINN., March 15.—The
weather is high throughout the entire valley,
out in Manitoba and lower in the East (Gulf
states). The weather is cloudy with rain or
snow in the Mississippi and Ohio valleys and
generally fair in the remaining regions. It is
coldest this morning in Manitoba, with
temperature of from 20 to 25 degrees below
zero in the lake region; the temperature ranges from
10 above zero at Chicago and Cleveland to 10
below at St. Louis. In the Mississippi
valley the range is from 10 above at St. Paul to
20 at Memphis.

Duluth temperature at 7 a. m. today, 10
degrees above zero; maximum yesterday, 20 degrees
above zero; minimum yesterday, 8 degrees
below zero.

Forecast for Duluth and vicinity till 7 p. m. tomorrow: Fair; except
possibly snow flurries today; colder tonight and
Saturday; northeast to northwest winds.
JAMES KENNEL,
Local Forecast Official.

Chicago, March 15.—Forecast till 5 p. m. to-
morrow: For Wisconsin: Ice and snow tonight
with slightly colder in west half; Saturday fair
and colder; northwest winds; light to heavy
snow; for Minnesota: Fair and colder tonight;
Saturday fair with colder in east half; north-
west winds.

Imitation Parkhurst.
At the Baltimore conference of the
Methodist Episcopal church last week,
Bishop Andrews delivered an address
on ministerial work, which was a protest
against sensationalism in the pulpit and
pointed a moral that should be laid to
heart in every community. "We hear
much in these days," he said, "about ap-
plied Christianity, about the duty of the
church and the pulpit to take up and
solve the problems that confront society.
We have a man in New York, who, under
the guidance of God, has done a
great work in arousing the moral sense
of the people in showing them their
duty in the matter of government. Dr.
Parkhurst is worthy of high credit in-
deed for the work he has done. He
seems to have been acting under a spe-
cial calling. Yet it seems to me that
there is danger of a large crop of imita-
tion Parkhursts springing up all over the
country, weaklings who imagine them-
selves strong and called on to do great
things, yet who cannot, and who are apt
to do more harm than good."

There are rare occasions when the
minister is justified in becoming a political
leader and reformer, because it is not
every situation which demands a Park-
hurst nor every man who is the possessor
of his ability. To preach the gospel pure
and undefiled should be the highest as-
piration of a Christian minister. When
he carries political issues into the pulpit
and poses as a political teacher and re-
former he must of necessity lose a large
portion of his religious influence. "The
function of a Christian minister," says
Bishop Andrews well says, "is to make
Christian men. It is a mistake to make
the pulpit a field for the discussion of
such topics as the relations of capital
and labor, of the classes and the masses,
of the duty of the legislatures and the
tariff. When the minister deals with the
great questions of sociology great mod-
esty becomes him. The questions of the
currency and of the tariff and of the re-
lations of capital and labor are not so
simple that these men of Christ can
speak of them in a dogmatic or ex-
cathedra tone. We shall determine these
great questions not by their discussion
from the pulpit, but by putting men in
such an attitude of soul that they can
decide them for themselves."

In this connection, an excerpt from
a recent article in the Boston Transcript
on the discussion of social subjects in the
pulpit may not be inappropriate. The
opinion is expressed that the study of
social subjects, the teaching and experi-
ment with regard to them, are quite dif-
ferent things from the preaching of
the word. The note of authority which be-
longs to the preacher as a prophet of re-
ligion, an interpreter and inspirer of hu-
man experience, does not belong to him
as an expositor and defender of social
theory. The preacher's authority as a
social expert may almost be measured
by his pulpit utterance. Certainly the
ingenious utterance of an earnest inter-
est which betrays more warmth than
knowledge, more heart than wisdom, and
expresses scarcely more than the slang
of a subject which is dangerously near
being a fad—this only weakens the
preacher's message in the minds of men
who have seen and thought much of life.

"The authority," says the Transcript,
"which once belonged to the pulpit with
regard to every subject is now gone, and
it is no longer distributed. Feverish
insistence will not win the listening
which under different conditions was
gratefully given. The most practical
authority of the pulpit is through its
natural limitations, not against them.
People want most what preachers least
often bear them ask for. The great

preacher, whose name will be as closely
connected with the history of Boston as
the name of Savonarola is linked with
the history of Florence, did more for his
city than the monk did for Florence—
more in doing less. It was the way
he did not preach
on social subjects that made Phillips
Brooks' spirit powerful in every part of
the city he loved. He chose the great
themes of religion because they alone
extended everywhere. He held himself
to those themes, and their limits gave
him room to touch every human interest
and need. His popularity illustrates the
real demand of our times. That de-
mand is not for social subjects in the
pulpit, which meet but one class of
needs in the pews; it is for religious sub-
jects so appreciated that they shall
bring all needs up in their unity, and so
enforced as to send life into the whole
world."

Clean the Streets.
The clouds of dust that are blown
along Superior and other streets, with
great resultant damage to the stocks of
merchandise in the stores, especially the
dry goods establishments, are giving the
city authorities much trouble. The sug-
gestion that the streets should be swept
was all right, but it did not go far
enough. The streets must be sprinkled
as well as swept. The objection is
raised that the weather is too cold for
sprinkling. This objection may be good,
so far as the temperature during the
past few days is concerned. But the
weather has not been so severe every
day. There have been warm days re-
cently when the sprinkling carts could
have been filled and operated without
danger of freezing up, and there will be
equally warm days in the near future.

Advantage should be taken of the
first warm day to sprinkle the streets.
In the meantime let the streets be thor-
oughly swept at night, when the clouds
of dust caught by the sweeper will dis-
commode few people and do little dam-
age. And by night The Herald means
any time after midnight and before day-
light. Last summer the work of clean-
ing the streets was frequently begun as
early as 9 p. m. There is no excuse for
filling the streets with clouds of dust at
an hour when it will be unpleasant to
the public, and it should not be per-
mitted. The street sweepers should not
begin operations until midnight. Much
of the dust on Superior street can be re-
moved now, and the street department
should attend to the work at once.

One of the latest French medical ideas
is to vaccinate children who have whoop-
ing-cough. A report says: "M. Bolog-
nini found that in the case of thirteen
children with the whooping-cough, whom
he thought it necessary to vaccinate, the
operation, when performed early enough
—that is to say, at the first, or at the be-
ginning of the second period—lessens
both the number and the intensity of the
attacks, and hastens on recovery. The
favorable action of vaccination begins to
appear in two or three weeks, but is
sometimes preceded by a temporary ag-
gravation in the symptoms. It is evi-
dent that when the characteristic pul-
sules are not obtained, by immunity
either innate or acquired by previous
vaccination, the inoculation has no effect
on the disease."

The New York Recorder tells a political
anecdote that is worthy of repetition.
'Some years ago,' said the drummer in
the smoking car, 'I had a young friend
in one of the interior counties who was a
bustler in politics. He found the field
too narrow after a little while, though,
and went to New York city. There he
caught on in no time, and within two
years they sent him up to Albany.' "To
the legislature or senate?" inquired the
listener. "Neither. To the penitentiary."
As Capt. Bunsby would say, the bearing
of that observation lies in the application
of it.

The Boston Transcript says that awful
rumors are abroad of a possible inter-
national complication arising from the
incident of the sultan's anger because an
Albany man kept on his eyeglasses
while he looked at him. It is not prob-
able, however, that the Albany legislators
will be called upon to go to war to de-
fend their townsman because he tried to
see things clearly. It is disrespectful
apparently to keep on glasses while gaz-
ing at rulers of Turkey. A lens may not
look at sultans. Tourists to Turkey are
warned, "Specs off!"

During the last thirty years the mem-
bership of the New York chamber of
commerce has contributed \$2,500,000 for
the relief of persons suffering from
famine, fire, flood or contagion. This,
the chamber contends, gives it a right to
be heard in behalf of legislation for re-
forming the municipal system of New
York city. It particularly calls for the
passage of a bill to eject the police
judges of the metropolis.

The New York Recorder has dis-
covered that since the president went on
his duck shooting expedition the flag has
not been raised over the White House,
and announcement has been made that
the stars and stripes will not fly over it
except when Mr. Cleveland is under its
roof. In England the British flag is
never raised over a castle when the lord
is absent.

During the last session of congress the
senate finance committee had before it a
total of 178 measures pertaining to finan-

Make It a point to run your eyes over the Store. You'd dis- cover great things to know of

Have you looked around much for things yet? The
Store is speedily becoming crowded with beautiful
goods. To serve you, and to please you is our determi-
nation.

The One Essential Point.
Galveston News: Most women do
not seem to care whether a photograph
resembles them or not. Just so it is good
looking.

He Never Discriminated.
Kansas City Star: Cole Younger, for-
merly of Missouri, now of the Minne-
sota penitentiary, is much depressed
over the political situation. He writes
to a friend: "Under the present orga-
nization in national affairs, it would prob-
ably be in the future as it has been in
the past. There would always be a Hill-
Cleveland-Randall faction or lesser lights
like the present members of the senate
from the Middle Atlantic states, who
would defeat any measure favorable to
the South and West. There is one
thing to be said for Cole. In all his
life movements of public interest he
never discriminated against the South
and West."

SUMMONS, MONEY DEMAND, COMPLAINT
STATE OF MINNESOTA, ss.
County of St. Louis.
Municipal Court, City of Duluth.
Austin G. Miller, Plaintiff,
vs.
J. V. McCommas, Defendant.

The State of Minnesota to the Above Named
Defendant.
You are hereby summoned and required to
answer the complaint of the plaintiff in the
above entitled action which is on file in the
office of the clerk of the municipal court in the
city hall building in the city of Duluth, county
of St. Louis, state of Minnesota, and to serve a
copy of your answer to the said complaint on
the subscribers, at their office in the
Torrey building in ten days after the date
of this summons upon you, exclusive of the
day of each service; and if you fail to
answer the said complaint within the time
aforesaid, the plaintiff in this action may
obtain judgment against you for the sum of one hun-
dred thirty-two dollars and fifty cents, with
interest at the rate of seven per cent per annum
from the first day of May, 1894, together with
the costs and disbursements of this action.
Dated Duluth, Minnesota, December eleventh,
1894.

NOTICE OF EXPIRATION OF REDEM-
PTION PERIOD.
STATE OF MINNESOTA, ss.
County of St. Louis.
To Unknown:
Take notice that the following described piece
or parcel of land, situated in the county of St.
Louis and state of Minnesota, to-wit: Lot
one hundred eleven (111), on Minnesota Ave-
nue Lower Duluth, according to the recorded plat
thereof, was on the fifth day of May, A. D. 1890,
bids in for the state for the sum of two dollars
and seventy-two cents, pursuant to a real
estate tax judgment entered in the district court
in the said county of St. Louis on the twenty-
first day of March, A. D. 1890, in proceedings to
enforce payment of taxes delinquent upon real
estate for the year 1888, for the said county of St.
Louis, and was sold with day of March, A. D.
1890, assigned by the state of Minnesota for
twenty dollars and fifty cents. That the
amount required to redeem such lands from
such assignment exclusive of the costs to secure
upon this notice is the said sum of
twenty dollars and fifty cents with in-
terest thereon at the rate of one per cent per
month from said 21st day of March, 1890, to the
date of redemption and delinquent taxes,
penalties and costs accruing subsequent to said
assignment with interest thereon to the time of
redemption and the time within which
said land can be redeemed from said assign-
ment will expire sixty days after service of this
notice and proof thereof has been filed in man-
ner prescribed by section 27 of Chapter 6, Gen-
eral Laws of Minnesota for the year 1887 and
1888.

Dated Duluth, this 12th day of March, A.
D. 1895.

NOTICE OF APPLICATION
FOR
LIQUOR LICENSE.

STATE OF MINNESOTA, ss.
County of St. Louis.
City of Duluth.
Notice is hereby given, that application has
been made in writing to the corporation of the
city of Duluth, and filed in my office, pray-
ing for license to sell intoxicating liquors for
the term commencing on March 14, 1895, and ter-
minating on March 14, 1896, by the following
person, and at the following place as stated in
said application respectively, to-wit:
Gust Levin, at No. 227 West Superior street.
Said application will be heard and deter-
mined by said common council of the city of
Duluth, at the council chamber in said city of
Duluth, in St. Louis County, Minnesota, on
Monday, the 19th day of March, 1895, at 7:30
o'clock p. m. of that day.

Witness my hand and seal of said city of Du-
luth, this 14th day of March, A. D. 1895.
(Seal)
C. E. RICHARDSON,
City Clerk.

AN ORDINANCE
To repeal an ordinance entitled "Ordinance No.
30, an ordinance granting to A. Harris and
his assigns the right to construct, maintain
and operate street railways in the village of
West Duluth."
The Common Council of the City of Duluth do
Ordain:
Section 1. That the ordinance entitled "Or-
dinance No. 30, an ordinance granting to A. A.
Harris and his assigns the right to construct,
maintain and operate street railways in the
village of West Duluth," passed Nov. 6, 1893,
which was amended by Ordinance No. 31, passed
Nov. 9, 1893, be and the same is hereby
repealed.
Section 2. This ordinance shall take effect
and be in force from and after its passage and
publication.
Passed March 11, 1895.
BENJAMIN F. HOWARD,
President of Council.
Approved March 13, 1895.
RAY T. LEWIS,
Mayor.

Attest:
C. E. RICHARDSON,
City Clerk.
(Seal)
Corporate Seal.

ORDER FOR HEARING ON CLAIMS.
STATE OF MINNESOTA, ss.
County of St. Louis.
In Probate Court, Special Term, March
14, 1895.
In the Matter of the Estate of Anders Pederson,
Deceased:
Letters of administration on the estate of said
deceased being this day granted unto Edward
Sorenson, of said county.

It is ordered, that all claims and demands of all
persons against said estate be presented to the
court, for examination and allowance, at the
probate office in Duluth in said county on
Monday, the 19th day of March, A. D. 1895,
at ten o'clock a. m.

It is further ordered, that six months from
the date hereof be allowed to creditors to pre-
sent their claims against said estate, at the ex-
piration of which time all claims not presented
shall be forever barred, unless, for cause shown,
further time be allowed.

Ordered further, that notice of the time and
place of the hearing and examination of said
claims and demands shall be given by publish-
ing this order once in each week for
three

TAXATION OF BOATS

Capt. Alexander McDougall Talks Plainly on the Manner in Which Vessel Interests Are Taxed.

He Says American Ships Are Abused by the American People to an Inexcusable Degree.

Wisconsin Bill Was a Step in the Right Direction But Did Not Go Far Enough.

Much attention has lately been called to the subject of taxation of vessels in this state. The present laws are ruinous to ship building interests, and the need of reform has been often felt by those interested in any way. Lately the Wisconsin legislature has enacted measures in the right direction, which were outlined in The Herald a few days ago. A bill to reduce the system of valuation is now in the Minnesota legislature with every prospect of passage. The Herald called upon Capt. Alex McDougall for an opinion in the premises.

"The Wisconsin bill," replied Capt. McDougall, "is low enough. It should be cut again in the interest of the welfare of this section, and the Minnesota bill should be cast on the right lines in the start. The state has to right to tax them at all."

"Here is to be the heart of the steel industry of the world, where ships will be built for coastwise and foreign trade. These boats will be built here and carried through the new canals to the sea, and will go on to return, and will be prosecuted their work on the sea and the Atlantic and Pacific coasts without giving the state of Minnesota a cent of trouble. Why should they be taxed here?"

"I have just returned from the Pacific coast, where an American ship was put in commission for coastwise trade in the United States and also for foreign trade. I have gone through all the frills incidental to the abuse of American ships, and I assure you they are numerous and severe. This ship was built on the Pacific coast and owned in the state of New York. Taxes were paid when it was built, a tax was paid by its corporate owners, it was taxed from its port of call, and the custom house assessments on the boat alone amounted to nearly \$200."

"This is part of the manner in which American ships are abused by the American people, induced to do so by English interests through the agitation of the press of the seaboard, subsidized by English ship owners, and by Washington lobbyists."

"Another instance is two boats built here by us some time ago. The material arrived here in the winter, and in May the boats were completed in the Buffalo custom house. They were assessed here at over \$100,000, the material was taxed, the property and the plant were taxed, the vessels were taxed in the Buffalo, Buffalo, from whence they sailed, and in Duluth, where they were built. Besides these the state of New York taxed the corporation."

"These vessels left this port early in May and did not return. During the season they ran between Ashland and Cleveland and never touched at Buffalo (Duluth or New York); yet they paid four or five different kinds of taxes. At the same time, for this taxation we receive no protection that we know of, and there are many abuses. All this is ruinous to ship building interests in this country, and unless some of it is done away with we can never become the important shipbuilding center we shall if it is."

"I think the state of Minnesota would do well to put itself on record by making ships free, thus encouraging and fostering attempts to do foreign trade. This should apply only to vessels doing a trade away from ports in Minnesota. As to the assessed valuation of boats locally owned which cannot leave the state and which get some little protection, the system should be reduced to not more than half that in the Wisconsin bill recently passed. Of the others, if the valuation is to be reduced it should be put in ciphers."

AN IMPORTANT SUIT.

H. P. Barbour Comes to the Front With Several Charges of Fraud.

A somewhat important case was expected to come up before Judge Moer this afternoon. H. P. Barbour, on behalf of all similarly situated stockholders of the Standard Ore company, sues J. H. Upham, R. T. Lewis and the Standard Ore company to annul a note given to Upham and Lewis on the ground of usury. The complaint alleges that a note for \$15,000 was given by the company to Lewis in November, 1893, the security being the lease of the Cincinnati mine. The note and mortgage were transferred by Lewis to Upham.

The complaint alleges that the consideration for the note was but \$12,000 and that \$3,000 above the interest was given for the note. Barbour charges J. A. Bates and Upham, who control a majority of the stock with conspiring to defraud the company. The answer sets up a general denial.

The case of Paul Sharkey against D. C. Cash and G. C. Hartley was nearly through at noon. A motion for a new trial argued and denied in the case of the Tinslin against John Tinslin.

Regrets.
How sweet it were to have
Far from them and lonely.
If for thee, an emotion deep,
Which I break from only!
But ere I may come to thee,
Many a long mile will I
Farewell will be given to thee,
Soon the seas will be
None further in the land
Love from here should carry
Then a heart in the land
Homes can may carry. W. B. MOER.

The government cannot sell any more lands until J. C. Howard is sold out because it cannot compete.

Wait and watch for the big shoe sale soon to take place at the Glass Block Store.

AN ADVANCE IN WAGES.

Ten Thousand Cokers Will Get an Advance of Fifteen Per Cent.

MOUNT PLEASANT, Pa., March 15.—Not since the halcyon days of the old syndicate has the Connellsville coker received such pleasant news as came to the almost 10,000 employees of the Frick and Southwest companies at noon today, when notices were posted at all their works stating that an advance in wages of 15 per cent will be made April 1.

Woman Suffrage Question.
An attractive program has been arranged for the meeting of the Duluth Debating society this evening. The subject for debate is, "Should Suffrage Be Extended to Women." The Young Women's Christian association will take the affirmative and the Duluth Debating society the negative. Robert Hamp will give a reading and Miss Anna Farrell will sing.

His Duty.
"I sit up at night and think of the situation at the present time," said Mr. Erastus Plunket. "It's next in importance to the head waiter in the hotel restaurant."
"G'way! What are you talking?"
"It's do head waiter."
"Nebber hyah at no such passon."
"Dey's cause you is behin do times. When obah or customer kicks, he's gotter hah somebody ter kick to, ain't he?"
"Sho."
"Wall, do perpetrator ain't got tin' ter ten ter 'em all, ner do cashier ain't, ner do head waiter ain't, so dey sen 'em ter me. An I listens ter 'em."—Washington Star.

Substantial Evidence.

Saturated Sam—I say, Weary, yer ought ter git yer hair cut. People'll laugh at yer.
Weary Ways—Not much. I give it to 'em dat I'm a college man in hard luck, and me tangled locks substantiate der story. See—New York World.

He Was Doing Well.

Jack Negley was one of the mountaineers of the Cumberland whom I had known better perhaps than any of them, for Jack had borrowed a few dollars from me to buy a yoke of steers with, and the number of times he came to me year before last renewed brought me into very close acquaintance with him. He was a farmer in a small way, and he was never known to be out of debt. He was a renter, and at least every other season he was occupying a different farm. By my advice he had moved the year before into an entirely new field at least a dozen miles from his usual haunts, and I had not seen him for several months. When I did see him at last, he was by accident, as business called me into his neighborhood. As I called on him to his new place, he called me into his old place, and there on the cornfield and came out to the fence.

"Hello," I exclaimed, "is this your farm?"
"Yes, and I just come over to tell you, colonel, that I'll be ready to pay part of that claim on your account long."
"You must be doing well."
"I think I'm doing just fine, and I'm powerful obliged to you, colonel, fer headin me this way."
"I always glad to help if I can."
"I knowed that, colonel, and that's why I come away over here so fer from home. It's kinder strange to me, but ez long ez I'm doin ez well ez I am I'm a-goin to stand hit."
"Jim's face brightened perceptibly."
"No, I ain't, colonel," he replied hopefully, "but I'm losin it slower'n I ever done in my life afore."

Tobogganing.

Persons who desire to toboggan should be a little careful at first. You should never sit down on a toboggan slide unless there is a toboggan under you. There are numerous perils connected with tobogganing. If there is no slide handy, you can get a pretty good idea of one of them by stepping on a piece of soap at the head of the stairs. In some parts of the country it is killing off the people as effectively as the deadly car stove, and it has been suggested that the deadly car stove should be loaded on the toboggan and both should be shoved down the slide into the lower depths of impenetrable desecration. Something of the kind is hinted at in the following poetic gem:

Little Willie had a toboggan
That was turned up at the bow.
Upon the slide two did collide,
Willie's pants are vacant now.
—Texas Sittings.

The bath rooms in connection with the Spalding house barber shop are now open for business. These rooms have been thoroughly renovated and refitted which makes them suitable for a first class bath.

FOLLOWING THE TRAIL.

How a Band of Cheyennes Was Followed to the Death.

We had no bloodhounds with us as the command marched out of post to pick up and follow the trail of the Indians who had been heard of on the west bank of Silver creek, but we had something better—two Sioux trail riders. They were young warriors who had given their allegiance to the government and into its service. Neither was over 25 years of age, but their experience in woodcraft dated back to the hour they could step alone. We were after Cheyennes, their traditional enemies, and they entered upon the quest like hungry wolves.

No white man could have found the camp of the marauders, every trace of which had been obliterated to all eyes save those of other Indians. Our trail riders ran up and down the bank for a mile or so. They searched the blades of grass, the leaves, the twigs and bushes. Buried deep under the leaves, which seemed to have been heaped up by the wind, they found the ashes of a campfire and a few bones. They sifted the ashes back and forth in their hands, mashed the bones on a rock and then reported that the camp was very old. There had been from 15 to 20 Indians camped there, and all were on foot. It was a war party, and in breaking camp every effort had been made to hide the trail. In an hour, after circling about like dogs, our scouts found it. A broken stick, a stone overturned, the faint impression of a moccasin on the soft soil, were the lines they went out of nature's book. Having once got the direction, they made a ride of ten miles before looking for further signs. At a spot which they pointed out while yet a mile away they picked up the trail again. From this point on there was no attempt to hide it.

The hostiles were out after stragglers and moved slowly. In one day's ride we made the same distance they had in three. By noon of the second day we were on a warm trail. The trail led for 10 miles over barren plain, through valleys and across thickets and hills as the warriors dodged and skulked and twisted about, but only once was it lost for an hour. At sunset the traces were so fresh that the trail riders said the war party was not over ten miles ahead. We halted and went into camp, and even in the darkness the scouts felt their way for another mile. We were astride with the first beams of the coming day. The trail led directly into a cedar thicket, which the horses could hardly break through. No white man's eye could detect the faintest trace that a human being had pursued his way, but the trail riders seemed to catch up the very scent from the rock and soil.

After going a distance of three miles the command halted. We had reached the broad, clear space which was so heavy with outcropping rock that the trail seemed to be lost. California Joe and his partner got down and searched for the trail, and then they picked up the trail. In five minutes they picked up two or three leaves which had been crushed by unaccustomed feet—a bit of rock broken off the edge of a flat stone, a stunted bush against which somebody had brushed and tangled the limbs. They did not follow the trail beyond the rocky ground. One of them climbed a tree to note the surroundings, and when he descended he pointed to a spot five miles away and said we would find the Cheyennes there. Intuition told him so. It was the spot which he, himself an Indian, would have selected.

We turned square to the east and rode for three miles and then bent to the north. We had covered within a quarter of a mile of the camp. As we made our last halt the trail riders crept forward and reported the Cheyennes just arousing themselves and replenishing the campfire. When all was ready, the bugler sounded the charge, every trooper uttered his warwhoop, and we were almost into camp before the amazed Indians had made a move. We were among and over them like an avalanche, and only 3 out of the 15 made any show of resistance.

It was over in five minutes, not a trooper or a horse even slightly wounded, while nine of the painted braves lay dead on the earth, and the others were flying in terror up the hillside thick with undergrowth and cumbered with huge boulders and masses of rock. Nineteen rifles and the camp outfit fell into our hands. The rifles were to be turned over to the government and the outfit burned. The trail riders did not go unwarded, however. As we rode away they lingered behind, and when they joined us the scalp of the slain Cheyenne were dangling from their belts, and there was a gleam of satisfaction in their eyes which no amount of plunder could have brought about. M. QUAB.

Forty acres of land given away Monday and Tuesday, March 18 and 19, to everyone buying forty acres.

THE EMPIRE STATE CHAMPION.

Chess Expert D. G. Baird and His Victory in New York.

D. G. Baird, who recently won the chess championship of New York state, has been considered one of the strongest players of the metropolis for a number of years and is a brother of J. W. Baird, who competed in the Leipzig international tournament. Many astute judges of the game who know the brothers well consider D. G. Baird the stronger player of the two. His successes

D. G. BAIRD.

In tournaments have not been great of late years, but he repeatedly won the championship of the Manhattan Chess club in years gone by. In the New York international tournament of 1888 he defeated 16 opponents and came out ahead of Burille, Hannan, Comp. Martinez, J. W. Baird and MacLeod.

For many years D. G. Baird has sought in vain to win the championship of the Empire State, and his recent victory over such strong players as J. W. Shawwater, who took second place, A. B. Hodges and J. S. Ryan demonstrates that he is an expert of decided merit.

THE WHEELING WORLD.

France has 625 bicycle clubs and 405,000 riders.

Manhattan Beach, near New York, will have a 100,000 cycle track.

The L. A. W. headquarters will be moved from Boston to Chicago.

As early as 1863 a Paris hatter named Brunel visited his customers on a tricycle.

In the German army 1,400 bicycles are employed, and 550 more have just been ordered.

It is stated that E. C. Bald, the Buffalo class 13 racer, will receive \$2,500 to race this year.

Harry Tyler will have a motor cycle with a wind shield for his pacemaking next year.

George Banker is looked upon in England as the man who will fill A. A. Zimmerman's place on the track.

George Banker has returned to Paris, where it is believed he will be king of racing men, now that Zimmerman is out of the way.

Chairman George D. Gilden of the racing board believes that the mile track record will be lowered to 1:40 during the coming season, while the straightaway mark will in all probability be placed at 1:30.

The Latest Oscar Witelusions.

"The Importance of Being Earnest," Oscar Wilde's latest, just produced in London, is a colossal success, and Oscar's stock is booming. The Londoners say that the inverted commas, called epigrams, are much more reasonable in a farce of this kind than in a drama. Here are a few of the epigrams to add to those already quoted from "Lady Windermere's Fan." "A Woman of No Importance" and "An Ideal Husband." "Three's company, and two's none." "To lose one parent might be a misfortune, to have lost both looks like carelessness." "When I am ill, I refuse everything but meat and drink," and "To be advanced in years is no guarantee of respectability."

A BIG BARGAIN!
Price, \$2000. Cash payment \$400, balance, \$25 per month, a 7-room brick house at Lester Park, 2 blocks from car line. It cost \$3500 one year ago. Lot 50x140 feet.

CAYLOR'S BALL GOSSIP

The Game's Bright Outlook Throughout the Country.

NEARLY EVERY STATE IS ON DECK

Numerous Leagues and More Numerous Cities Ready For the Empire's Cry of "Play Ball!"—New Rules That Will Make Better Sport and Crush Out Rowdiness.

March is a reminder that another season of baseball is swooping down upon the land of the free, the home of the brave and the community of the American national sport. And there is already evidence to show that 1895 will be the greatest year for professional baseball since the game has been played. Every state east of the Rocky mountains will be represented by one or more professional clubs, while the amateur organizations are almost countless. There may be cause for complaint of bad business in some lines of trade, but it will not apply to those who supply the paraphernalia for equipping baseball clubs and teams. The manager of a sporting goods house in New York recently told me that his firm was three weeks behind in its orders and going farther back steadily. In spite of increased facilities the house could not keep up with the orders that keep pouring in.

As early as the middle of January Chairman Young of the national board informed me that, including the National league, 16 baseball organizations had secured membership under that great banner of the national game, the national agreement—to wit: National league, Western league, Eastern league, Western association, New England league, New England association, Texas league, Southern league, Central league, Iowa and Illinois league, Virginia league, Schuylkill Valley league, Pennsylvania State league, New York State league and Atlantic association.

Of these the Atlantic association will probably not take the empire's cry, but the other organizations have sprung up and joined the combination within the last month. The Connecticut State league has not only organized, but is the first one to be out with an official schedule of games. The Ohio Interstate league has been taken into membership, and the Michigan league is well under way.

Over 100 cities will be thus represented by more than 100 professional clubs, playing about 1,400 players, who will draw

O. P. CAYLOR.

HIGH PRICED HORSES.

Arion and Ormone each sold for \$100,000.

St. Blaise cost his present owner a cool \$100,000.

Acelyte, Stungler and Pocahontas each sold for \$40,000.

Antee's price was \$55,000, and Bell Boy sold for \$51,000.

The Earl, Common and Doncaster were each \$70,000.

Phil Dwyer gave \$30,000 for Bolero and will regret it to his dying day.

King Thomas cost Senator Herold \$38,000 and was worth \$10 as a race horse.

Axel's price was \$105,000, and C. W. Williams refused \$150,000 for Allerton. He wishes he had not done so now.

Sunel and Stamboul sold for \$41,000 each, Nancy Hanks was a \$45,000 mare, and Maud cost Robert Bonner \$40,000.

Trouble For Theatrical Wives.

"As soon as I saw the announcement that one of the western railroads had paid Richard Mansfield \$25,000 for the injuries his wife received in that collision the other day," said Will McConnell of New York recently. "I realized that there would be a big fight for theatrical wives. Last night I went over to Jersey City to see Donnelly and Girard. I noticed that Mrs. Donnelly was not in the bill, so when I saw her in the scene I said, 'Donnelly what has become of his wife?' 'Oh, she's in our private car,' he observed nonchalantly. 'You'll find her stationed on the main line, and you'll recognize my wife by the pair of bumpers she's wearing. We have no desire to have her personally injured, you know, C. W. we want to realize enough damages to float us through Lent.'"

Actors as Managers.

It is believed by some that actors are totally unfit to have anything to do with the business side of the theater, and the lack of judgment displayed by some of them in business matters might indicate that this belief is well founded. Nevertheless there are a number of managers now successful and prominent before the public who not only manage their own public work and make money, but also manage the business side of the theater, and make money out of it. Among these are: Edwin Booth, who managed the tour of the Empire theatre in New York, who played juvenile roles.

The Case of Fred Pfeffer.

At the spring meeting of the National league baseball clubs Second baseman Fred Pfeffer failed to get along with the club and was suspended for good standing by the national board, but not till he had been fined \$500 and required to play this year with the Louisville club, with which he was under reservation. Pfeffer, together with A. C. Buckenberger and William Barnie, was suspended last fall for alleged complicity in an attempt to establish a baseball club in Louisville to fight the reserve rule. Buckenberger and Barnie soon after their suspension appeared before the board and proved their innocence, whereupon the suspension was raised. Pfeffer failed to appear till this late hour, and though he pleaded alleged complicity in the national agreement he was fined for what he had done.

The government cannot sell any more lands until J. C. Howard is sold out because it cannot compete.

Official Proceedings.

Council Chamber.

Duluth, Minn., March 11, 1895.

Regular meeting.

Roll call.

Present—Aldermen Ash, Christensen, Cox, French, Harwood, Hale, Krummel, Lech, Mitchell, Nelson, Ole, Olafson, Patterson, Trevillion, Westaway, Mr. President—16.

Absent—None.

Upon motion of Alderman Hale, the minutes of last meeting, viz. March 4 and 5, were approved.

Presentation of Petitions and Other Communications.

From his honor the acting mayor, transmitting complaint in re Charles E. Goetzle vs. City of Duluth—Referred to the city attorney.

F. J. Marsh, application for license as bill-poster—Referred to city attorney.

City attorney, approving suggestions of the board of public works relative to a bridge at Fond du Lac—Referred to committee on bridges and viaducts.

City attorney, recommending the payment of \$10 to motion and camera to the committee on claims and accounts.

Capt. Bidwell et al., officers of military company, asking for better arrangements for heating the house runner and rooming of city property, buildings and markets with instructions to see that steam heat is furnished as required.

Admiral's French moved the adoption of the resolution, and it was declared adopted upon the following vote:

Yea—Aldermen Ash, Christensen, Cox, French, Harwood, Hale, Krummel, Lech, Mitchell, Nelson, Ole, Olafson, Patterson, Trevillion, Westaway, Mr. President—16.

Nays—None.

Passed March 11, 1895.

Approved March 13, 1895.

RAY T. LEWIS, Mayor.

To the President and Common Council:

Your committee on streets, alleys and sidewalks, to whom was referred the petition of S. T. Harrison and Charles A. Britts for the improvement of Twenty-second avenue east between Superior street and First street, by grading, graveling and guttering, be and are hereby recommended to the board of public works to investigate and report.

First: Is the contemplated improvement necessary and proper?

Second: Is the contemplated improvement to be assessed against the owners to be assessed therefor?

Third: Can real estate be found benefited to the extent of the damages, costs and expenses incurred in making said improvement?

Alderman Patterson moved the adoption of the resolution, and it was declared adopted upon the following vote:

Yea—Aldermen Ash, Christensen, Cox, French, Harwood, Hale, Krummel, Lech, Mitchell, Nelson, Ole, Olafson, Patterson, Trevillion, Westaway, Mr. President—16.

Nays—None.

Passed March 11, 1895.

Approved March 13, 1895.

RAY T. LEWIS, Mayor.

To the President and

OUR AIM IS NOT TO INDUCE YOU TO BUY THE CHEAPEST GOODS MADE, BUT TO SELL YOU SOMETHING WORTH HAVING AT THE LOWEST PRICE ATTAINABLE.

Some Facts

---For Tomorrow, Saturday

The Great Eastern's Policy—This business moves on fixed principles. Among them is the cardinal point that the public gets the best we can do in prices. We look to present sales, not to future profits. We never speculate in merchandise. If goods cost too much, they go down, we lose. If goods are cheap, you get all the gain. THAT'S THE POINT—YOU GET ALL THE GAIN. Never in our existence as merchants have we been more fully able to demonstrate exceptional saving to you than this season.

Men's Suits,

Masterpieces of artistic tailoring, are now coming in every day. Never before have new spring goods arrived at such an early period, but there's a push and vim about this house this season in the matter of showing the newest things the World's markets produce, far in advance of all other stores. The Celebrated Stein-Bloch Co.'s Fine Tailor-Made Clothing here; better than custom-tailored goods and at a saving of from \$15 to \$20 per suit. The man that goes to a tailor this season when such perfect goods are being shown here at such vast savings, is actually throwing money to the winds.

Men's Sack and Frock Suits \$10, \$12, \$15, \$18, \$20 and \$25.

MEN'S OVERCOATS Any Winter-Weight Overcoat or Ulster in the house for—

HALF PRICE!

For ONE DAY MORE—TOMORROW, SATURDAY. Men, think of it, the pick of this mateless stock for 50 cents on the dollar.

SPRING OVERCOATS—The Poole, Langham and Paddock Styles, made from the costliest woven fabrics, trimmed in exquisite taste and all of faultless style. Each and every garment a gem of its kind—
\$8, \$10, \$12, \$15, \$18, \$20

SWEATERS.

At 50c 28 dozen Cotton Sweaters, all sizes, 34 to 44, Colors Black, Navy, Tan and White; for values these beat anything you ever saw in your life.

FREE LAND!

GIVEN AWAY. 40 ACRES OF LAND GIVEN AWAY. Commencing Monday, March 18th, 1895, I will give 40 acres of land to the first twenty persons buying 40 acres, under the following conditions: Forty acres at \$2.00 per acre, making \$80, pay 10 per cent cash, making \$8, and balance in nine years, \$20 per year interest, 8 per cent, and I give them a land contract for eighty acres instead of forty acres, making the land cost you but \$20 per acre. Remember this is only to first twenty, the balance will be charged straight \$50 per acre. You can raise potatoes enough this year to more than pay for the land five times over. Come early and avoid the rush, as you never will get a chance like this again.

REVOLT IN CUBA

Latest Authentic Advice From Cuba State
That the Revolution Against Spain Is
Progressing Favorably.

At Santiago the Insurgents Hold a Strongly
Entrenched Position and Have Four
Months' Provisions.

Three Hundred Rebels Met the Spanish
Soldiers and Killed Eleven and Cap-
tured Many Prisoners.

The Same Day, Demand Was Made in the
Cabinet at Madrid for Unlimited
Appropriations.

KINGSTON, Jamaica, March 16.—Authentic advice from Cuba state that the revolution is progressing most favorably. Exact information as to the various movements cannot readily be obtained owing to government censorship over telegraphic communications. This was foreseen and provided for. Each section of the revolutionary party has been operating independently so far. Each leader fights on his own account, thus distracting the Spanish forces and leaving them in perpetual doubt as to where and when the next blow will be struck. At every point oc-

ago on March 1, and there was a fight at Ybarra with a band of insurgents who were driven to the mountains. Forty rifles and 25,000 cartridges were captured. A Vezuela 300 rebels met the Spanish soldiers. There were eleven killed and many prisoners taken. The same day a demand was made in the cabinet at Madrid for unlimited appropriations to suppress the rebellion.

FLOUR MILLERS COMBINE.
The Red River Valley Millers Have Made a Combine.

MINNEAPOLIS, March 16.—A special to the Journal from Grand Forks, N. D., states that the flour millers of the Red River valley, Western Dakota and Montana have formed an association for the purchase of wheat and selling of their product. Twenty-one mills are in the combination.

Must Be Deported.
WASHINGTON, March 16.—Secretary Carlisle has rendered a decision in the case of Charles A. Dana, who is charged with criminally libeling F. B. Noyes, of Washington, was to have taken place before United States Commissioner Childs today. By agreement between counsel the hearing was postponed until next Monday morning at 11 o'clock.

Editor Dana's Case.
NEW YORK, March 16.—The hearing in the case of Charles A. Dana, who is charged with criminally libeling F. B. Noyes, of Washington, was to have taken place before United States Commissioner Childs today. By agreement between counsel the hearing was postponed until next Monday morning at 11 o'clock.

Two People Suffocated.

A COSTLY STRIKE

Great Lockout of Bootmakers in England
Which Will Affect Over Two Hundred Thousand Operatives.

Caused by a Complicated Dispute Over the
Use of Improved Machinery and
Other Matters.

The Trouble Will Cost the Leicester District
Alone at Least One Million
in Wages.

Men Locked Out Are Said to Have a Fund
of Three Hundred Thousand
Dollars.

LONDON, March 16.—The great lockout of bootmakers, affecting 200,000 operatives, commenced today. As previously cabled to the Associated Press, owing to a complicated dispute concerning the use of improved machinery and other matters, the members of the National Federation of Bootmakers, on March 3 notified the operatives to stop work today. The employers, however, refused to arbitrate the questions in dispute, claiming that the operatives did not accept previous decisions of the arbitrators. One of the results of this notice was that on the following day shoe opera-

A Once Famous Chicago Wheat Plunger at
Death's Door.

CHICAGO, March 16.—"Bat" Jones, the once famous Chicago board of trade plunger, is lying at the point of death in St. Joseph's hospital from the effects of a stroke of paralysis.

After a most successful career as a grain operator here, he went to New York some years ago, lost his money in stocks, becoming bankrupt. His subsequent doings have attracted little attention.

MANY MINERS ARE KILLED.
Explosion of Fire Damp in a Mine in Austrian
Silesia.

TROPEAU, Austrian Silesia, March 16.—An explosion of fire damp took place today in the Hohenge mine, belonging to the late Archduke Albrecht, of Austria. At the time of the explosion there were 280 miners below. Of this number 80 have been rescued, slightly injured. Hopes are expressed that the remaining 200 miners will be rescued. Later in the day eighty of the miners were rescued, but the remaining 120 are imprisoned in the galleries which are blocked with debris. The bodies of several of the imprisoned miners have already been extricated from the ruins.

A MALTING COMPANY.

Negotiations Under Way for the Establish-
ment of a Large Malt House in
Duluth.

Negotiations are under way for the establishment in Duluth of a large malting house and it looks as though the efforts being made will result successfully. Some Eastern and Milwaukee

OFFICER KILLED

Patrick H. Nugent, of Batavia, N. Y., Shot
Constable Johnson and Tried to Kill
Other People.

Then He Put a Revolver to His Own
Head and Blew Out His
Brains.

Constable Johnson Attempted to Arrest Nu-
gent on a Charge of Drunkenness
and Disorderly Conduct.

Nugent Searched for His Wife and Children
to Kill Them But They Were
Hidden.

BATAVIA, N. Y., March 16.—Patrick H. Nugent shot and killed Constable W. Harvey Johnson last evening and attempted to kill several other people and wound up by shooting himself. Nugent had been drinking hard for some time, and his wife being in delicate health was removed to her parents' home. In consequence Nugent made repeated threats against his wife's relatives and John Neville, a brother of Mrs. Nugent, went before a justice and made a deposition charging Nugent with drunkenness and disorderly conduct, and a warrant was placed in the hands of Constable W. Harvey Johnson for his arrest.

Last evening Officer Johnson, accompanied by John Neville, started for the Nugent house. Leaving Neville behind a knoll about 100 feet from the house Johnson advanced to the door, knocked and was admitted. Then Neville heard a shot fired and a little later Nugent came into view carrying an ax, proceeding toward the Neville home. Neville followed and attacked Nugent as he began to beat in the door with an ax.

Nugent got the best of the fight and put his brother-in-law to flight. Then he broke into the house where were the terrified women. He began a fusillade with the two revolvers, shooting Mrs. O'Connor in the neck. His wife and children had hidden, and failing to find them Nugent put a revolver to his head and sent a bullet through his brain, falling upon a bed a corpse.

A few moments later his little daughter crawled from under the bed, picked up the revolver and ran to her mother, saying: "I guess papa is dead, I just heard him groan." At Nugent's home Constable Johnson was found dead. Mrs. O'Connor's wound is not serious.

HE WAS BADLY FROZEN.
A State Pine Land Cruiser Almost Perished
Near Tower.

ST. PAUL, March 16.—State Auditor Dunn received word today that Fred Corey, of Elk River, one of the pine land cruisers, had his hands and feet badly frozen near Tower Tuesday evening. Mr. Corey's compass was wet and did not work, he lost his way in a blizzard and wandered about in the woods all night. Had he not been an experienced woodsman he would have given up and undoubtedly frozen to death. He was taken to his home at Elk River yesterday.

Erasmus Wiman's Case.
NEW YORK, March 16.—District Attorney Feltus announced today that he will carry to the court of appeals the case against Erasmus Wiman for forgery, in the second degree, which the general term of the supreme court yesterday decided should be retried. Wiman is out on bail of \$30,000 furnished by Charles B. Rouse.

"The knave of hearts, he stole those tarts." And no wonder if they were made with Dr. Price's cream baking powder.

Goodman Acquitted.
CHARLOTTESVILLE, Va., March 16.—The jury in the trial of Conductor Goodman, charged with the murder of Col. Parsons, of Natural Bridge, Va., brought in a verdict of not guilty this morning.

Cut His Throat.
VINCENNES, Ind., March 16.—Harry Bartholomew, a large stockholder of the Enterprise stove foundry of this city, cut his throat from ear to ear today. No cause is known for the act.

Li Hung Heard From.
TIEN TSIN, March 16.—Viceroy Li Hung Chang, China's peace envoy to Japan, left Taku last evening for Japan. It is reported here that the Japanese are rapidly repulsing the Chinese generals, Sung and Ju.

Arraigned for Manslaughter.
MINNEAPOLIS, March 16.—Paul Kleinschmidt, who cut Max Feigert with a knife last Monday, which caused his death, was arraigned on a charge of first degree manslaughter today and pleaded not guilty. His trial was set for March 21.

Release of Pension.
WASHINGTON, March 16.—[Special to The Herald.]—A release of pension was today granted to Hartwell Daine, of Philadelphia, Minn.

cupied the insurgents' first act is to destroy the telegraph so the government shall be left in the dark as to their movements.

It is supposed at Havana and Santiago that Dr. Grillo, the president of the autonomy party, and Urbana Sanchez have fled before the Spaniards. Their movements, however, are strategic. Grillo is here. He came yesterday via Montego bay. Sanchez has gone to San Domingo. The arrival of Grillo is but the carrying out of one of the principal plans of the insurgents. Fourteen other insurgents accompany him.

The Cubans here are very active, yet no overt act that could bring them under the direct notice of the British authorities has been or is likely to be committed. In fact, to all appearances these visitors know nothing about any revolution, and behave themselves with great circumspection.

Besides mystifying the military authorities by dark movements, the insurgent forces have struck several blows heavily and with rapidity. Each, it is declared, having accomplished its object. They were all to secure strategic points. Many points of vantage are now occupied inland and good secret coast positions are held, through which supplies are drawn, despite Spanish watchfulness.

A man-of-war captured two boats from Key West manned by Americans which were making off from the coast. The boats were empty, having obviously carried out their mission. The Americans were made prisoners on suspicion, but at latest accounts had refused to say where they had come from.

At Santiago the insurgents hold a strongly entrenched position not far from the city, under the command of Gen. Moncada, Quintun, Bundera and Victoriano Garzon. They are 400 strong and well equipped with four months' supplies. Several attempts to dislodge them have proved futile and costly to the Spaniards. Moncada is, or rather was, awaiting instructions and reinforcements to enable him to capture Santiago.

At Baire, 500 armed men made a demonstration. There were also a few fights in Jaguery Grande, in Mantanzas. There were 700 troops ordered to Santi-

ing asphyxiated by natural gas which had escaped from the kitchen stove. Mrs. Goldberg was dead, but her husband cannot recover. Goldberg is a market man.

HE EXPECTS A NEW TRIAL.
Attorney Erwin Will Make Another Move on
Behalf of Haywood.

ST. PAUL, March 16.—"You can say," remarked W. W. Erwin, attorney for Harry Haywood, this morning, "that we have practically prepared a bill of exceptions in connection with our motion for a new trial, and we are confident that Judge Smith himself will grant us a new trial."

"As for all these stories about the discovery of new evidence and the like, you may say that they are merely sensations. Further than that I have nothing to say, because there is nothing new to be said."

Popular with army officers is the food raised with Dr. Price's baking powder. The government orders it for the troops.

Dr. Brodus Dead.
LOUISVILLE, March 16.—Rev. Dr. Brodus, the noted divine scholar, is dead.

The Estate Has Appealed.
The estate of George W. Norton has appealed from the action of the city council in vacating and discontinuing the old county road through West Duluth by a vote passed Feb. 25.

Lydia Mendum has sued Peter B. Bjerre on a note and mortgage for \$874.21.

In the matter of the assignment of A. Hauslaib Judge Ensign has limited the time in which creditors may file claims to April 5.

A Change in Church Services.
Rev. Dr. Thoburn will preach in the First Presbyterian church Sunday morning. This rearrangement was made this afternoon. There will be no service in the evening, and Rev. Mr. Dawley will occupy his own pulpit in the morning. Dr. Cleland, although recovering, will not be able to preach tomorrow.

ties' union called out all the operatives who were not obliged to give a week's notice and 10,000 operatives left work that day. The lockout, it is expected, will eventually affect about 400,000 operatives. It has been stated here that it is a question not of fair dealing between capital and labor, but of whether English boot and shoe making can be carried on in the face of American competition.

In this connection it has been stated by the employers that even if the American operatives get twice the wages paid in England, they can turn out cheaper shoes owing to their more intelligent use of machinery. The men locked out today in England are said to have a fund of \$300,000 with which to see them through the first month of the lockout, but it is estimated that the trouble will cost the Leicester district alone at least \$1,000,000 in wages.

The gem of household helps—Dr. Price's baking powder. The best made.

Escaped From the Mahdi.
ASSOU, Egypt, March 16.—Slatin Bey has arrived here, having escaped from the mahdi's camp at Omdurman Khartoum, after eleven years' captivity. Father Ohrwald and two sisters of charity, long prisoners at Omdurman, escaped from there on Nov. 29, 1891, and arrived at Roon Dec. 1 of the same year.

Ocean Steamships.
New York—Arrived: Lucania, Liverpool; Britannia, Liverpool; Saale, Bremen.

Uncle Sam knows a good thing when he sees it. That is why Dr. Price's baking powder is used in army and navy.

A Famous Ashland Case.
ST. PAUL, March 16.—A special to the Dispatch from Ashland, Wis., says: Briefs have been submitted in the famous Ashland county tax compromise case by Ashland attorneys. Judge Goodland will make the decision.

Walter S. Haines, M. D.
Consulting Chemist, Chicago Board of Health.

I find the ROYAL BAKING POWDER superior to all the others in every respect. It is purest and strongest.

LARGEST CIRCULATION IN DULUTH
OFFICIAL PAPER OF CITY OF DULUTH.

Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

HERALD'S CIRCULATION,
17,148
HIGH-WATER MARK.

The Weather.
U. S. AGRICULTURAL DEPARTMENT. WEATHER
BUREAU, DULUTH, MINN., March 16.—A dis-
turbance is central this morning over the
Lake Erie and Lake Huron area reported these
southward to the Upper Ohio valley. An area
of high pressure over Nebraska and Kansas
extends eastward to the remaining district.
Temperatures between 10 and 20 degrees
in the Canadian Northwest; in the lake region,
the Upper Mississippi valley, the temperature
is generally from 10 to 20 degrees
above zero.

Duluth, March 15.—Forecast for Duluth and
vicinity till 7 p. m. tomorrow: Fair; colder
today; slightly warmer Sunday; northwest winds
becoming southeast.

JAMES KERNAN,
Local Forecast Official.

CHICAGO, March 15.—Forecast till 9 p. m. to-
morrow: For Wisconsin: Fair tonight and
Sunday; northwest winds. For Minnesota:
Fair and warmer; west winds.

Desserting of Consideration.

There is one question of great im-
portance, not only to Duluth but to the entire
state, to which The Herald desires to
direct the special attention of the legis-
lators now in the city. They have re-
turned from an extended trip over the
great Vermilion and Mesaba iron
ranges. They have gone down into the
bowels of the earth and seen the miners
at work at Soudan and Ely in shafts
of the finest Bessemer ore of almost inex-
haustible extent. They have also in-
spected the great iron properties on the
Mesaba where the softer ore is scooped
up from the surface of the earth with
immense shovels and loaded into the
cars at very small expense. They have
thus been able to gain a very fair idea of
the vast mineral resources of this
section of the state.

While they looked at these mines and
reflected upon the many millions of tons
of ore that are now in evidence, their
thoughts must naturally have turned to
the idea that this splendid ore should be
manufactured here into pig iron and
steel instead of being shipped to Eastern
furnaces. And why should this not be done?
The ore can be brought to Duluth at a
heavy saving as compared with the ex-
pense of sending it to the docks at Cleve-
land or other Lake Erie ports. Coke
can be brought here from the East at a
very low cost. Then there is the great
process of converting ore into pig iron
by electricity. This process is being
rapidly perfected. It is already claimed
to be a success in Germany. With the
facilities for producing great electrical
power here Duluth is in a splendid po-
sition to demonstrate what can be done
by this process.

But some inducement must be offered
to capitalists to establish iron and steel
industries here. There is one method
that could be adopted which would as-
surely have beneficial results. Let a
rebate be given by the state of all the
royalty now paid on ore taken from
state lands, if the ore is manufactured
into iron within the borders of Minne-
sota. This would offer a strong induc-
ment for the location of blast
furnaces and steel plants here,
and they would speedily be
followed by the establishment of many
other industries of a similar character.
Thus there would be created a large
manufacturing center that would add to
the state's wealth and would contribute
in taxes many times the amount of the
royalty remitted by the state. This is a
subject which the legislators should give
careful consideration. There is a bill
now before the legislature which em-
bodies the idea here set forth and it
might be used as the basis of a measure
that would adequately deal with the
question.

The Business Situation.

The commercial agencies present re-
ports of a gratifying character this week.
They indicate that business is gradually
assuming a prosperous condition. Of
course the process of recovery is slow,
but it is steadily proceeding, and for
that reason the outlook is encouraging.
Prices present the longest list of in-
creases within a week for many months.
Among the most prominent are the ad-
vances in Bessemer pig iron 10 to 15
cents; 10 cents on cotton; wheat 2 1/2
cents; Indian corn, 1/2 cent; oats, 1/4 cent;
pork, \$1.25 per barrel; hard, 30 cents;
sugar 1-16 cent. Higher quotations are
also reported for leather and hides
and the falling off in stocks of petroleum opened
a basis for higher prices for that staple.
Material improvement in the iron and
steel industries is indicated by the ad-
vance in Bessemer, by higher prices for
manufactured iron at St. Louis and large
orders placed for Southern lots of rails

at Chicago. This is significant among
the favorable features of the week, but
at the South improvements are shown in
the sale of leaf tobacco and in the de-
mand for naval stores. The money
markets, it also states, continue undis-
turbed, the operations of the syndicate
still preventing exports of gold and
withdrawals from the treasury having of
late practically ceased.

The situation, therefore, must inspire
a feeling of strong encouragement and
of confidence, and this latter essential to
business prosperity is what the country
needs most at the present time. With a
restoration of confidence, capital would
be ready to enter upon many enterprises
and activity in the industrial and com-
mercial fields would result. This is what
is needed to set the wheels of prosperity
turning rapidly once more. The indica-
tions are that the period of regained con-
fidence is near at hand.

A Change Is Needed.

A Washington dispatch says the po-
sition of architect of the treasury is going
begging, because the law says the archi-
tect must be a competent man and, as
the salary cannot exceed \$4,000 a year,
an experienced and competent architect
can hardly be induced to take the office.
This will be news to many people, espe-
cially to those who have gazed in aston-
ishment upon the government buildings
which are found in all the leading cities
of the Union and in some of the smaller
cities whose congressmen have had a
sufficient "pull" in congress to get the
necessary appropriations. If the gov-
ernment buildings which we now have
are the result of placing "experienced
and competent" men in the office of
architect of the treasury, is it not time to
change the law and give some of the
inexperienced men a chance to show
their ideas to the world?

There is hardly an architect in Minne-
sota who would get up such wretched
designs for government buildings, as
have come out of the office of the archi-
tect of the treasury. The most of the
federal buildings are hideous architectu-
ral nightmares. If it be necessary to
pay a larger salary to get an architect
who will design buildings that will please
the eye, congress should hasten at its
first session to increase the salary now
paid. Possibly there might be an im-
provement if the architect of the treas-
ury should be selected because of his
ability as an architect and not solely
because of his political influence.

Bank Directors Responsible.

There is evidence that a new era is
dawning in the management of financial
institutions and that greater safeguards
to protect the public will be adopted.
The trouble in nearly every case where
a bank has been robbed by a dishonest
employee or has advanced large sums on
valueless security has been the indiffer-
ence of the directors. They have been
content to draw their salaries and listen
to the reports of the officers, accepting
them as correct without making any in-
vestigation of the books. Recent deci-
sions as to the liability of directors are
likely to cause directors to look more
closely after the business of the institu-
tions with which they are connected or
to resign.

The New York financier quotes ap-
provingly the ruling of Judge Baker,
of the federal court at Indianapolis, that
the directors of a national bank are re-
sponsible to a depositor who suffers
loss, if the loss is occasioned directly or
indirectly by false or fraudulent state-
ments in the report of the bank's con-
dition. This is an entirely new point,
and has never been raised in any of the
decisions reported in the federal courts.
In arriving at his conclusion, Judge
Baker was forced to decide without pre-
cedent, and proceeded entirely on
elementary law principles. The deter-
mination of the Dover, N. H., national
stockholders to proceed against their
directors for carelessness or negligence
in permitting the late Cashier Abbott
to loot the bank is on the same line,
and the result of the proposed litigation
will be awaited with considerable inter-
est.

The notion that a bank directorate is a
purely honorary position, carrying with
it no duties of moment and no degree of
responsibility to the stockholders and
depositors has become so fixed in the
minds of many men now acting as
directors that they will find it difficult to

realize that they are actually respon-
sible for the bank's solvency. It is time
that the courts deal sternly with the
negligent and careless bank directors,
and it is to be hoped that Judge Baker's
decision will be accepted as a precedent
which can be safely followed every-
where.

Will Spain Apologize?

Secretary Gresham has taken a stand
with reference to the unwarranted action
of a Spanish man-of-war in firing upon
an American mail steamship that will be
endorsed by the entire country. There
is no desire to declare war upon Spain,
but it is high time that these European
monarchies were taught that the great
American republic will not tamely sub-
mit to any more insults. The American
flag, when hoisted upon the Atlantic,
should have been sufficient to protect
the vessel from the fire of the Spaniard.
The Spanish authorities should now be
called to stern account for this insult,
and the indications are that Secretary
Gresham intends to stand no nonsense
and will demand an early apology. It
is hardly probable that Spain will refuse
to apologize.

Already the question of what form the
apology will take is being discussed at
Washington. A dispatch says that in di-
plomatic usage an expression of regret is
often accompanied by an offer to salute
the flag of the country to which an in-
ternational courtesy has been given.
This was the course of the United States
in saluting the French flag in 1875, and
saluting the Brazilian flag in 1893. In
the former case the French flag was salu-
ted as a mark of apology for an indig-
nity against the French consul at San
Francisco. Mr. Marcy, the then secre-
tary of state, first offered to make the
apology by saluting the French flag on a
French man-of-war stopping at San
Francisco. Count de Sartiges, the
French minister in Washington, asked
in addition that when the consular flag
at San Francisco was re-hoisted, it
should receive a salute. This was de-
clined by Mr. Marcy.

France was not satisfied, but after
some months the French government
agreed to accept as sufficient satisfaction
an expression of regret by the govern-
ment of the United States, coupled with
the provision that "when a French na-
tional ship or squadron shall appear in
the harbor of San Francisco the usual
authorities there, military or naval, will
salute the national flag borne by such
ship or squadron with a national salute,
and the French ship or squadron whose
flag is thus saluted will return the salute
gun for gun." The salute to the flag
was thus given and with such apology
the incident closed.

In 1866 the United States sent a man-
of-war to Brazil for the express purpose
of offering an apology by firing a salute
to the Brazilian flag. The United States
had seized the Confederate ship Florida
at Bahia, Brazil, thus violating the
neutrality laws. Mr. Seward, then
secretary of state, announced a purpose
to make full apology, including the dis-
missal of the United States consul at
Bahia who advised of the attack, the
court-martial of the United States naval
commander who committed the offense,
and a salute to the Brazilian flag. The
last feature of the apology was executed
with much ceremony on the very spot
where Brazilian neutrality had been in-
vaded.

In the Virginia case the United States
demanded a salute of our flag as a part
of the apology from Spain, but the
salute was afterward waived on its ap-
pearing that the papers of the Virginia
were based on a false affidavit. The
official salute of the United States to for-
eigners is made up of as many shots as
there are states in the Union. The
salute to the president in his fleet is a
fixed number of twenty-one guns. Should
Spain salute our flag, it would probably
be by firing twenty-one guns.

A preacher of unusual prominence
will appear in Duluth tomorrow, Rev. G.
D. Heron, D. D., of Iowa college, has
attracted great attention by his lectures
at this college where he holds the chair
of applied Christianity. Dr. Heron is
pre-eminently a Christian teacher and
teaches social Christianity because he

understands Jesus to teach it. His re-
marks are likely to prove of special in-
terest to workingmen, and their atten-
dance at his lectures in Duluth is
specially desired by those who have
induced him to visit the city.

Arrangements have been completed
for the consolidation of the Astor and
Lenox libraries with the Tilden library
fund of \$2,000,000. It is proposed to
make the consolidated library a free in-
stitution and erect a commodious build-
ing for it down town. The library will
start with 450,000 bound volumes, an im-
mense collection of valuable pamphlets,
manuscripts and paintings, and endow-
ments amounting to over \$8,000,000.
Control will be vested in twenty-one
trustees, and the institution will be
known as "the public library of the city
of New York—Astor, Lenox and Tilden
foundations."

Congressman Sibley, who is to be the
silver party's presidential figure head, is
a tall and slender man of about 42 years.
His face is beardless and he is said to
have the grace of a courtier, though he
has been known to forget his manners
in striving to be alliterative. Mr. Sibley
is a rich farmer and has an interest
besides in several manufacturing in-
dustries.

William Morton Morrison, of Balti-
more, who has just celebrated his nine-
teenth birthday, has always been a De-
mocrat, and voted for "Old Hickory,"
but he now says he is disgusted with his
party. He is rather late, but the Re-
publicans welcome him on the ground
that "it is better late than never."

The Herald is the best newspaper at
the head of the lakes and goes to the
best people. It has a larger circulation
in the homes of Duluth than any other
paper. For this reason all the success-
ful merchants advertise in it.

The Kaiser is said to have a great sur-
prise in store for Bismarck on his eighti-
eth birthday. Perhaps he intends to
recall the prince to the chancellorship,
from which he was so suddenly ousted
five years ago.

The legislators are welcome again to
Duluth. They have no doubt learned
much of the great resources of this re-
gion by their trip over the iron ranges
tributary to this city.

Give a rebate of the state royalty on
all ore converted into pig iron within
Minnesota and Duluth will soon be the
center of a large iron and steel industry.

NEWEST PARIS MILLINERY

SOCIAL AND MUSICAL

Very Little of Interest Took Place in the Social World During the Week Now Closing.

Marriage of Miss Marion Trussler and Thomas A. Armstrong at St. Luke's Hospital Thursday Evening.

Testimonial Concert, Arranged by Mrs. McKinley, at the Bethel Tuesday Evening—Other Affairs of Interest.

Society seems to be subdued by the Lenten season and social diversions were even more scarce this week than last. If the revival after Lent is to go to such an extreme as the quiet now, it will be very lively indeed. The musical people are doing a little something and local musical affairs always have more or less of social interest. It will not be long before the Duluthians who are now in warmer climates will be returning for the summer and this will bring some added interest in affairs social.

Largest in the world—the cream of tartar factory controlled by the Price Baking Powder company.

A PRETTY WEDDING.
Miss Marion Trussler and Thomas A. Armstrong Married Thursday Evening.
A pretty wedding took place on

in St. Luke's hospital for several years and graduated about two years ago. The groom is superintendent of electrical construction with the Duluth Street Railway company. Mr. and Mrs. Armstrong left for St. Paul and from there to Chicago. Upon their return they will reside in the West End.

TESTIMONIAL CONCERT.
Arranged by Mrs. McKinley for a Talented Young Pianist.

A testimonial concert will be given at the Bethel on Tuesday evening next. The object will be to raise funds to assist a talented young girl, a member of the Bethel Sunday school, to procure a musical education. The concert is under the direction of Mrs. James N. McKinley. She will be assisted by some of Duluth's best musical talent and by Mrs. d'Autremont. The following is the program:
Quartet—"Nearer My God to Thee" Schaefer
Miss Collins, Miss Monk, Mr. Murphy, Mr. Jones.
"A Rover Am I"—"Fencing Master" De Koven
Mr. Shirk.
"As You Like It"—Act IV, Scene II, "Clay
Solo—"The Song of the Lark".....Clay
Solo—"The Song of the Lark".....Clay
Piano Solo—"The Song of the Lark".....Clay
Solo—"The Song of the Lark".....Clay
Duet—"The Song of the Lark".....Clay

Where can perfection in cooking always be found? Wherever Dr. Price's cream baking powder is used.

Social Mention.
The Hebrew Benevolent society met on Wednesday afternoon at Odd Fellows hall.
Mr. and Mrs. D. Van Baalen, of 119 East Third street, have announced the engagement of their daughter, Miss Carrie Van Baalen, to Charles Freimuth.

invitation affair, the members of the Duluth Polo club entertaining their friends and patrons of the winter. The ice was not in very good condition owing to the very cold weather but the people all enjoyed themselves.

On Wednesday evening Dr. and Mrs. Lynam entertained a few friends at cinch. Those present were: Dr. and Mrs. Woodbury, Mr. and Mrs. Palford, Mr. and Mrs. Wardwell, Mr. and Mrs. Manson, Miss Phillips, Miss Graff, Miss Salter and Thomas S. Wood.

The Knights of the Maccabees, gave a dancing party on Tuesday evening at their hall in the Parsons' block.

Household circles teem with praises of Dr. Price's baking powder. It's a universal favorite.

Personal Mention.

Mrs. Philip H. Seymour has gone to St. Paul to spend a few weeks with her parents and in her absence, the Seymour residence will be closed.

Mr. and Mrs. W. H. Fallon are to remove from Duluth. Mrs. Fallon left yesterday.

Mr. and Mrs. J. M. Ford, of St. Paul, were in the city this week.

Mr. and Mrs. Del T. Sutton, of St. Paul, were in the city this week.

Miss Watson and Miss Emily Watson, of Marquette, Mich., sisters of Mrs. T. L. Larke, and Miss Wilkinson also of Marquette, were in the city the guests of Mrs. Larke during the early part of the week.

Mr. and Mrs. H. M. Peyton and Miss Josephine Peyton left on Sunday for Florida.

Mrs. A. M. Miller and Miss Maren Miller are at the Hotel Savoy in New York.

Miss Belle Curry is at home after a two weeks' visit with friends in St. Paul.

Miss E. Meining returned this morning from an extended visit with relatives in Minneapolis.

Mrs. Paul Sharvy went to Chicago this week.

Mrs. F. B. Daugherty and son, Otto, and Miss Hansen, left on Tuesday for Pasadena, Cal.

Mr. and Mrs. H. J. Payne, of Marquette, were visiting in Duluth this week.

Miss Mary Wilson, daughter of Mrs. E. Wilson, No. 533 West Second street, has returned from a six months' visit at Sterling, Ill.

Mr. and Mrs. Ray T. Lewis have returned from their Southern trip.

Mrs. Walter S. Whitten, of No. 1423 East Second street, is entertaining her sister, Miss Potter, of Indianapolis.

Mrs. H. H. Hanford has gone to New York to visit.

Mr. and Mrs. Frank R. Webber are home after a several months' sojourn in the South.

Mrs. A. C. Hatchelor left on Wednesday for Hagerstown, O.

Speaker and Mrs. Van Sant have been the guests of Ex-Governor A. H. Burke, of 1414 East Third street, during the legislative visit.

Capit and Mrs. F. N. LaSalle have gone to Chicago.

Mr. and Mrs. M. J. Forbes have gone to Buffalo, N. Y.

Mrs. William Alden arrived yesterday from Boston and left today for Virginia.

Mr. and Mrs. A. W. Trenholm, of Spooner, Wis., were in the city on Thursday.

Miss Lucas left yesterday for Rushville, Ind.

Mr. and Mrs. G. G. Barnum left yesterday for an Eastern trip.

Mr. and Mrs. S. Gross left last evening for New York, where they will reside.

West Duluth Social Notes.
Miss Anna Sawyer leaves in a few days for an extended Eastern trip.

Edward Oakes, of Minneapolis, was visiting West Duluth friends this week.

Miss Nellie McGee left Monday for a two-weeks' visit to Milwaukee.

A benefit ball for the West Duluth band was given at Eureka hall Thursday evening.

W. A. Lawson has removed to Minneapolis.

Mrs. P. C. Cowen and family have returned to Iowa Falls, Ia.

Miss Lulu Farley, of Waukegan, Wis., is visiting her aunt, Mrs. Charles Kieren.

Will Move to Grand Rapids.
Humant Officer Henry Haskins, of Duluth, owns a fine farm about two miles from Grand Rapids, and he says he thinks more of it than any other piece of property he owns or ever did own. In conversation with a Grand Rapids Herald man the other day Mr. Haskins said: "I am coming up to your town early in the spring and build a home on some lots which I am fortunate enough to own there and devote myself to farming. I own a farm two miles from town—just a nice distance for morning and evening drive. I have a great deal of faith in the future of Itasca county and Grand Rapids—so much so, in fact, that it will be my future home."

Why?
Taste of "Royal Ruby Port Wine" and you will know why we call it "Royal." A glass held up to the light will show why we call it Ruby. \$500 reward for any bottle of this wine found under five years old. It is grand in sickness or where a strengthening cordial is required; recommended by physicians. Be sure you get Royal Ruby. Sold only in quart bottles; price \$1. For sale by S. F. Boyce, druggist.

Dul. Monumental wks advt., "want" col.

For eggs for hatching choice breeds see advertisement, G. H. Thompson, Glen Avon, Duluth, in want column.

JUDGE'S FAMOUS CARTOONIST.

Bernard Gillam Recommends Paine's Celery Compound for Exhaustion.

The Buffalo News, in a recent article remarks upon the fact that "Bernard Gillam, the cartoonist of Judge, is one of the few living men whose cartoons have ever changed a vote in the United States senate."

Bernard Gillam is a young man, but 35. He received his art education in England. He is today the foremost cartoonist of America.

In 1886 he came to Harper's Weekly as the colleague of the immortal Nast. His work afterward for Frank Leslie's and Puck well fitted him for bringing Judge to its present success. In 1886, Mr. Gillam went into partnership with W. J. Arkell, and bought Judge. The full-page colored cartoons, Mr. Gillam's special province on Judge, equal the remarkable efforts of the great Keppler, in Judge's older rival.

There is probably no form of brain work that is so exhausting, so exacting and so intense as the work of the great artist on the large comic papers. To turn out brilliant ideas with the regularity of machinery and yet keep their work up to the high standard set by their splendid reputation, makes fearful demands upon their nervous vitality. Mr. Gillam knows what severe work means. The nervous strain of his responsible position has at times brought him near to prostration and the giving up of his work. He says in a letter dated New York, Nov. 13, 1894:

"No tonic that I have taken has done me so much good as Paine's celery compound. When I am run down or exhausted after particularly exacting work on cartoons and in other artistic occupations, I have found a dose of the compound exceedingly beneficial as a restorative for the nerves."

The racing speed of the marvelous new processes for swiftly carrying out men's ideas is taxing to their utmost the nervous systems of countless men and women.

A cry of protest is going up all over the country from medical men against the suicidal waste of nerve force. Preachers, editors, lawyers, even doctors themselves, from their daily round of hard, anxious work—every brain worker, in fact, who labors draws heavily upon his nervous vitality, must take alarm at the first sign of brain-tire, pressure, fullness or tension in the head, or nervous fatigue.

In every city in the United States physicians every day are not only prescribing, but themselves using, Paine's celery compound for weakness and nervous debility, for curing the effect of poor and unhealthy blood, disorders of liver,

kidneys, stomach, heart and the nervous system. An effective remedy must first enter the blood to cure rheumatism. Local treatment for a constitutional disorder will do no good. Rheumatism, gout, blood-poisoning, scrofula, etc., are diseases lodged in the blood.

Just why Paine's celery compound cures, while other remedies fail, is because all its ingredients effectively aid the system to rid itself of any poisonous humors in the blood.

Hundreds of cases have within this year been reported directly from persons between the ages of 45 and 65, suffering from acute Bright's disease, who have been permanently cured by Paine's celery compound. It stops the gradual structural changes in the kidneys, restores their vigor and removes such alarming symptoms as the gradual loss of strength, pallor of the face, shortness of breath, pain in the back and sides, dropsy and puffiness of the skin. As a spring medicine it is absolutely without a rival.

Every overworked man and woman, reduced in strength, flesh and nervous vigor, will find a powerful restorative in Paine's celery compound. It is food for the brain and nerves. It sends new, healthy blood through the arteries. It makes people well.

make its initial appearance at the junior exhibition.

The Woman's Suffrage Debate.
After a thorough and interesting debate over the question of whether or not suffrage should be extended to women the judges decided in the negative at the Duluth Debating club's meeting at Y. M. C. A. hall last night. The affirmative was taken by Miss Drew and Miss Felton, of the Y. W. C. A. and W. D. Hopkins and S. Frohenhauser took the negative. The judges were Mrs. Cash, Miss Anna Farrell and Charles Murphy. Miss Farrell and N. S. Murphy sang delightfully.

Ten days loss of time on account of sickness and a doctor bill to pay, in something but pleasant for a man of family to contemplate, whether he is a laborer, mechanic, merchant or publisher, James O. Jones, publisher of the Leader, Mexico, Tex., was sick in bed for ten days with the grip during its prevalence a year or two ago. Later in the season he had a second attack. He says: "In the latter case I used Chamberlain's Cough Remedy with considerable success. I think, only being in bed a little over two days. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy." It should be borne in mind that the grip is much the same as a very severe cold and requires precisely the same treatment. When you wish to cure a cold quickly and effectually give this remedy a trial. 25 and 50 cent bottles for sale by all druggists.

Awings, Tents and Sails.
Poirier & Nordstrom are now prepared to do all kinds of canvas work, awnings, tents, sails, pack sacks and jill cots, also have tents for rent.

I have found the ROYAL BAKING POWDER to be an absolutely pure cream of tartar powder, entirely free from alum and ammonia, and of the very highest leavening power.

CHARLES W. DREW, Ph. B., M. D.
Late Chemist to the Minn. State Dairy and Food Dep't.

Thursday evening in the chapel of St. Luke's hospital, Miss Marion Trussler, one of the graduate nurses, and Thomas A. Armstrong being joined in marriage by Rev. Dr. Ryan, of St. Paul's Episcopal church. The chapel was adorned with carnations and ferns. The bride was attired in the pretty uniform of the hospital nurses and carried white roses. This was at the request of Miss Taylor, the matron. Miss Mary Fee, a classmate of the bride, was bridesmaid and carried pink roses. The groom wore evening dress and was attended by H. G. Cable as best man. To W. H. Hubbard fell the pleasing office of giving the bride away.
The bride has been one of the nurses

Money.

I want applications for a few large loans at a low rate of interest. If you have good security, you can get low rates.

I have a first-class business block on Superior street for sale on terms that will be favorable to the purchaser.

I have some dwelling houses in good localities for sale or for rent at low prices.

I have good companies in which to place your insurance, companies able and willing to pay losses promptly.

Wm. E. Lucas,
Exchange Building.

Ohrstrom-Renard, Miss Mae Costello and Professor Tonnig assisted, giving piano numbers. Miss Tupper was unable to be present owing to illness and Miss Pante sang the duet with Miss Hall. Miss Grace Joyd was also ill and Miss O'Donnell recited in her place. Those taking part in the concert were Miss Louisa Hall, Miss Dora Heilund, and a ladies' octet and male chorus. The program was an excellent one.

ELOCUTIONARY RECITAL.
Miss Zella Hurd's Pupils Will Give One at the Bethel Next Friday.

The pupils of Miss Zella E. Hurd will give a recital at the Bethel on Friday evening next, assisted by Miss Anna Farrell and Miss Mabel White. The program is as follows:

"Guitar".....Morzkowski
"Jenny and Mo".....Hardin
"A White Lily".....Wright
"Miss Edith Entertains Her Sister's Boy".....Harte
"High Tide".....Angelow
Vocal solo.....Selected
"The Elf Child".....Milroy
"A Society Play".....Hopkins
"Views of Hotel Life".....Hopkins
"Old Times Handicap".....Hopkins
"Lady Gay's Description of an English Hunt".....Hopkins
"Farwell" (patronizing).....Hopkins
The Chautauque Circle.
The Chautauque circle at its meeting

They will be at home on March 17 and 24.
Miss L. E. Butler was given a surprise party on Wednesday evening at the home of Mr. Olson, 25 East Fifth street. There was music, refreshments and a pleasant time for all.
The pupils of Professor F. R. H. Seaton are preparing to give their sixth piano recital at the Bethel on or about March 29. They will be assisted by other local musicians.
Last evening a reception was given at the First M. E. church parlors by Dr. and Mrs. Thoburn to the congregation of the church. A large number were present and it was a very pleasant social occasion.
There was a large crowd at Endicott rink on Wednesday evening. It was an

MAYOR LEWIS SEES IT.

He Understands What the Removal of Vessel Taxation Would Mean.

"Vessel, I think the Minnesota state law governing the taxation of vessels hailing from the ports of Minnesota should be changed so that the tax is either wholly wiped out or reduced to a nominal sum," said Mayor Lewis this morning.

"I consider this a most important matter," continued his honor, "and it would be a wise thing to present it to the visiting members of the legislature before they return. If necessary, men of ability, influence and experience should be sent to St. Paul to see that the present law, which is now prohibitive in its effect, hence ridiculous and superfluous, is changed, and they should stay there until Duluth, and the whole state of Minnesota for that matter, gets what is to her great interest."

"Now we don't get a particle of revenue from the enrollment of vessels at this port because none enroll here. Even with the new law changed so as to make the inducements to small vessels here more favorable than those presented under the new Wisconsin law, and with a different law that would be a small number, we would all lay up here for the winter. We have bays and harbor and dock room clear to Spirit Lake. There are accommodations at West Duluth and the vessels and our advantages are more advantageous in this respect than any other port on the lakes."

"Every vessel laid up here would pay from \$10 to \$500, and even more in some cases, for repairs and alterations. That would give employment through the winter to a large number of skilled mechanics—painters, machinists, etc.—just the class Duluth needs more than any other port. Then the captains and officers and even the crew would make winter homes here. Then, too, resident seamen would have better and greater opportunities for shipping on some of the vessels at the opening of the season. When navigation opened supplies would have to be purchased from our merchants, coal dealers, ship chandlers and supply houses."

"I think this is a much more important matter than that of having the vessel, report to Maj. Sears—the matter recently taken up by the chamber of commerce. I hope to see Duluth take hold of it and hang on until they get what is desired. With the name of Duluth on the stern of a large steamer, it is a valuable and perpetual advertisement that it does not now possess. Why, some of the largest lake steamers now haul from Little, unknown Lake Erie towns, where a vessel never visits. Favorable laws as to taxation are the sole cause. Those vessels could and should hail from Duluth. But we will never have a Duluth fleet until the present law is wiped out or materially modified."

What victory in modern competition can compare with the triumph won by Dr. Price's baking powder at the Chicago and California Midwinter fairs.

HELLO TO THE JURY.

Joe O'Connor and Abner Miner Both Bound Today.

Assistant County Attorney McPherrin in making a good record these days with state cases. Every man against whom he has appeared as prosecutor since the adjournment of the grand jury has been held to the next one and this morning he added two more cases to his credit.

Joe O'Connor was held on the charge of forging F. E. Wyman's name to a draft and Abner Miner, charged with stealing a lot of clothing from Frank Miller, at 105 East First street, shared the same fate as O'Connor. In default of \$350 bail, Miner was committed. O'Connor's case was not bailable in the municipal court.

Before Special Judge Doyle, Ed Fox and Fred Smith, a couple of young men, stood trial on the charge of assaulting R. E. O'Connor, who was charged with having shot and killed a fox. Fox was fined \$10 and costs and Smith was discharged with a loud lecture.

Several Errors Corrected.

To the Editor of The Herald:

Will you kindly allow me to state to the public that your reporter must have drawn entirely on his imagination for the facts in the article in reference to the meeting of the St. Louis County Medical society Thursday evening last. This was the regular monthly meeting, it was not called for the consideration of any special matter; the society did not meet at its rooms in the Lyceum building, in fact it has not had rooms there for more than a year, there were not forty members present, the secretary's record shows but seventeen; Dr. Goffe, Dr. South and the health officer were not only not under discussion, but neither gentleman nor the office was even named. Respectfully yours, S. M. STOCKER, M.D., President St. Louis County Medical society.

Duluth, March 16.

CANNOT HAVE JOHNNY.

State Reform School Officers Knocked Out on

Habeas Corpus Proceedings.

Judge Ensign this morning to request

the release of his son John from the city

jail. Yesterday he petitioned the court

for a writ of habeas corpus and one was

issued returnable at 11 o'clock this

morning. The younger John was sent

some time ago to the reform school at

Red Wing and was furloughed on

condition that he go to his mother in Pitts-

burgh. He came to Duluth and the

school authorities sent word to the

police at Duluth to hold him until R. A.

Costello should come for him. He was

arrested and placed in jail.

The application for the writ of habeas

corpus stated that there was no charge

against the boy and that he was held

without warrant or process. At 11

o'clock Chief Armstrong, Assistant City

Attorney Benham, County Attorney Ar-

bury, the boy and his father appeared

before Judge Ensign, together with Mr.

Costello and Mr. Craswell, who ap-

THE VISITING SOLONS.

They Returned to the City This Afternoon

and Were Entertained By the People

of Duluth.

Tonight at Eight O'clock They Will Be

Given a Banquet at the Spalding

Hotel.

Col. Graves Will Be Toastmaster and Mayor

Lewis, James E. York and Others

Will Speak.

The legislative party did not carry out

its intended program of a visit to Moun-

tain Iron today. Instead the forenoon

was spent at the mines about Virginia,

and the party left there at 11:30 this

morning. About 3:30 this afternoon the

train arrived at Duluth.

The visitors

were taken up to the pavilion and

shown about the city during the after-

noon.

Tonight at 8 o'clock the members of

the party will be banqueted at the Spald-

ing hotel. About 300 people will sit

down and the Spalding

will set forth its

best. Col. Graves will preside as toast-

master and a number of toasts and

responses will be given. There will be

music by Hoare's orchestra.

Others who will speak are Page Morris,

Dr. Forbes, Col. Harris, James E. York,

S. A. Thompson and J. C. Gridley.

Senator Stevens, Lieutenant Governor

Day, Speaker Van Sant and others will

respond.

The present intention is to leave for

St. Paul at 11:15 o'clock tonight but this

arrangement may be changed so as to

permit as many as wish to remain over

tomorrow.

The Party at Virginia.

Yesterday was the greatest day the

town of Virginia has seen and her people

made the most of it. The legislative

party was there and in the evening the

salons were banqueted at the Virginia

hotel. Three hundred people were pres-

ent. Dr. William Alden presided as

toastmaster. The guests were welcomed

by Dr. Stuart and Governor of Virginia.

Hon. Neil McInnes, J. C. Jack-

son, M. C. Palmer, J. C.

Moorehead and W. H. McGarry spoke

all on pertinent questions. The needs

of the range and the mining were pre-

sented in a clear manner.

Hon. A. T. Stebbins, Lieutenant-Governor

Day, Senator Howard, Speaker

Van Sant and several of the ladies

spoke. The banquet was a complete

success and the legislators were more

than gratified at the hospitable welcome

extended them.

During yesterday the Canton and

Biwabik mines were visited. All proved

to be of great interest to the legislators,

especially the latter, because of its being

an open mine.

What shall we do in the long winter

evenings? Fry doughnuts made with

Dr. Price's baking powder.

CANNOT HAVE JOHNNY.

State Reform School Officers Knocked Out on

Habeas Corpus Proceedings.

Judge Ensign this morning to request

the release of his son John from the city

jail. Yesterday he petitioned the court

for a writ of habeas corpus and one was

issued returnable at 11 o'clock this

morning. The younger John was sent

some time ago to the reform school at

Red Wing and was furloughed on

condition that he go to his mother in Pitts-

burgh. He came to Duluth and the

school authorities sent word to the

police at Duluth to hold him until R. A.

PANTON & WATSON

GLASS BLOCK STORE, DULUTH, MINN.

For some time past we have been telling you that the Greater Glass Block Store would come in 1895. Commencing on Monday morning and continuing all of next week, we will demonstrate to you the Rudiments, Principles and Methods of Modern Merchandising to such an extent as will convince you that there is more truth than poetry to our claims.

There's Money In It for You!

LISTEN: In this immense Emporium are twelve mammoth stores; separate them as follows: Store No. 1, Dry Goods, Fancy Goods and Notions. No. 2, Carpets and Upholstery Goods. No. 3, Millinery. No. 4, Boots and Shoes. No. 5, Jewelry and Silverware. No. 6, Gents' Furnishings. No. 7, Druggists' Sundries. No. 8, Crockery and Glassware. No. 9, Hardware. No. 10, Cloaks and Suits. No. 11, Cut Flowers. No. 12, Stationery and Leather Goods. Figure out the expense of rent, salaries, advertising, etc., of those twelve stores doing business on Superior street, all under separate roofs. The key to the whole problem is a consolidation of expense and the advantage a large buyer has over a small one in the markets of the world.

OUR FIRST ILLUSTRATION TO OUR PATRONS OF THE GREATER GLASS BLOCK WILL BE MADE IN OUR SHOE DEPARTMENT and we can assure you that no such values were ever before offered in this city.

SHOES FOR LADIES, FOR GENTLEMEN, FOR MISSES, YOUTHS, CHILDREN, BABIES, SHOES!

TWO PURCHASES, AGGREGATING \$10,000, bought by us at about 50 cents on the dollar; also about \$12,000 worth of Ladies' and Gents' high grade Shoes, our regular spring line, which is also ready for sale. Our assortment is unequalled in the Northwest, and the prices we leave you to say whether they are right or wrong.

Shoes that will Fit all Feet

Monday Morning the Sale Begins.

Separate Entrances to our Shoe Dept. GENTLEMEN, USE IT.

Infants' Shoes.

500 pairs Infants' Dongola Shoes, worth 35c; 19c
Now.....
300 pairs Infants' Dongola Shoes, patent leather tips; 23c
worth 40c; Now.....
200 pairs Infants' Dongola Cacks, kid sole, worth 45c; 25c
Now.....

60 pairs Misses' Dongola patent tip Shoes, sizes 11 to 2, 2.00
60 pairs Misses' Dongola patent tip Shoes, sizes 11 to 2, 2.48
Now.....

Each pair is worth from 50c to \$1.00 per pair more.

Ladies, Here They Are!

Slippers of Every Description.

29c per pair—never made for the money, 480 pairs Ladies' 29c
Serge Slippers, worth 5

THE WORLD OF LABOR

The Bill for the Establishment of State Employment Bureaus Seems to Have Been Shelved.

Representative McNicis Advises That a Delegation Be Sent to St. Paul to Work for It.

Attempt to Be Made to Organize the Warehousemen and Packers in the Wholesale Houses.

This has been a quiet week in organized labor circles. The assembly did not meet and there seems to be no special activity among the various unions. The bill introduced in the present legislature providing for the establishment of state employment bureaus, is sleeping in the pigeon holes of the committee to which it was referred, and the prospects are that it will die there unless some vigorous and effective work is done in behalf of the measure. Representative McNicis advises the Duluth assembly to send some of its best men down there to lobby for the bill. That not only would make friends for it but, so Mr. McNicis thinks, would enlist the union men of the Twin Cities to put forth vigorous efforts in that direction.

The union label is working wonders for the bakers. The increased demand for union made bread is helping the union shops, and the non-union bakers are steadily applying for admission into the local union. The good work can be pushed along by every purchaser and consumer of bakers' bread calling for and demanding the little white label.

The tinners held an open meeting last night and were addressed by Organizer Nichols and other prominent members of the Trades assembly.

An attempt will be made to organize the warehousemen, packers in the wholesale houses, etc., and a committee from the assembly was appointed some time ago to assist the Waters' union in organizing the women employees in the restaurants of the city.

The union men have not by any means let up on their demands. The water main extension, should work ever begin, to be done by day labor. The assembly, its committees and various unions are watching that matter closely and their voice will be heard in no uncertain tones whenever necessary.

THE MILITANT SPIRIT.

What is Behind the Tawdry Display Called "Patriotism?"

(Special Correspondence.) "Peace on earth, good will to men." Religion and education have always professed to carry this large message to mankind. We have been in the habit of attributing the civilizing processes acting on society to their influence. We expect the gentle offices of peace to be exercised by them if anywhere. The curious new movement has come up of late, fostered by church and school, which is not in accord with this tender greeting. It would be well, it seems to me, for the working people of the country to inquire into it a little. Perhaps it is innocent enough, but a movement of this kind is a republic supposed to secure freedom and peace to all its citizens alike looks strange, and its advocates ought to be willing it should be investigated. I refer to the unusual enthusiasm which has been inspired and systematically being cultivated for military affairs and war scenes, and also to the organization of the boys of our land into military bodies.

"The United Boys' Brigade of America" is the title of a new organization formed under the auspices of the various churches, whose branches are springing up in every city and town from the Pacific coast eastward to the Atlantic. The boys are charmed with the idea, easily fired by the trimmed caps and military titles and strange visions of warlike glory. There are companies, regiments, brigades and battalions, and the boys are classified as privates, corporals, lieutenants, captains, etc. They are drilled by regulation drill masters, and they train with real guns that will shoot and bayonets that can pierce.

And as a companion piece a bill has been introduced in congress that shall provide for the organization of the boys of the public schools into military bands. Officers, trained in the regular army, are to be appointed for each school to drill the ambitious young American who the state undertakes to fit for practical life. This is not a little as yet, but it seems to have met with general approval from the leading members of political society. The grownup sons of the middle classes have long been taught that the finest thing in the world is to get into a uniform, be able to keep step in the march to the sound of life and drum and to handle a good, death dealing missile with grace and dexterity. And now the children are to be brought into line and taught the beauties of scientific warfare, and neither child nor grownup youth nor proud parent ever thinks what the existence of large military bodies means or why so much exertion is put forth to stimulate them.

For the past 30 years the children in our public schools have had their education saturated with war and military glory, more or less, but of late this has been intensified. The battles of the civil war are recounted over and over; scenes of carnage and bloodshed—things which the tender, growing minds should have no conception of—are pictured in a show of artificial splendor; those leaders in war who could most successfully harden themselves to the sacrifice of human life in order to sack cities or reduce forts are held up for their highest praise and reverence; the deeds of the past are made to excuse the wrongs and injustice of the present; deep admiration and respect for great generals, great officials, great rulers, are daily inculcated; strict obedience to legal enact-

ments, right or wrong; devotion to "institutions," whether they work good or ill to the masses; boastfulness of a vague superiority of the people of this country over the people of other countries. Those things are carefully taught with the multiplication table and the alphabet in every one of our public schools. And now will come the discipline, the habits of obedience, the automatic moving and thinking which military tactics establish. All this goes under the head of "patriotism," inculcating a "love of freedom," "feelings of chivalry," etc.

But it behooves that great useful class—the working people—to ask whether all this tends, what kind of men and women will result from this sort of training, what use is to be made of them excepted these things tacitly, as they have crept insidiously along, never thinking there could be danger. But it is time we began to make some inquiries.

Is that true patriotism which forever prices scenes of desperate bloodshed, worshipful of men who kill, looks backward toward a murderous magnificence instead of forward to a beneficent progress, and teaches men to hate each other instead of dwelling together in brotherly love? Can freedom loving men be developed by drilling, disciplining and teaching habits of strict obedience to our boys? Can we raise citizens imbued with the spirit of our forefathers by teaching our children that it is better to endure hunger, robbery, oppression, quietly than to be called "lawless and disorderly"? Can we expect to preserve the spirit of equality so dearly bought by our ancestors by creating ranks and classes among those natural democrats—the children? And most of all, why this growing desire that all the boys and young men of our country should receive a military training and be thoroughly organized in compact, easily handled bodies?

The experiences of the past year have shown us that military organizations are never used on the side of the working men. That is not what they are for. They are not all to be used fighting Indians or watching foreign vessels either. There have been times in the history of the world when the privileges of the few created such terrible conditions for the masses that even the thoughtless luxury felt the social fabric tremble beneath him, and at such times they have set some of their people to fighting the spectacle, to make them forget. Perhaps this plan is to be tried again.

But I hope the working people of today will be wiser. If the boys of larger growth will wear the badge of a base servitude to the empty glory there is in it, let us save the children at least. Let us try to keep them individualized, strong in personality and character, loving independence and a manly freedom, not mere units of an automatic collection, things that move and think in large bodies and at the word of command. Or, if they must be drilled, let us not have them too grateful, let us not lose hold of their close sympathies and affections. Military discipline may be as useful on one side as the other.

LIZZIE M. HOLMES.

PROFIT SHARING.

Interesting Details of a Plan Adopted by a Chicago Establishment.

Quite a number of Chicago's large retail establishments are at present being conducted on the co-operative plan, and the result is said to have been highly satisfactory to both the proprietors and the employees. Jan. 1 is the date at which the distribution of profits takes place, and consequently the number of the establishments which have adopted the system made their semiannual division of profits within the past several weeks. Among those which have adopted this method of rewarding their employees are Carson, Pirie, Scott & Co., and the system under which this distribution is made is something unique and well worthy the attention of business men throughout the country.

When the system was adopted, all the salespeople who had been in the employ of the company one year or more were then informed that if the amount of their sales for six months exceeded the total for the same period of time during the previous year they would receive a commission—averaging 2½ per cent throughout the store—on the excess. Immediately the young men and women behind the counters began to increase their efforts to sell goods, and when their first distribution was made last July the surprising results were shown. Shoppers drawing \$10 a week in wages received as high as \$80 in premiums for the six months.

The salary of the employee is raised in ratio with the excess of the sales and according to the wages percentage which governs the department in which she works. If, however, she was successful in exceeding the amount of sales necessary to make her salary at the percentage fixed in her department by, say, \$1,000, she would receive a commission on this amount of about 2½ per cent, or \$25. Besides this she would have her salary raised for the next six months by an amount equal to the commission per week that she had earned on her sales. In this example it would be one-twentieth of \$25, or \$1.25 advance per week.—Chicago Grocer.

Co-operative Home Building.

Mr. G. A. Weber, who with Dr. E. R. S. Gould has been investigating the housing of the working people in the leading countries of the world as special agent of the United States labor department, says:

"In nearly every city of Germany we found admirable tenement houses for working people. Hannover presents the most instructive lesson we found. A number of working people became dissatisfied over a dozen years ago with the class of houses they were getting and the rents they had to pay. An association was formed. Each member agreed to pay a fixed small sum each week. As soon as the fund was large enough a house was constructed. The members of the association drew lots for apartments

I AM

A WORKING GIRL.

I Stand Ten Hours a Day.

(SPECIAL TO OUR LADY READERS.)

—MAGGIE LUKERS, Thirteenth and Butte Streets, Nicetown, Pa.

The rental was made just high enough to afford a net income of 4 per cent on the investment. This and the weekly contributions from all the members of the association, including the tenants, were allowed to accumulate until another house could be built.

"The association grew rapidly. Several big houses have been built. The association is in a most prosperous condition. Later accretions to the membership are classed somewhat like the different series of stockholders in a building and loan association, so that those who have paid longest get the first chance to draw an apartment. Provision is also made for the cessation of weekly payments to the building fund after a certain number of years. This unique enterprise is controlled wholly by working people. You will notice that, in accordance with European ideas, the plan is exactly the reverse of that of the building associations of this country."

State Employment Bureau.

A work the New York Working Woman's society is trying to accomplish, which it thinks will be for the benefit of both mistresses and servants is to have all employment bureaus carried on by the government. They will not be limited to domestic service, but will give the society has been trying to pass a bill through the legislature with that purpose. A similar bill has been passed in Ohio, and the results are said to be satisfactory.

In lieu of the government employment bureau, so many calls have been made upon them for assistance in procuring situations that a free bureau of their own has been established at the society's headquarters, with Miss Alice Woodbridge, the secretary, in charge.

Woman's Legal Workshop.

Illinois prohibits more than eight hours of work per diem or 48 hours per week for women. New Jersey prohibits more than 55 hours per week. Massachusetts more than 58 hours per week and New York more than 60 hours per week. Australia equals Illinois in allowing only 48 hours of work per week, while England and Germany allow 55 and 59 respectively.

UNIFY FOR REFORM.

This Way, and No Other Way, Lies the People's Salvation.

(Special Correspondence.)

Reform unity means, in my opinion, the greatest need of the day. And the object should not be difficult to attain, since we all fight against the same fundamental evils. We may not apprehend them with the same relative importance, or we may not see all their special connections to the deplorable results we desire to suppress, but what of that? Are we not in the presence of a common enemy? And is not that enemy strong because of its unity against reform processes worthy of the name? That enemy of ours is not opposed but strongly attached to all trifling reforms that as such shall be conducive to perpetuate all basic evils, to patch up that class civilization that gives wealth and power to the few, poverty and oppression to the rest. And that is just the function of all nonfundamental reforms, to delay substantial progress, to keep us lingering in a sort of masked barbarism. The answer, there is a way to march toward a grand final reform by small steps, if we are forced to do that, but we should start with the final object in view and should keep it in view, should accept it as the guide, the north star of all our proceedings.

The men who are simply in favor of trifling reforms are really the worst enemies of all that is grand and noble, because of their apparently working for the good of the race. Is not the self righteous Pharisee the worst sinner, as a matter of fact, of Louis XIV—after us the deluge. They don't even consider that the deluge may catch their children or grandchildren. They never look back into history. They forget that verse of their own Bible about the sins of the fathers reacting on the following generations.

It is a well established fact that no important battles are ever won without a certain degree of strategy. And that applies to the battles of mind and thought, to battles through peaceful processes, the only ones productive of final good. The battles involving violence may solve a certain problem by simply producing a new one, fresh evils taking the place of those we may have suppressed. It seems to us that the strategy of reformers should rest on that beautiful sentence of the Grand Reformer, "Be wise as serpents and harmless as doves." And we can only be wise in unity, the unity which is harmless because it aims at universal justice through ethical processes. As long as we fail in that unity we shall fight a losing battle and shall deliver our fate to the hands of the enemy.

It stands to reason that plutocratic unity can only be overcome by reform unity. The former rests on a certain principle, to be attained through certain specific means. And what is the principle? The rapid acquisition of wealth produced by others. And what are the

means to accomplish that? Laws of privilege, of monopoly in all directions, of exclusivism, of might over right, and hence the denial of universal equity, the silent assumption that nature gives wealth to the smart and the cunning and seldom anything but poverty, absolute or relative, to the plain, honest worker. The principle and the means of our plutocracy maintain the means and principle by which we reformers should abide in our own unity, the unity that alone can carry us into victory. And such principle and means should be the reverse of what plutocracy practices. In opposition to wealth for the few, we want wealth for all, enough anyhow for the full development of each one of us, that all of us may attain the joys and manifold for which a wise Creator has placed us on earth.

The principle by which conception can be carried out must of course be the opposite of that by which wealth flows into the hands of the few at the expense of the many. We have then to resort to the laws of nature, rights as the reverse of laws of privilege. That law of equal rights we must apply to all our industrial ramifications, to land, money and transportation, to all production and all commerce. And that alone shall give us free men in place of wage slaves. That alone shall free us all from tribute in land rents, in interest, in monopoly profits, in gambling combinations, to which 1 or 2 per cent of the nation, perhaps even less, really dictate to the rest the conditions on which we shall live and shall die.

All the above implies a radical change in the fundamental laws of today and of tomorrow, because men and nations have always been ruled as we are ruled today. It is a change today in that law in nature by which evils increase in proportion to population and wealth as long as such evils are allowed to remain among us, and that law of growth in fundamental evils is not impeded through any incidental reforms. All human history proves that.

Perhaps one of the most transcendent teachings of that history is an intense dislike against the law of equal rights on the part of all delegated legislative bodies. We should then familiarize ourselves with the need of marching toward direct legislation by the people. Our conviction is that plutocracy shall always be on top, through the instrumentality of delegated legislative bodies, in this nation of ours anyhow. It is so big and so rich, and so full of temptations to human greed, and that greed has taken possession of most of us to such an extent!

In future articles I may indicate the processes by which we could approach our desired reformation. In the meantime let us unite on war to the knife against the political oligarchy which so thoroughly controls the two old parties.

JOSE GNOS.

NEW DULUTH DOINGS.

Latest Happenings in the Suburb Up the River.

NEW DULUTH, March 16.—[Special To The Herald.]—Oa account of the increase in freight here and Fond du Lac the train has been an hour late going over several days this week.

Several car loads of railway ties were shipped to South Dakota this week for the Burlington & Cedar Rapids railroad.

The Baptist church has been repaired and otherwise improved within the last week. No services were held there last Sunday, as the service will be the usual service tomorrow.

Rev. Mr. Ingham, of Clear Lake, Wis., came up Tuesday for a visit with his family here. He returns to Clear Lake next week.

J. Jack came from Barnum Tuesday to remain. He will start a harness shop here in the new building on the corner formerly occupied by Carl Scheffler. The family will come next week.

Miss Edith Melhorn and Mr. Melhorn are spending Sunday at West Duluth.

Rev. Mr. Jackson spent Sunday in Duluth, the guest of Mr. and Mrs. Starkey.

Mr. Keyes was in Duluth Tuesday.

The Congregationalists had a very enjoyable time at their railway social held last night. A ticket was purchased for each of the ladies in the car.

Miss Maud Miller entertained a number of her friends very pleasantly last week.

Mabel White, of Duluth, was in town Thursday.

Miss Keller instructed the young visitors at the school yesterday. Miss Caldwell was also here Thursday to assist their vocal organs in developing.

Mrs. Forrest and son are in Duluth on a visit to friends.

The entire Jackson family are suffering with measles.

Miss Stevens, of St. Louis, is spending Sunday with her sister at West Superior.

Mrs. Livingston and children are at West Duluth with Mrs. Livingston's sister, Mrs. Hoskins.

Miss Holm spent last night in town, the guest of Miss Smith.

Mrs. C. A. Peterson, of Duluth, was at Fond du Lac Saturday, the guest of the Petersons here.

A strip of open water is to be seen at Spirit lake now.

Mr. and Mrs. Jackel have returned from a fly trip to Chicago.

Mrs. Gallie entertained a friend from Duluth this week.

Mr. Gifford has gone to Minneapolis to accept a position with the Robinson-Bardwell Lumber company.

Mrs. Middleton is spending today in Duluth.

George Safford is expected home today from Iron River.

Miss Smith attended the agricultural convention in Duluth yesterday night and Wednesday. She was the guest of the Merritts at Onega.

It is said a new drug store will be started here soon in the building next to the bank.

The store of O'Leary & Bowser has been closed for good in now. The rest of the store will be sold.

It stands to reason that plutocratic unity can only be overcome by reform unity. The former rests on a certain principle, to be attained through certain specific means. And what is the principle? The rapid acquisition of wealth produced by others. And what are the

NYE AS A HISTORIAN.

He Quotes From an Article in the Roman Punch in Which the Senators Are Roasted.

The Senate of Old Laid out Cold in Masterly Words That Sift the Heart.

Shows the Press Criticized the Roman Senate as Freely as Our Newspapers Criticize Congress.

(Copyright, 1895, by Edgar W. Nye.)

WASHINGTON, D. C.

Thirty-four years ago Albert Edward, heir to the throne of Great Britain and emperor of India, paid a visit to this country and was entertained in a most hospitable manner by the president, who invited him to bring his trunk to the White House and remain as long as he could be spared from home.

It is said that Miss Harriet Lane, the president's beautiful niece, was a blond, with deep violet eyes and golden hair. Her features were purely classic in outline and her expression perfect and captivating. She was not only beautiful, but her nature generous and candid.

IN THE SENATE GALLERY.

and her heart full of genuine kindness and benevolence. Once as a little girl her uncle, James Buchanan, in the village of Lancaster, surprised her in a back alley pushing a wheelbarrow load of wood and coal which she had captured from his woodshed and hoped to smuggle to a poor family near by who were suffering from cold.

The prince was charmed with the sunny hospitality of Miss Lane and the president and so impressed by it that he was very enthusiastic in describing his visit to his mother. She also appreciated it fully and sat right down to write the following letter to President Buchanan:

WINDSOR CASTLE, Nov. 19, 1860.

"MY DEAR MOTHER—Your letter of the 6th inst. has afforded me the greatest pleasure, containing as it does such kind expressions with regard to my son, and assuring me that the character and object of his visit to you and the United States has been fully appreciated."

"He cannot sufficiently praise the great cordiality with which he has been everywhere greeted in your country and the friendly manner with which you have received him. And while, as a mother, I am most grateful for the kindness shown him, I feel impelled at the same time to express how deeply I have been touched by the many demonstrations of affection personally toward myself which his presence has called forth."

"I fully recognize the importance of the feelings thus made uppermost and look upon them as forming an important link to connect two nations of kindred origin and character, whose mutual esteem and friendship must always have some basis in the hearts of their respective development and prosperity."

This letter is so genuine and so hearty in its general tone that one is naturally impelled to forgive the grammatical construction of the opening sentence. Of course we in the raw, crude and uncivilized condition of a new nation, just sprouted into the great universal garden of nations, a tiny bud that had barely broken ground, as it were, at the feet of the gigantic forest of ancient principalities, a timid little jonquil in the shadow of patriarchal empires, naturally looked toward the greatest of English speaking or civilized kingdoms, the parent of our own prattling republic, for the rescue of English, for neither should we turn unless to the sovereign of that proud nation which gave the English language birth?

But we will let that pass.

Only we would like to have our English brethren of the pen and press turn in a lenient and gentle manner whenever reprover may be hereafter necessary. We know that our early advantages have been few, and most of us are self made men, unless we happen to be women, and early associations are bound to have their effect upon us in later years, so that when unduly excited we often return to the crude expressions which permeated the atmosphere of our childhood, and so we feel chagrined and galled when a monarch who has succeeded for over half a century in harmonizing belligerent nations fails to harmonize her verbs and nominatives.

The senate chamber is to me the winter a most restful and reposeful spot. I know of no place where one may go and secure better results if suffering from brain fog, resulting from mental strain.

I love to see Senator Quay pull his Dick Turpin pogram on the senate and shut up his adversary like a reticent

claim. He has in his desk the manuscript of a four day speech, with a broad elastic band around it, and when a disagreeable motion is made by a senator on the other side of the aisle he asks to be heard on that question, and having secured the floor he pulls this magazine gun. Need I add that the motion is generally withdrawn by his frightened adversary?

By getting on the good side of a page the other day—that is, by giving the page a slight margin—I was enabled to glance over this Quaker gun speech and discovered that it is only an address on horticulture and perfectly harmless. I am sorry to reveal this game of the senator, but by the time this is printed to doubt it can do him no harm.

Senator Quay is in some respects the comical end man of this congressional olio. He is the gravest looking man on the floor, and a stranger expects to hear the deep bass of Daniel Webster when Mr. Quay rises to address the chamber, but instead of that a little thin Punch and Judy voice squeaks out upon the still air like the spontaneous statement made by a mouse with its tail shut in the door.

While still referring to the senate, permit me to close with a copy of an editorial taken from The Roman Punch and read before the Gridiron club last month before Mr. Sattoli, late of Rome. It is against the rules of the club to report any of the speeches made there, but a special permit has been issued in this case by President Stevens, and it is published at the request of Mr. Sattoli.

It shows conclusively that the press criticized the Roman senate as freely as our own newspapers criticize the congress of today:

EDITORIAL IN THE ROMAN PUNCH.

It is the enormous army of readers who look to the editorial columns of this paper that we speak today calmly but frankly of the financial condition of Rome and the general apathy and indolence of the Roman senate.

We have before taken occasion to speak our mind upon national affairs, and the free and full endorsement of the people, as shown by our increased circulation and the average number of want advertisements, which have grown from 135 per week to 165 within the past three years, has been our reward.

Since the publication of The Roman Punch began three years ago we have repeatedly asserted without successful contradiction that the Roman senate is falling off year by year, and from our position of journalistic omniscience it has become simply a social gathering of the potted politicians, who meet, smoke, swap immoral stories, collect their mileage and go home.

Where are the silver tongued orators whose speeches have ornamented the Fourth Readers for centuries before Christ?

Where are the men who placed their country first and their pocketbooks last? Where are the senators who once held the attention of all Rome, yet never had more than one toga in the wash at one time?

They have given place to ordinary business men, many of whom do not advertise.

The Roman Punch has always been fearless and heeded to the line, let the chips fall where they may. To that we owe an increase of circulation which is phenomenal, and a growth of the number of our want ads. from 135 to 165 average per week, and all within the brief period of three years.

The latest indignity offered to the people of Rome comes in the shape of Aqueous Aurelius, the manager of the Coliseum, who aspires to a seat in the senate.

Is it surprising that at such an insult the Roman Punch should assert itself and say to all Rome this is the time to call a halt? [Also, dimly you hear the slogan, and other statements of a like character.] Aqueous Aurelius has no more idea of statesmanship than the subconscience will ass of the desert has of melody.

And in what way, forsooth, hath he succeeded? Hath he not perverted the great amphitheater of the Eternal City and turned the mighty Coliseum under his management from a moral zoological exhibit and congress of wonders to a rude aggregation of living pictures at a seaters admission to all parts of the house?

And because The Roman Punch saw fit to hew to the line, let the chips fall where they may, did not Aqueous Aurelius Quintus take out a poster column display ad, and with flashing eye and quivering breath not only refuted a box to our editor, but hurl defiance in our teeth, and later on, at 1432 Appian Way, northwest, with haughty mien and with wicked utterance hissed through his clinched teeth, bid us—aye, even us—to go to?

'Tis thus we hurl defiance at this man, who asks that he may sit where statesmen sit—he, even he, who when

he smites his palms together doth think that he can make us hop around like senatorial pages before the holidays.

Aye, who were circulations is indeed phenomenal. This one time sticker up of unchaste bills upon the dead walls here of Rome; this common, vulgar business man who sold his lions off, and

from the treasury department hired his girls to pose as living pictures after hours—he seeketh now to muzzle us, with our own perfecting press! Us, with our editorial woe and massive pull!

And now, forsooth, he seeketh fame, and in the seat of some historic man whose bones are dead would like to rattle to and fro.

O Rome, thou tender nurse in former times to men of giant mind and massive mold, are we about to witness thy decline? No senator of thine declines, O Rome! And why shouldst thou?

Again we say that it is time to call a halt.

We say it not alone in "lower case," but with italics and astonishers. Aye, even our whole job outfit, double headed everywhere, we utilize to state that up and down thy rushing Tiber everywhere we violate no confidence to hear that it is time to call a halt.

Arieo, ye men of Rome, and on these seven historic hills show under Mr. What's-his-name, and 'neath his massive, over moving jaw bestow a Roman punch.

"This said to say, but Rome is poor. Our senses are lonesome in the public vault. The woods are full of savage, armed constituents. Each voter hath a dagger up his sleeve, and while he knoweth not what 'tis he wants he'll kill somebody if it isn't done."

It is a time for introspection and for tears.

Along the Tiber's dark, forbidding shore, darker than any twilight heretofore, in the back yard of glowing conditions, the Roman senatorial post hangs on the fence. He who bequeathed us with his silver tongue, and to the breeze his bright Kentucky banner hung.

Upon the lecture platform tossed, in greeted every evening by a frost. And when perchance an audience meets somebody gobbles all the box receipts. Ah, whom shall Rome rise up to thank, Preserver of her equilibrium at the bank? Who shall bring better days to Rome? Or comfort those who stay at home?

Bill Nye

He Wants That.

He was an old fellow past 40, and he was trying to win a girl of 20 under the direction of a lady who loved better than life to make matches. He hadn't met with marked success, however, and the lady was taking him to task about it.

"What the mischief," she said, "did you persist upon telling her that you were at the age you are, and furthermore trying to impress it upon her that that was very old? You might just as well have said you were the Ancient Mariner and been done with it."

"That's it, That's it," he said hopelessly. "It was the ancient harp which that knocked the whole business sky high."—Detroit Free Press.

No Wonder the Cars Seem Crowded Nowadays.

—New York World.

A Dangerous Topic.

Last night at one of the negro churches in Atlanta the preacher, who is visiting in the city, was painting a picture of the first of hell telling all the vengeance of the hanged oratory. Suddenly a brother in the amen corner arose and said, "Passon, if yer keep er talking 'bout first of such a cold night like dis I've feared ev'ry one of dese here niggers will be a-washin' ter go to perdition."

LARGEST CIRCULATION IN DULUTH

OFFICIAL PAPER OF CITY OF DULUTH.

Entered at the postoffice at Duluth, Minn., as
second-class mail matter.

HERALD'S CIRCULATION,

17,148

HIGH-WATER MARK.

The Weather.

U. S. AGRICULTURAL DEPARTMENT. WEATHER
BUREAU, DULUTH, MINN., March 18.—The
barometer is higher in the north than in the south,
and depression are central in Kansas,
over Lake Huron, and north of Duluth,
Duluth temperature at 7 a. m. today, 25
degrees above zero; maximum yesterday, 44 degrees
above zero; minimum yesterday, 16 degrees
above zero.The lowest temperature reported at Duluth
is at stations the morning was 8 degrees
above zero at St. Louis, Mo., and at St. Vincent,
the highest 44 degrees above in Kansas.
Duluth temperature at 7 a. m. today, 25
degrees above zero; maximum yesterday, 44 degrees
above zero; minimum yesterday, 16 degrees
above zero.Duluth, March 18.—Forecast for Duluth and
vicinity till 7 p. m. tomorrow: Fair; followed
Tuesday by increasing cloudiness; slight
changes in temperature; easterly winds.JAMES KENNEDY,
Local Forecast Office.Chicago, March 18.—Forecast till 9 p. m. to-
morrow: For Wisconsin: Fair and slightly
colder tonight; Tuesday fair and warmer;
northerly winds. For Minnesota: Fair to-
night; Tuesday fair and warmer; northerly
winds becoming variable.

"Greater Duluth."

A rather improbable story has been tel-
egraphed from Superior to various news-
papers that resolutions have been pre-
pared there for introduction in the Min-
nesota and Wisconsin legislatures pro-
viding for a commission to prepare plans
for consolidating under one local govern-
ment and one name the cities of Duluth
and Superior. It is stated that in one
rough draft of these resolutions it was
proposed that Wisconsin shall cede to
Minnesota all that part of Wisconsin in
all Douglas county which lies west of
the Brule and St. Croix rivers. This
would take from Wisconsin and add to
Minnesota about 1000 square miles of
territory. An alternative plan, which
has been taken of among the promoters
of the scheme, is that the states shall
each adopt an enabling act, under which
the two cities may have one municipal
government and one name, but other
than in local government remain each
subject to the territorial jurisdiction and
taxing powers of its respective state.The "greater Duluth," says one dis-
patch, "would have a present population
of about one hundred thousand. Its
output of manufactures would be very
large. In coal handling capacity it
would be first, in ore shipments first, in
milling capacity second only to Minne-
apolis, and in grain storage and the
handling second only to Chicago. In
lake commerce it would be far ahead of
most of the older lake cities."This is a very large scheme and one
that would result in much benefit to all
the people at the head of Lake Superior,
if it could be carried into effect. The
only plan that would work satisfactorily,
however, and certainly the only one that
Duluth would favor, would be the union
of the two cities after Wisconsin had
ceded to Minnesota all the territory west
of the Brule and St. Croix rivers. The
alternative plan of a combined municipal
government, with part of the city in
one state and part in the other, can not
receive serious consideration for a
moment. It is utterly impracticable
and would result in complications that
would be a constant cause of trouble. If
Wisconsin will cede the territory men-
tioned Duluth might consider the offer
of Superior to become annexed to this
city.Already the Twin City papers are
talking of the proposed union. The
Minneapolis Tribune says: "Duluth and
Superior combined would make a mag-
nificent city. Their interests are iden-
tical, as both are bound to share the com-
merce of the head of Lake Superior and
to be the terminals of the same railways.
Union would obliterate whatever of local
jealousy and antagonism there is, and
enable the two communities to pull to-
gether in all things. There was a time
when there was fierce rivalry between
St. Anthony, on the east side of the river,
and Minneapolis on the west; but with
the municipal union of the warring sisters
the strife ceased. With a proper union
Duluth and Superior would get along
like a pair of turtle doves."

Is Generally Approved.

The proposition to give a rebate of
the royalty on ore from state lands con-
verted into pig iron within the state,
which was advocated by The Herald on
Saturday, was well received by the
members of the legislature to whom the
idea was presented. Hearty applause
followed each mention of the proposition
at the banquet at the Spaulding. It was
shown by various speakers that all Min-
nesota now receives from the ore is about
\$1 25 per ton, representing the cost of
mining and transportation to the docks
at Duluth and Two Harbors, while
Eastern furnaces make profits of dol-
lars where this state gets a cent. All
this would be changed by the establish-ment of furnaces and the creation of a
large iron and steel industry.The state would be a great gainer by
the building of valuable industries which
would add to its wealth and assessable
valuation. Thus there would be returned
to the state ten times the amount in taxes
that would be given by the rebate of the
royalty on the ore. Some such induc-ment seems necessary to develop this
industry here. If capitalists were offered
several furnaces would be established at
Duluth at an early date. The state has
nothing to lose and much to gain by
offering such an inducement, and it is
believed that the bill now before the
legislature embodying this idea can be
passed.

Dr. Zier's Latest.

Dr. Zier has introduced another patent
medicine bill in the state legislature and
it is as fully a vicious measure as the
first one which he fathered and which
was quickly killed by the house. The
latest idea of the Minneapolis doctor,
who has an intense aversion to patent
medicines because they effect cures
without the aid of a physician and thus
lessen the amount of the physicians'
fees, is to impose a tax that would drive
the patent medicine manufacturers out
of the state. His bill would require
every manufacturer or vendor of patent
medicines in the state to pay the state
a fee of \$50 for an analysis of
any of these medicines that he either
manufactures or sells, no matter what
the quantity.There is no demand for such a law.
The public is not asking for it, and there
has nothing occurred in Minnesota at
any rate to cause the legislature to be-
lieve that the public should be protected
from poisonous patent medicines. There
is no case on record in this state, so far
as The Herald knows, where any person
has been poisoned by a patent medicine,
but there have been numerous instances
of people being killed by the prescrip-
tions of physicians, some of them the
fault of the prescribing physicians and
others the fault of the druggist who com-
pounded them.Why then would it not be as sense-
less as Dr. Zier's bill to demand that all phy-
sicians' prescriptions should be inspec-
ted and passed upon by some public offi-
cial and that when compounded at the
drug store the mixtures should be an-
alyzed by the state chemist so as to pro-
tect the patients from fatal or injurious
effects. The legislature should promptly
let Dr. Zier and others of his kind under-
stand that they cannot drive patent
medicines out of Minnesota.

Will the County Lose It?

Is it not about time that some steps
were taken by the county commissioners
and county attorney to collect from the
bondsmen the large sum of money which
the county had on deposit with the Amer-
ican Loan and Trust company?
Money has been in liquidation for a
long time, and the county has been un-
able to secure its money which was de-
posited in that institution—an amount
exceeding \$100,000. So far as The Her-
ald has been able to learn, the bondsmen
have never been notified by the county
authorities that they would be held lia-
ble for the payment of this amount, which
the county cannot well afford to lose.While the bondsmen have never been
released by the county, there is no doubt
that they cannot be held liable unless
notified within a reasonable time by the
county that they will be called upon to
make good the county's deposit with the
company. It is true the law does not spe-
cifically provide when this notice should
be given, but the courts have heretofore
held that it must be given within a
reasonable time. It is a serious ques-
tion whether notice at this time would be
regarded by the courts as given within
a reasonable time. This is a matter
that should receive the early attention of
the county commissioners and the county
attorney.If no steps have been taken to protect
the city's interests in the matter of its
claim against the trust company, the city
attorney should lose no time in call-
ing upon the city's bondsmen and notifi-
ing them that they will be expected to
pay the amount.

The Prospect Brightening.

Henry Clews says in his financial
review for last week: "The general con-
ditions of the country since the adjourn-
ment of congress have materially im-
proved and have now reached a stage
where the judgment of business men will
hereafter be the guide, instead of busi-
ness affairs being dominated by what
congress was or was not going to do, as
heretofore. This means a great deal in
trade circles from now onward. Confi-
dence may, therefore, be expected to
gradually increase, and business courage
will come back with it."This means a new departure and, in-
stead of the business of the country be-
ing restricted to a retail basis, it will
gradually broaden and develop into
wholesale transactions on an important
scale, which increased confidence and
courage will bring about by trade pur-
chases being made ahead of wants and
not confined, as for a long time past, to
a hand-to-hand policy. Buyers of late
are very numerous in the city from all
parts of the country and have shown an
inclination to pick up supplies that are
cheap in very much increased quantities.
An enlarged merchandise business will
go far to help the railroads between now
and the harvesting of the next crop."

English journals devoted to the inter-

ests of women are once more protesting
against the custom of tight lacing, and
one of them makes the curious calcula-
tion that there are in England about
3,543,000 corset wearers whose united
girths should be 96,661,000 inches, where-
as there is a deficit of 223 miles in waist,
all lost by tight lacing.When the two flyers of the American
line are in service—the St. Paul is to be
launched this week and the St. Louis is
being prepared for commission—there
will be an opportunity for comparing
their performance with their British-
built consorts that may prove instructive
on both sides of the ocean.The Minneapolis Tribune of Saturday
concluded an article on Minneapolis' at-
tempt to secure the removal of the state
capital to that city, by the following
statement: "There were sales of hogs
today at \$4.75." Considering the large
number on hand, quotations appear re-
markably high.The Herald has received a copy of the
"Almanac and Cyclopaedia of Useful
Information" issued by the Minneapolis
Journal. It comprises 350 pages and is
well arranged and carefully edited and
should receive a large circulation
throughout the Northwest.The Ministers' alliance, of Kansas City,
is thinking of starting a paper to give
special full reports of all instances of
"crime and dishonesty." This is rather
strange, because the clerical critics of
the press have usually denounced it for
such reports.The Cincinnati Commercial Gazette
publishes letters from bankers living in
all parts of Ohio stating that a general
improvement in business has begun in
that state. It has not reached large pro-
portions, but it is going on slowly but
surely.The New Orleans papers are demand-
ing that the mob be quelled, the Picay-
une going so far as to proclaim boldly
that nobody has a right to murder
negroes, which is quite an advance for
Louisiana.The death of Chairman Thom of the
Republican state central committee of
Wisconsin causes regret among a large
circle of friends and acquaintances in
Duluth.The Kansas City Star says there is a
restaurant in Arkansas City which is
called the Tribby. Very appropriately,
it makes a specialty of pigs' feet.If the legislators were talking seriously
while here, Duluth has have anything
she wants.

A Daily Hint from L'art de la Mode.

Knew Better.

She found a silk elastic band.
With a couple of gold and jewels rare.
And her husband did quick demand:
"Why in his pocket it was there."
He exclaimed, blushed and said: "Oh—
that's what my wallet light, you see."
"Don't lie," she scornfully replied:
"It keeps it open; you can't fool me."

Always to the Front.

Cook County Herald: The Duluth
Evening Herald—always abreast of the
times—announces that it will have in
operation in a couple of weeks five new
typesetting machines and after that date
the typesetting on that enterprising paper
will be done entirely by machinery. The
machines are the finest made and cost
the company about \$50,000. The five
machines will do the work of twenty men.

Can Hardly do Less.

The Mesaba Range: After a hard
struggle the St. Louis county delegation
in the lower branch of the legislature
succeeded in securing the passage of a
bill to establish a state normal school in
Duluth. Considering the amount of
money this county annually contributes
to the school funds the legislature could
hardly do less than to grant Duluth a
normal school. If the legislature de-
sired to deal fairly by this county it
would also establish a school of mines
somewhere within its limits.

Dodging the Issue.

St. Louis Globe-Democrat: The fact
that most of the Democratic congressmen
who are trying to commit their party to
the free silver policy were beaten last
November detracts much from their in-
fluence with the party and the people in
general. The Democracy dare not de-
clare squarely for free coinage.

of Fancy Veilings? Has any-
one told you of this Gorgeous-
ly Lovely Display of French
Millinery?You'll say Art and Fashion
have indeed added a crowning
glory to their accomplishments
of all previous seasons.Women never tire of adopt-
ing fashions that add grace
and character to appearances.
Great praise is due the artist
and manufacturer of silks and
dress goods for this season's
exquisitely woven silk and
wool effects in Crepe, in Crepe
Cheviots, in mixtures for street
and dress effects for the house,
and they are selling as low as
50c a yard here, and they are
full width; beautiful silken
checks and stripes for waists
are being bought as low as 65c
here, and they are nice, fine
materials. The wash goods ma-
terials are wonderfully diversi-
fied and unprecedently beau-
tiful to look upon, and 10c and
12½c is the selling price of
some of the choicest effects.To be the
Great SeasonOf the Fancy Waist, with the
accent on the fancy. Laces,
ribbons, flowers, jeweled trim-
mings and chiffons, in fact
every dressy, cheerful, airy
and pretty material is used to
create the waist that can be
hed; nothing too loud, nothing
too gay. We are showing
all the new perforated em-
broideries, chiffons, laces and
nets, so much the craze for
bodice coverings.Hosiery and
Underwear DeptsHave taken a most marked
advance over any previous
season. The wonderful part
of it is to notice what superb
vests and combination suits
are selling at 15c, 18c, 20c
and 25c. The Hosiery is
equally beautiful and equally
low in price.Miss Lingard is taking
orders for gowns to be com-
pleted April 2nd.What to do is from now
on visit the store every day
and see all the beautiful new
things as they are opened.

NO MESSAGE TONIGHT

Judge Lewis Will Take Another Week in Which to Prepare His Address to the Council.

President Howard Will Make Very Few Changes in the Personnel of the Standing Committees.

Possibility of the Acceptance of One of the Ferry Bids—Sixth Street Improvement Matter.

At noon today the prospects were that the council meeting tonight will be rather a quiet affair. Up to that time no new matters of business had been placed in the budget and no old ones seemed likely to come up.

Mavor Lewis will not submit his annual message until next Monday evening. The reports from the heads of the various departments will not all be in for a day or two and after that he will need some time to make up the data furnished him and to say to the city fathers what he has to say.

No appointments will be made by his honor this evening. Each alderman who has ceased to be a member of the council will have his name replaced by that of his successor. That is the only difference there will be in the committee this year from those of last year. The committees will be made up as follows, the first name in each case being chairman:

Auditing and finance—L. D. French, James T. Hale, Theodore M. Krumseig, Bridges and viaducts—E. F. Mitchell, Theodore M. Krumseig, A. M. Cox.

City property, buildings and markets—Philip Westaway, E. F. Mitchell, R. S. Lerch.

Drains, sewers and parks—N. N. Oie, Philip Westaway, T. E. Trevillion.

Fire department—T. E. Trevillion, Thomas Olafson, James T. Hale.

Harbors, docks and tunnels—Louis Christensen, William Harwood, L. D. French.

Light and water—T. M. Krumseig, George F. Ash, J. W. Nelson.

Ordinance and judiciary—James T. Hale, R. S. Lerch, N. N. Oie.

Police and license—R. S. Lerch, J. W. Nelson, Philip Westaway.

Public offices, officers and elections—Thomas Olafson, T. E. Trevillion, E. F. Mitchell.

Purchasing and supplies—J. W. Nelson, E. M. Patterson, Thomas Olafson.

Railroads and transportation—A. M. Cox, N. N. Oie, William Harwood.

Streets, alleys and sidewalks—E. M. Patterson, Louis Christensen, E. F. Mitchell.

Waterworks special—George F. Ash, A. M. Cox, Louis Christensen.

May Alder and Ferry Bids.

There seemed, this morning, an inclination on the part of some of the aldermen to bear a favorable report on the bid of the Duluth Ferry company for a steam ferry across the ship canal. Alderman Patterson, chairman of the committee, however, was somewhat in favor of postponing definite action for another week, so the outcome seemed a little uncertain.

The board of public works has recommended that the above named bid be accepted.

The latter part of last week the committee on streets visited Sixth street and there is a strong sentiment in favor of ordering the improvement of that street from Fourteenth avenue west to Twelfth avenue east, and Twelfth avenue east from Fourth to Sixth street. The council twice rejected the old petition, but a new one containing fifty-two names recently came in and it was made the basis of this latest examination and investigation by the committee.

Alderman Patterson said this morning that he thought while, perhaps, the signers did not represent a majority of the owners of property on that street, it did represent a majority of the residents on it.

They want an improved street and water mains and all the other advantages attending improved streets and are willing to stand the assessment. The committee visited many such, calling at their houses. The matter will be referred to the board of public works and if that body reports favorably, the committee feels much inclined to push a resolution through the council at the earliest possible date.

The clamor for public work continues and the opening of rock work and the water main extension is recognized as impracticable and unwise. It is also expected that some of the West End aldermen will push a scheme for opening a street around the edge of the bluff back of Alderman Cox's house.

SWEET CAPORAL

SWEET CAPORAL
CIGARETTE
Has stood the Test of Time
MORE SOLD THAN ALL OTHER BRANDS COMBINED

NOT A BIGGS.

Had He Might Have Been a Relative or Something or Other.

She sat right opposite a bashful looking young man in a Jefferson avenue car and looked at him so steadily for five minutes that he grew impatient. Finally she shifted the market basket, two bundles and stalk of celery to the seat beside her and leaned over and said:

"Excuse me, sir, but isn't your name Biggs?"

"No, madam," he said, blushing.

"Then you're not a son of Hiram Bartley Biggs of East Saginaw?"

"I am not."

"Not Hiram Biggs' nephew or cousin?"

"No."

"Name isn't even Biggs?" she urged persuasively.

"It is not."

"Well, I thought for sure you was one of 'em. I never saw such a family likeness."

The victim smiled that uncertain smile which is played, like trumps, when in doubt, and there was a welcome silence for three blocks. Then the owner of the market basket leaned over once more.

"It seems to me you favor old Mrs. Biggs more than you Hiram," she said.

"Ah!"

"Yes, she was a Higgins. You have her eyes and hair. There is a Biggs look though, sure enough," she added suggestively, inspecting the young man still more critically.

"Born in East Saginaw, weren't you?" she inquired suddenly.

"No."

"Ever been there?"

"No."

"Well, ain't chance," she declared emphatically, "and if I had three blocks more we'd get to the bottom of this. I'm sorry I have to get off here," she added as she gathered up the market basket, the two bundles and the stalk of celery and started for the door.

"Too bad, ain't it, to leave it unsettled like that?" she said regretfully to the conductor as she climbed off the car.

But the young man didn't think so. He looked as if he had shaken a brick off his devoted head, and even the conductor seemed relieved as he started up the car again.

"Hold on, conductor," screamed the friend of all the Biggesses, dropping the market basket, two bundles and stalk of celery on the track and hurrying after the car.

"It might be on his mother's side," she said breathlessly. "Ask him was his mother a Popham or did it?—But the car was gone.—Detroit Free Press.

Returning Thanks.

Here is a story of a colonel who was much addicted to traveling and who once reached home when the house was full of his son's guests and staid to dinner. One of the company, a notorious drawer of the long bow, told a story of his being off the Cape of Good Hope in an Indian, when a floating object was discovered which proved to be a cat, whereon a man was seated clinging to a small staff in the bungehole.

"Come on board," retorted the ocean waif when hailed. "No, thank you. I'm very comfortable here. I am bound for the Cape. Can I take letters there for you? Don't bother about me. I'm all right."

Then, amid the silence which followed this incredible yarn, Colonel G. arose and gravely addressed the narrator.

"Sir," he said, "for years I have been trying to find any one belonging to that ship to return thanks for the great courtesy shown to me on that occasion. At last I am enabled to do so, sir. I was the man on the cat."—Tit-Bits.

Not So Stupid.

"There's a man to see you, sir," said the office boy politely.

"Well, you stupid, didn't I tell you I wouldn't see anybody?"

"Yes, sir."

"Then why did you receive him?"

"I told him to wait without, sir."

"Without what?" said the boss, expecting to crush the boy by his chestnut.

"Without any chance of seeing you, sir," and the boy dodged through the door.—Detroit Free Press.

A Bargain Is Sightseeing.

"What did you give that stranger money for?" said Aunt Eliza as she and Uncle Hiram waited in the station after getting off the train from Hayville.

"That's all right, Liza," said Uncle Hiram triumphantly. "That's a nice fellow. I gave him \$2, and he's going to fix it so we can go out and see the skyscrapers without extra charge."—Chicago Record.

Uncle Eben's Observation.

"Hit an er good t'ing," said Uncle Eben, "foh folks ter try ter be satisfy wit whut dey kin un'stan. Ef dah was less hypnotism goin on an mo' labtism, dah wouldn't be so much trouble at de present time."—Washington Star.

Guarding Against It.

"Dear me," cried the nurse, "the baby has swallowed my railway ticket. What shall I do?"

"Go and buy another right away," returned the mother. "I'm not going to let the conductor punch the baby."—Comic Cuts.

Cheap Lands! Low Rates!
On April 2 a homeseekers' and business men's excursion will be run by the Minneapolis & St. Louis railroad from St. Paul and Minneapolis to Texas, Louisiana and other Southern points. Rate, about half fare for the round trip. Excursion will go in through tourist cars with porter and conductor in charge. Berth rate only \$2.50. Free board at Texas ranches while looking over lands. "See the eagle! How he soars!" After a few rehearsals she was ready for a recitation before the assembled family. And there was great applause when she exclaimed: "See the eagle! How sore he is!"—Youth's Companion.

On Different Errands.
"Going to a fashionable dentist's, eh?" "Yes, to get my tooth pulled. Where are you going?" "Going to a fashionable physician's to get my leg pulled."—Life.

The Old Fashioned Fireplace.
How dear to my heart are the days of my childhood, When there were no cold gas stoves to rouse a man's ire; When the hickory backlog, brought in from the wilderness, Gave out the bright heat of the old fashioned fire!

How it crackled and sparkled and fluttered and brightened! How new it all seems when it's put into rhyme! Yet, to tell the plain truth, to our youth unenlightened, You couldn't warm more than one side at a time.

Ah, the old fashioned fireplace, the roaring old fireplace! How brightly it glowed with its sparkle and shine! How it warmed up your shins to point of real torture, While the cold winter breezes played tag on your spine!—Indianapolis Journal.

"King Arthur" Is a Failure.
Another boom will be given to "Mme. Sans-Gene" when Irving produces it, and letters received in this country hint that he may do the play sooner than was expected. "King Arthur" is a failure. The English critics have beaten about the bush very deftly. They have tried to patch up the production by tacking around it, but it is a failure just the same. Irving was relying upon it for his coming American tour. In "Sans-Gene" Miss Ellen Terry will play the part of the bluntness.

Read to Larger Ones.
"In this cage," said the keeper, "we have a splendid specimen of the Pelicanus americanus, or American pelican. It is noted, as you see, for the enormous size of its bill!"

"I don't see anything remarkable about it," observed the man who had just settled with the gas company, passing on.—Chicago Tribune.

An Apostrophe to St. Andy.
New York Sun: What said Andrew Jackson, exemplar of true Democracy, in his first inaugural address as president?

"The management of the public revenue is among the most delicate and important trusts, and it will demand no inconsiderable share of my official solicitude. Under every aspect in which it is considered it would appear that advantage must result from the observance of a strict and faithful economy. It will contract that tendency to public and private profligacy, which a profuse expenditure of money by the government is but too apt to engender."

Sage words of a Democrat, a splendid fighter, courageous against the enemies of his country and of his party, and indifferent to ducks.

VERY MYSTERIOUS CASE.

George Lafayette Disappeared on Saturday
and No Trace of Him Can
Be Found.

Duluth has scored another mysterious
disappearance and this time the man
to drop out of sight almost in a moment's
time is George Lafayette, barn boss for
J. B. Stevens, at Gray's mill on Garfield
avenue.

Last fall Lafayette, with his wife, left
Duluth and went to Montreal to spend
the winter. Last Friday they returned
to Duluth, as Mr. Lafayette had en-
gaged to work for Mr. Stevens another
season.

On Saturday at about 11 o'clock La-
fayette asked Mr. Stevens to permit
him to take a team and go to the depot
for his trunks. Mr. Stevens told him
that he could have it as soon as the
driver came around with it. Lafayette
then went home, ate his dinner, got his
trunk checks and then returned to the
barn. He talked with one of the men
and said that he would soon be ready to
go up for the trunks. When the man
and team came around a while later La-
fayette could not be found and he has
not been seen since.

A search was commenced Saturday,
was kept up all day yesterday and is in
progress today. Men are examining all
boles in the ice on the bay and the police
in both Duluth and Superior have been
notified. Mrs. Lafayette is a quiet, well-
bred and Mr. Stevens is much troubled
over the matter.

"Lafayette," said he to a Herald re-
porter, "worked seven or eight years as a
teamster for R. A. Gray when he oper-
ated the saw mill and for the past two
years he has been my barn boss. He was
a sober, industrious fellow and had no
bad habits at all. He was much at-
tached to his home and always when
going up town on an errand, even, would
tell his wife where he was going and
when he would be back.

"At the time of his disappearance, he
had no overcoat and no overboots. He
wore a soft black felt hat had the checks
and keys for three trunks at the depot
and \$150 in money. He is a man 40 or
42 years old, five feet ten inches tall,
light complexion and light moustache.
He talks with a twang something like a
man from Maine. We would be very
glad, indeed, to get some trace of him.
It may be that he has become demented
and is somewhere in Duluth or Superi-
or. If he is in the bay, through the
ice, no trace of him has been found. We
can assign no reason whatever for su-
icide or flight as his family and business
matters were not only all right, but he
seemed very happy over returning to
work and his prospects for a summer's
job."

Chief Office Removed.
Duluth Fuel company's office is now in
The Herald building.

A. D. ALLIBONE RESIGNS.

Vice-President of the Missabe Road Will Retire
in May.

A. D. Allibone, vice-president and
treasurer of the Duluth, Missabe &
Northern railroad, has resigned his po-
sition, the resignation to take effect on
May 1. It has been reported for some
time that Mr. Allibone had tendered his
resignation and the report received con-
firmation from the officers of the com-
pany this morning. They would say
nothing about the matter save the bare
announcement.

A successor has not yet been appointed
and there is no knowledge as to whom
Mr. Allibone's position will devolve upon.
The appointment is made at the New
York offices and by the New York
powers of the company.

Placed on Trial Today.

The case of Henry P. Barbour in be-
half of himself and all similarly situated
stockholders in the Standard Ore com-
pany against R. T. Lewis, J. H. Upham
and the Standard Ore company to annul
a note for \$15,000 made by the Standard
Ore company to Lewis and Upham, was
taken up before Judge Moeck this morning.
The plaintiff alleges that the note is
usurious as \$12,000 was the only consid-
eration, and asks to have it cancelled
and the defendants enjoined from further
proceedings.

R. R. Briggs is conducting the case
for Barbour and Cash, Williams & Ches-
ter for the defendants.

LARGE DEAL 'CLOSED.

Eight of the Richest Forties in the Seine Re-
gion Have Been Sold to
Eastern People.

Prices Is Not Given Out but Is Said to
Have Been as High as
\$250,000.

Purchase Was Made on the Recommenda-
tion of Dr. Thibodo, an Old
Miner of Wide Experience.

A big deal in the Seine region of the
Rainy Lake country has just been closed
and from now on the most effective and
intelligent prospecting ever done in that
country will be prosecuted. The Kelly,
Mosier & Campbell, and Bartley &
Knauff properties, comprising eight
forties, have been sold. The purchasers
are John J. McIntire, of Niagara Falls,
N. Y., G. L. Potts and W. E. Pelton, of
Appleton, Wis., and others. They refuse
to state consideration but admit that it
was large. It is said to be \$250,000. It
is probable, however, that this is based
on the condition that the property upon
development shall be found to be as
rich as the prospecting already done
shows.

The parties came down today after
spending three weeks up there. They
brought with them 1000 pounds of ore
and took it East with them this afternoon
—"to open up the eyes of the Eastern-
ers," they said.

Active work on the property will be-
gin at once and the purchasers are going
to put experienced miners and men fa-
miliar with similar conditions and for-
mations into the field. They will put in
no mill or plant until they have thor-
oughly explored the properties.

The property was purchased upon
the recommendation of Dr. Thibodo, of
Niagara Falls, N. Y., an old miner
who has been "through all the mines
from the Fraser river to Mexico and
back again," as he said to The Herald
man. Mr. McIntire brought Dr. Thi-
bodo out here and they went up there
together. The result of their trip was
the purchase.

Was Completely Astounded.
A Herald man asked Dr. Thibodo his
opinion of the country and he said:

"Well, I am almost afraid to say what
I think. So far nothing but
some very poor prospecting has
been done, but if further developments
show the mine to be as rich as
the indications now to be seen
are permanent and not merely on the
surface it will be the richest gold region
known. Why, the African gold fields
will not be in it. I will say, too, that I
believe the country is all right. I never
saw slate formations of that character
that, when they contained gold, did not
run deep. If the veins run down 200
feet there will be millions in that country."

"Up to this time there has been no
work done there that is not practically
worthless. No one is interested in
now being put in will be of any account.
The right kind of machinery has not
been put in. Further than this no
prospecting of the right kind has been
done. Shafts should be sunk 200 or 300
feet. Then if your vein holds out your
country is all right."

"When I was going up there a
man told me what I would find. I
looked at him and said, 'My friend, you
had better go and have your head fixed.
You are crazy.' But he was right. I
never saw a gold country with a greater
surface, and neither have I ever seen
an veins so wide and rich as these."

"Mr. McIntire, who is interested in
this purchase, is one of the greatest
bustlers in all New York. He is inter-
ested in the Niagara Falls water power
and is a man of wealth. He will pro-
ceed to prospect these properties in the
right way."

TO SMELT IRON.

Henry Johns' Bill to Encourage Smelting of Pig Iron in Minnesota Recommended to Pass.

Nearly One Million Dollars Asked for Support of the State Hospitals for the Insane.

The Duluth Normal School Bill Favorably Reported by the Committee to the Senate Today.

The Howard City Charter Bill Again Taken Up and Will Occupy All Today's Session.

ST. PAUL, March 19.—Petitions were dispensed with in the house this morning and the following committee reports were made and adopted: H. F. 533, defining qualifications of teachers, to pass as amended; H. F. 628, to amend laws of 1887 relating to public school libraries, to be indefinitely postponed; H. F. 545, appropriating money to aid the state high schools, substitute introduced slightly increasing the amount and distributing it differently; S. F. 193, to appropriate money for Stearns county cyclone sufferers, to be indefinitely postponed; H. F. 577, for relief of Mary M. Crawford, to pass; H. F. 646, to regulate employment of convicts at state prison at Stillwater, without recommendation, but on motion of Mr. Schurmeier was sent to the judiciary committee; H. F. 647, to encourage smelting of pig iron in the state, to pass.

Mr. Underwood introduced a resolution for a committee of five to investigate the affairs of the game and fish commissioners, in view of the accusations of improper doings made on the floor of the house but the resolution was lost, yeas 37, nays 31.

Ex-Speakers C. H. Graves, of Duluth, and W. E. Lee, of St. Cloud, were in the house today occupied seats beside Speaker Van Sant.

A. B. Kelly introduced a bill to appropriate money for the state hospitals for the insane, which was sent to the committee on appropriations. The bill calls for a total appropriation of \$645,000, divided as follows:

St. Paul—Current expenses for year ending July 31, 1896, \$40,000; extra repairs for same year, \$5,000; expenses year ending July 31, 1897, \$40,000; extra repairs same year, \$5,000.

Rochester—Current expenses, year ending July 31, 1896, \$60,000; extra repairs same year, \$5,000; expenses year ending July 31, 1897, \$60,000; extra repairs same year, \$5,000.

Fergus Falls—Current expenses, year ending July 31, 1896, \$40,000; extra repairs same year, \$5,000; expenses year ending July 31, 1897, \$40,000; extra repairs same year, \$5,000.

St. Paul—Repairs and improvements, total available in 1895, \$62,800.

Rochester—Repairs and improvements, total available in 1895 and half in 1896, \$27,500.

Fergus Falls—Repairs and improvements, available in 1895, \$12,000; available in 1896, \$13,500. Total, \$95,300.

The calendar, which contained thirty-five bills, was taken up and the following bills were passed: S. F. 167, proposing an amendment to the constitution; S. F. 133, relating to assessment and collection of taxes; S. F. 158, relating to independent school districts; S. F. 181, to appropriate money and to repeal the tax levy contained in section 4, chapter 279, general laws 1889; S. F. 203, to amend section 480 of the penal code, as to damages to dams; S. F. 207, relating to the filing of chattel mortgages; H. F. 488, relating to the Itasca state park.

A recess was then taken until 2 o'clock.

Mighty as the Mississippi is the tide of popular favor for Dr. Price's cream baking powder.

DOINGS OF THE SENATE.

The Duluth Normal School Bill Favorably Reported.

ST. PAUL, March 19.—In the senate this morning the Howard charter bill was taken up after the opening routine was disposed of. The Duluth normal school bill was favorably reported from committee. The following bills were introduced:

Senator Heneman and Lloyd, to appropriate the income from investments in the internal improvement fund, judiciary, to the roads and bridges fund, judiciary.

Senator McArthur, relating to term of county auditors and county treasurers, judiciary.

Senator McArthur, to authorize making of agreements on behalf of executors, etc., for the deposit of funds and assets for which such sureties may be held responsible, judiciary.

Senator Wyman, providing for assistants in office of public examiner, Finance.

Committee reports were made and adopted as follows:

From normal school committee: H. F. 387, establishing a state normal school at Duluth, to pass.

S. F. 578, authorizing and empowering the various municipal courts to issue exceptions upon their judgments and determinations, etc., to pass; S. F. 465, to amend section 16, chapter 11, statutes of 1894 as amended, to be indefinitely postponed; S. F. 440, relating to game and fish, to be indefinitely postponed.

The Howard bill was then taken up where the discussion ended yesterday and the senators settled down to another busy day, taking up the bill a section at a time for consideration. Not much ground had been covered when recess was taken until 2:30 this afternoon, at which hour the discussion was resumed. Tonight the senate will take up general orders in committee of the whole.

Senators Stevens and Cronin held a conference with Senator Howard during the noon recess of the senate today and Senator Howard agreed to the insertion of the maximum salary clause in the charter, as a temporary matter until the council could fix the salaries of the officials. It was agreed that the matter should be brought up this afternoon and the insertion would not be opposed by Senator Howard.

It was explained to him by Senator Stevens that unless this provision was inserted, it would be impossible in St. Paul to reduce the salaries of officials from the present \$10,000 to \$8,000, what the people think they should be, without a three-fourths vote of the council, which is very hard to get. The members of the "gang" are at the capital early and late these days working every wire in sight to prevent the insertion of the section, which is intended to bring their salaries down to a reasonable limit.

Will the next president come from the West? Dr. Price's baking powder is favorite in every Western state.

INTO RECEIVERS' HANDS.

The Walter A. Wood Harvester Company, of St. Paul, involved.

ST. PAUL, March 19.—The Walter A. Wood Harvester company went into the hands of receivers this morning, when Judge Egan filed an order in the office of the clerk of the court. The receivers are Frank Seymour, cashier of the firm of Lincoln, A. H. Lindeke, of the firm of Lindeke, Warner & Schurmeier, and Peter S. MacGowan, general manager of the company.

The company was made last night by Judge Egan and was the result of a hearing in his chambers on an application of the Ewatts Manufacturing company, of Illinois, which is in liquidation.

The claim was not a large one, \$3750 for goods sold the Wood company in January and March of this year.

In the petition the Ewatts company says that the Harvester company is indebted to various creditors in the sum of more than \$900,000, and that a large part of this amount they are unable to pay; that they have given preference to some creditors over others and have borrowed money on terms which give preferences to the lenders with large collateral security.

In conclusion, it is requested that the court appoint a receiver for the debt due the Ewatts company and for the appointment of a receiver.

The receiver, which is short and very simple, Judge Egan says that all property wherever situated is to be assigned and transferred to the receiver; that there are to be no preferences; that the creditors are to participate in the proceeds of the receivership pro rata, without preference, and that the receiver is to file releases for their claims. Within five days the receivers and each of them are to file bonds in the sum of \$250,000.

Burned to Death.

ST. PAUL, March 19.—A Fergus Falls special to the Dispatch says: Miss Aasne O. Husted, a maiden lady aged 70 years, was burned to death in her home in Aurdale Sunday night. She insisted on living alone in a house a few rods from her relatives. Her lamp exploded, and when she reached their house she was burned so badly that she was unable to speak and soon died.

A Minneapolis Tangle.

MINNEAPOLIS, March 19.—The New York Insurance company today foreclosed a mortgage of \$75,000 on the city hospital site, and is now the owner. This action still further complicates a tangle involving several well known citizens, and which has already caused some bickering.

Duluth Banks Lead.

ST. PAUL, March 19.—Bank Superintendent Kenyon today completed a statement of the condition of the state banks of St. Paul, Minneapolis and Duluth at the close of business March 5. The statement shows that the reserve in St. Paul is 26 per cent, in Minneapolis 29, and in Duluth 33.

Signed by the Governor.

ST. PAUL, March 19.—Governor Clough this afternoon signed the Anderson railroad land tax bill.

Wisconsin Murder Trial.

SHELL LAKE, Wis., March 19.—[Special to The Herald.]—The trial of State Game Warden Martin and Hicks for the murder of the Indian chief, Joe White, has begun and it is expected there will be at least sixty witnesses called.

TO THE BOTTOM.

Spanish Cruiser Reina Regente Sunk Near Bajo Aietanos, Not Far From Straits of Gibraltar.

She Carried 420 Officers and Men and All Hands Are Believed to Have Perished.

The Cruiser Left Tangier on March 10 for Cadiz and Has Been Missing Since.

Divers Have Gone to the Scene to Recover the Bodies of the Ill-fated Crew.

CADIZ, March 19.—The Spanish cruiser Alfonso XII has returned here after a search for the missing cruiser Reina Regente and reports having found the latter vessel sunk near Bajo Aietanos, not far from the straits of Gibraltar. The Alfonso XII has returned to the scene of the wreck for a number of divers and diving appliances in order to recover the bodies of the crew of the sunken warship.

The Reina Regente was reported missing on March 13. She had just conveyed from Cadiz to Tangier the returning Moorish mission to Spain. The cruiser left Tangier on March 10 for Cadiz, and her whereabouts have not been definitely ascertained until today. Pieces of one of her boats and semaphore flags were reported to have been picked up along the shore near Ceuta and Tarifa. She carried a crew of 420 officers and men, and all hands are believed to have perished.

So soon as the reports of the disaster became current, a number of Spanish and British warships put to sea in search of her. A French steamship, on March 14, arrived at Gibraltar and reported having seen a big vessel, supposed to have been the Reina Regente, ashore in Aietanos bay (probably Bajo Aietanos). The commander of the French craft added that he was unable to assist the warship on account of heavy weather.

On March 15 the steamer Mayfair arrived at Barcelona and reported sighting a vessel believed to be the Spanish cruiser Reina Regente on the morning of March 10 between Tarifa and Cape Espartaco. The warship had lost her funnels and bridge and was laboring heavily in the high seas and fierce gale which prevailed. Although she was apparently unmanageable, the cruiser did not ask for assistance, and therefore the Mayfair did not stop. But the captain of the Mayfair added that he was of the opinion that she could not long have survived the storm in the condition in which she appeared to be at the time he saw her.

Later the Spanish cruisers Isla de Lucon and Alfonso XII returned to Cadiz, after having searched the Spanish coast and African coasts and the straits without any news of the missing warship.

Deputy Diaz Moreau, who was formerly an officer of the Spanish navy, in the chamber of deputies during the evening of March 14, read the statement of a former commander of the Reina Regente in which the writer described the cruiser as a vessel unable to weather a heavy storm, owing to the increased weight of her armament.

In the senate, Admiral Beranger, formerly minister of marine, said that the Reina Regente was one of the best ships in her class. She was well appointed in every way, he added, and if she was lost he believed she must have collided with another vessel or have gone ashore.

Subsequently in an interview regarding the statement made by Deputy Diaz Moreau, in which a former commander of the vessel alleged that she was top heavy, Admiral Beranger said that the overweight of the cruiser was rectified two years ago by his orders, when he was minister of marine.

The uncertainty as to the fate of the Reina Regente caused great public excitement in Madrid, and the government was accused of keeping back news of the ship and of having ordered the detention by the censors of all telegrams giving information, but when a number of flags, a compass box and other wreckage known to have belonged to the Reina Regente were washed ashore at Tarifa, she was given up for lost.

In Cadiz and Laredo, where most of the 420 officers and men of the lost cruiser belonged, there has been anxiety and excitement from the moment she was reported missing.

The Reina Regente, about two years ago, went to New York as one of the Spanish squadron which escorted across the Atlantic the Columbus caravels. The Infanta Isabel, now reported to have sunk an American schooner off the coast of Cuba, and the Nueva Espana, were the other ships of the Spanish squadron. The latter arrived at Fort San Juan on April 21, 1893, the Reina Regente having the caravel Santa Maria in tow; the Pinta was in tow of the Infanta Isabel, and the Nina was towed by the Nueva Espana. All three of these Spanish warships took a conspicuous part in the great Columbian naval parade in New York harbor on April 27 of the same year.

The Reina Regente was launched in

Throwing Shoes at a Wedding!

The custom of throwing one or more old shoes after the bride or groom either when they go to church to be married or when they start on their wedding journey is so old the memory of man stretches not back to the beginning. Some think it represents an assault, and is a lingering trace of the custom among savage nations of carrying away the bride by violence.

Not throwing shoes away but almost giving them away at the

60 pairs hand turned Juliets, patent leather tips, very fine, lovely styles, worth \$4.50, only..... \$3.00.

THE CRUISER KNOWN

It Was the Spanish Cruiser Conde de Venadito That Fired on the Steamer Alliance.

Authorities at Havana Have Ordered a Full Report to Be Made Into the Affair.

Report That the Schooner Irene Was Fired Into and Dismantled by a Spanish Gunboat.

HAVANA, March 19.—The name of the Spanish warship that fired on the American steamer Alliance is now known. It is the Spanish cruiser Conde de Venadito. This fact became public today when the captain of the cruiser reported that he had tried to stop a strange steamer and had opened fire on her, when she persisted in proceeding on her course. According to the story of the Conde de Venadito's commander, while cruising off the eastern coast of Cuba on March 8, he sighted a steamer heading for Mayaguez and shaping her course to the northeast.

The cruiser hoisted a flag and the steamer replied by raising the English flag. The cruiser again signalled the steamer to stop but without effect. As the steamer proceeded at full speed, the cruiser first fired two blank shots and then two solid shots. The commander claims that he did not desire to hit the steamer but that he fired the shots merely to cause her to heave to. He asserts that the steamer was but one and one-half miles off the coast when the firing occurred.

The authorities here have ordered a full inquiry to be made into the commander's acts. It is reported here that the Alliance carried 24,000 miles south on the trip on which she was fired at. It is also reported here that there were landed on the eastern end of the island some men who were passengers on the Alliance. These men, it is reported, were taken off the Alliance in fishing boats the night preceding the firing.

The Infante is an exact counterpart of the Conde de Venadito, which is named as the vessel which fired on the Alliance. The Venadito is a bark-rigged gunboat of comparatively modern design, having been launched in 1885. She is one of six built on the same plan as the same time. Her length is 210 feet; beam, 32 feet; draught, 12½ feet; displacement, 1130 tons; speed, 14 knots. Her engines are of 1600-horse power, driving a single screw. Her battery consists of four 12-centimeter (4.7 inch) breechloading rifles, two 3-pounders and seven machine guns. She has two torpedo tubes.

I find the ROYAL BAKING POWDER superior to all the others in every respect. It is purest and strongest.

WALTER S. HAINES, M. D.
Consulting Chemist, Chicago Board of Health.

The gun with which the Conde de Venadito fired at the Alliance was the forward one of the 4.7 inch guns, on the port side. Not having an absolutely straight fire, the Spanish cruiser was obliged to yaw out of her course in order to bring a gun to bear on the chase. The gun is 14½ feet long and weighs 26 tons. It throws an armor-piercing projectile weighing 53½ pounds, but in firing at the Alliance undoubtedly only the common cast iron shell, weighing 47½ pounds, was used.

The charge of powder is 28½ pounds and the velocity given is 1098 feet a second, as the shell leaves the muzzle. That velocity would give the projectile with the projectile's flight, but if it had hit the Alliance it would have gone into her and exploded, the bursting charge of the common shell being about 2½ pounds of powder, which would have wrecked a good deal of material.

A report has been received from Santiago of an attack on the insurgents by Capt. Ganich. There were but forty

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, by more properly adapting the physical body to the needs of the world's best products, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to all who have tried it, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Baking Powder

ABSOLUTELY PURE

ANOTHER WILL FOUND.

Later Will by Ex-Senator Fair Has Been Discovered.

SAN FRANCISCO, March 19.—It now turns out that the reputed letter will of the late James G. Fair was left in the charge of Mrs. Nellie L. Cravens, a principal in the public schools, who was a great friend of Senator Fair. The will was written in the house of a Mrs. Hanks, with whom Mrs. Cravens was living, and in the presence of both witnesses, Mrs. Cravens says it came about this way:

Senator Fair had come to visit her. Their conversation turned to wills and Senator Fair said that his lawyers did not seem to get his will just as he would like it. Fair made several other remarks, which led Mrs. Cravens to propose that he make a new will then and there, and have her as witness, and that he make a provision in the will for a fund for the support of school teachers who had been teaching for twenty-five years or more. To all of which the late Senator Fair agreed, and sat down and wrote the most recent document which has been presented to the courts.

The reason assigned for keeping the new will so long in the background is that the custodian did not look at the date of the will when Fair died, and when told the will was made public she thought it was a forgery.

Later Will by Ex-Senator Fair Has Been Discovered.

"Mrs. Cravens was up to Sacramento the interest," she said. "I heard that she dropped a remark about a legacy to the pension fund. I sent for her, and after a little she told me the whole story. Mrs. Cravens said that the late Senator Fair, lived for years at the same hotel with him, and he was a frequent visitor at her home. He there wrote the will and gave it to her to keep."

A poem in fine cookery is the cake mixed with Dr. Price's baking powder.

HAS MADE RESTITUTION.

Cashier Hawks Settles With the Seven Corners Bank at St. Paul.

ST. PAUL, March 19.—Judge Kerr, of the district court, has issued an order authorizing W. P. Westfall, assignee of

the Seven Corners bank, to accept from Charles A. Hawks, ex-cashier of that institution, \$4000 in cash and a deed to \$3500 worth of prime land, on which a settlement in full for the claim of the bank against Hawks' overdraft account. By effecting such a settlement the bank has followed the policy of the Hawks' full indebtedness to the bank was \$20,800, of which \$10,000 was in notes to the number of eleven executed between May, 1893, and Jan. 1, 1894. On this indebtedness he has now reimbursed the bank as follows: Cash, \$8,000; one certificate of deposit issued to his wife, Kate Nelson Hawks, by the Seven Corners bank, which is now an existing bank as follows: Cash, \$8,000; one real estate transferred, \$3500; total, \$17,375, leaving a balance due to the bank of \$3660.92.

ADMIRAL LING IS ALIVE.

Report That He Suicided at Wei Hai Wei Was Untrue.

NEW YORK, March 19.—A special from Shanghai says: Chinese papers here say that Admiral Ling, who was reported to have committed suicide at Wei Hai Wei, is alive.

It is said that three coffins taken on a warship to Chefoo contained the bodies of Liu, the captain of the Tien Yuen, and of the Chinese admiral, who was in command of the garrison at Liu Kung Tao, and Tai, commander of the land forces at Wei Hai Wei, but Admiral Ling, it is asserted, was smuggled away.

The Chinese troops are running away from Sahn Hai Kwau toward Tien Tsin and Pekin.

Fire at St. Cloud.

ST. PAUL, March 19.—A St. Cloud Minn., special says: The handsome Kerr block owned by Judge C. D. Kerr, of St. Paul, burned at a late hour. The first floor was occupied by the dry goods store of R. C. Junk & Co. Their loss is total. They carried a stock of about \$30,000 and had insurance of \$10,000. The second floor was occupied by offices.

Declared a Draw.

BOSTON, March 19.—In the presence of 2000 people at the Suffolk Athletic club last night Jack Kilrain, of Baltimore, and Steve O'Donnell, of Australia, fought a prize fight, fought the eighth round and at the close Referee Pat Shepherd, amid shouts of "Kill rain," declared the contest a draw.

The Denver Exposition.

DENVER, March 19.—David H. Moffat has been elected president of the executive board of the international mining and industrial exposition to be held in Denver next year.

Siddons Beaten.

CHICAGO, March 19.—At the Triangle club last night Tommy White was given the name of George Siddons in a round go. The men are featherweights. Siddons was out fought in every round.

The Walsenburg Lynching.

DENVER, March 19.—Dr. Cunco, Italian consul, has returned from Walsenburg, where he made a full investigation of the recent lynching of a man. He says every assistance possible was offered him by the Huertano county authorities. He will not discuss the nature of his report to the Italian ambassador, but it is evident he believes it will prove entirely satisfactory.

ALL IS IN SHIP SHAPE.

Postmaster General Bissell Does Not Remain in Office to Clear Up Any Accumulated Business.

Mr. Wilson Not Yet Ready to Assume the Office and Mr. Bissell Therefore Continues.

He Is Sorry Congress Did Not Grant Power to Carry Out Some Needed Reforms.

WASHINGTON, March 19.—An impression prevails in some quarters that Postmaster General Bissell still remains in office because he desires to clear up some business that is yet unfinished. This is not the case. "Everything is in ship shape," said Mr. Bissell when asked about this. "I could not move out any time if I was desired either by myself or Mr. Wilson. The fact is I have my Washington house leased until May and the lease on my Buffalo house does not expire until the same date and I do not care to be idle during the time while Mr. Wilson is not yet ready to assume the duties of the department."

The only reason that Mr. Bissell has in leaving the office is that he has not been able, owing to the failure of congress to legislate, to carry out all the reforms that he had inaugurated, the greatest being that relating to second-class mail matter. He outlined his wishes on this subject in his last report.

It is pointed out that a time of enormous amount of second-class mail matter the government was carrying that consisted neither of legitimate newspapers nor magazines, the publications for which the second class rate was designated. Mr. Bissell was very much in earnest in this. He went to many of the editors of newspapers and magazines and urged them to conform to the law when the last session convened.

"I was told," said he, "that if this was pushed at that time it would interfere with the financial measures and that all the time which congress could give to legislation other than appropriations, would be devoted to finances. I could not, of course, interfere with the measures of congress, but I could not see how I could get around this without pushing legislation in which there was less interest."

Had Mr. Bissell remained in the cabinet it is probable that he would have made a hard fight for the legislation recommended in his last report upon this subject at the next session of congress.

It is also a source of gratification to the reform when the last session convened. "I was told," said he, "that if this was pushed at that time it would interfere with the financial measures and that all the time which congress could give to legislation other than appropriations, would be devoted to finances. I could not, of course, interfere with the measures of congress, but I could not see how I could get around this without pushing legislation in which there was less interest."

NOTICE OF EXPIRATION OF REDEMPTION PERIOD.

STATE OF MINNESOTA, County of St. Louis, ss.

Take notice, that the following described property, to-wit: Lot 10, block 10, of the subdivision of the city of Duluth, Minnesota, containing 100 acres, more or less, and being the same as described in the plat of said subdivision, recorded in the office of the register of deeds of St. Louis County, Minnesota, on the 10th day of May, A. D. 1894, and recorded in the office of the register of deeds of St. Louis County, Minnesota, on the 10th day of May, A. D. 1894, at 2 o'clock p. m., in Book 23 of mortgages, on page 101.

Which said mortgage was duly assigned by William E. Richardson, to the said American Loan and Trust Company, by written instrument, dated July 11th, 1894, and recorded in the office of said register of deeds on November 7th, 1894, at 10 o'clock a. m., in Book 24 of mortgages, on page 434.

And whereas, said mortgage is a mortgage in fee simple, and the said American Loan and Trust Company, by written instrument, dated July 11th, 1894, and recorded in the office of said register of deeds on November 7th, 1894, at 10 o'clock a. m., in Book 24 of mortgages, on page 434, has assigned the same to the said American Loan and Trust Company, by written instrument, dated July 11th, 1894, and recorded in the office of said register of deeds on November 7th, 1894, at 10 o'clock a. m., in Book 24 of mortgages, on page 434.

And whereas, said mortgage is a mortgage in fee simple, and the said American Loan and Trust Company, by written instrument, dated July 11th, 1894, and recorded in the office of said register of deeds on November 7th, 1894, at 10 o'clock a. m., in Book 24 of mortgages, on page 434, has assigned the same to the said American Loan and Trust Company, by written instrument, dated July 11th, 1894, and recorded in the office of said register of deeds on November 7th, 1894, at 10 o'clock a. m., in Book 24 of mortgages, on page 434.

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."

CARLOS MARTIN, D. D., New York City.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results."

EDWIN F. PARKER, M. D., 126th Street and 7th Ave., New York City.

THE CENTRA COMPANY, 77 MURRAY STREET, NEW YORK CITY

Castoria.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhoea, Eructation, Killa Worms, gives sleep, and promotes digestion, without injurious medication.

AN ALDERMANIC TILT

Alderman Patterson and Alderman Harwood Talked Turkey Over the Granting of a Sewer Permit.

Lively Scrap in the Afternoon Over the Bill for the Wiring of the City Hall.

Burgess Company Put in a Bill for Nearly Five Hundred Dollars for Doing the Work.

The council meeting last evening was tame, quiet and unusually short. Every alderman also was present. The evening's business was opened by the reading of a communication from the mayor announcing the appointment of Frank Provisnik as a patrolman. He also appointed B. F. Bishop as a patrolman at Fond du Lac at a salary of \$40 a month and William Garrett as a special policeman without pay on the coal docks of the Pioneer Fuel company.

The bond of Dr. Routh, health officer-elect, in the sum of \$1000, was approved. His bondsman were C. C. Teas, J. K. Carey, E. W. Markell and E. W. Matter.

A number of general bills were passed, as also was a special pay roll for \$27.02 for the payment of witnesses that appeared before the aldermanic committee in the "McLaughlin investigation." Alderman Harwood moved the adoption of a resolution to that effect and Alderman Lerch gave a prompt second.

When President Howard announced the standing committees for the year Alderman Cox arose and said:

"Am I still on a committee on railroads and transportation?"

"I am not aware that you have been dropped off," replied Mr. Howard.

"I have nothing to say then," answered Cox, as he sat down.

Mr. Cox's attempt at sarcasm was understood when we remember that he is about the oldest member in the council, yet is chairman of but one committee—that on railroads and transportation, but one report to make in the year past.

Quite a little breeze was stirred up between Alderman Patterson and Alderman Harwood over a resolution proposed by the McMillan Plumbing company.

I find the ROYAL BAKING POWDER superior to all the others in every respect. It is purest and strongest.

WALTER S. HAINES, M. D.
Consulting Chemist, Chicago Board of Health.

to make sewer connections at the Norton building on Michigan street and Fourth avenue west, Mr. Patterson had a motion to postpone action a week, and said that Mr. Harwood seemingly had a desire to rush through measures for the benefit of a certain plumbing firm spending ten days on the rock pile, but I lay that to spite work."

Alderman Harwood retorted by saying that he thought Mr. Patterson had more sense; that the request was one that was frequently granted; that it would have to be in this case, and that delay was all nonsense. Alderman Patterson's amendment to postpone was lost and Alderman Harwood's measure was passed.

Alderman Harwood moved a vote of thanks to Senator Spencer for his efforts in getting the "valued policy" bill through the state senate and hopes were expressed that St. Louis county's representatives would make equal efforts and meet with equal success. The motion prevailed but Alderman Cox and Olafson voted negative.

A document bristling with "whereases" and asking the state legislature to abolish Municipal Court No. 2, thereby enabling Judge Hinebaugh to shut up his palatial and temple of justice and return to private life, was referred to the city attorney for one week.

Alderman Hale reported that of the \$300 appropriation for the committee on the visiting legislators all had been expended save 25 cents. The report was received and the committee discharged.

The City Hall Wiring.

If the regular session last night was tame the latter part of the caucus yesterday afternoon was wild and woolly. It was all on account of re-wiring the city hall. When the ordinance went into effect, regulating the wiring of buildings, some of the aldermen, apparently, could not sleep until the defective insulation and the irregular wires had been remedied. So without calling for bids and without any specifications, the Burgess Electrical company was brought in to do the work. Wires were re-arranged, clusters of electric lights with big white China shades were put in and an amount of crockery insulators screwed to the walls.

In good time Mr. Burgess put in a partial bill. It came up in committee yesterday and was for \$201. Some of the aldermen did not like the looks of

Money.

I want applications for a few large loans at a low rate of interest. If you have good security, you can get low rates.

I have a first-class business block on Superior street for sale on terms that will be favorable to the purchaser.

I have some dwelling houses in good localities for sale or for rent at low prices.

I have good companies in which to place your insurance; companies able and willing to pay losses promptly.

Wm. E. Lucas,
Exchange Building.

things, so commenced to prod around, ask questions and express opinions. No one seemed able to find out who ordered the work done and then Alderman Patterson spoke his mind.

"Some alderman has ordered the work done," he said, "and now doesn't dare admit it. He has shown lots of gall, in my opinion. Whoever ordered that work done should bring the matter before the council. I understand also some alderman who don't know any more about the matter than I do has ordered the bill."

Now Alderman Lerch was the man who scribbled O. K. on Mr. Burgess' bill and when he heard Patterson's words he fairly paled the air, so to speak.

"I do not acknowledge that my friend from the Fifth ward has been made the guardian of this council," said Mr. Lerch. "When he talks of the gall of the dead and he should show more respect. Mr. Goldsmith was chairman of the committee on city property and buildings and he ordered the work done. I O. K'd the bill. I don't think I have any more gall or a less clear conscience than the gentleman who objects."

Laid it on Goldsmith. The two heavyweights of the council went at one another. Alderman Patterson said once that if Mr. Lerch said so-and-so, he lied, but Mr. Lerch had no desire to risk a black eye, so did not take it up. He fell back on Alderman Goldsmith. That gentleman was not present and could neither affirm nor deny.

Alderman Cox attempted to pour castor oil on the troubled waters and pleaded for the passage of the bill.

Then Mr. Burgess was called up to tell what he knew about it. He said that Alderman Goldsmith ordered only a part of the work and that Alderman Lerch had ordered the work done in the council chamber. Mr. Lerch again fell back on Alderman Goldsmith and denied the correctness of Mr. Burgess' statement, claiming that he simply told Mr. Burgess to follow Goldsmith's orders.

It is claimed that the work originally ordered embraced only the re-wiring of those few rooms newly papered. The bill was put over a week. In the meantime, other figures as to the value of the work done will probably be secured.

The council seemed to be in a critical, investigating, illiberal mood yesterday, anyway. It sat down on City Engineer Reed's love of art. A bill from Gordon & Henney for \$3,000, for framing a picture of one of Jim Hill's steamships to hang in the city engineer's office, was laid on the table. The proposed purchase of a \$400 re-copying machine for the city clerk's office was also laid over.

Pat O'Donnell objects to the publication of the report that he has been doing detective work for the crusaders. "I

ST. PATRICK'S DAY.

Address at the Temple Last Evening by Bishop McElroy.

The St. Patrick's day entertainment at the Temple last night drew out a large audience, which comfortably filled all parts of the house. The programs were printed appropriately on green paper, and from one side of the stage Erin's flag, with its harp on a green ground, fraternally saluted the stars and stripes, and this union of adopted country and mother land was not forgotten in the pleasant commemorative exercises which took up the evening.

The address was made by Bishop McElroy, and he eloquently pictured the wrongs and glories of Ireland. In opening he observed the circumstances which led to a triple celebration of the day and noted with pleasure the fact that all government officials took a holiday on St. Patrick's day, of course setting aside the fact that the day fell on a Sunday.

He sketched in brief the history of Ireland, and showed that the country was civilized when Albion was peopled with savages. The speaker then found a well ordered country. At one time Dublin was the seat of learning of the world.

He then told of England's conquest and the long series of oppressions which followed, when under the so-called Reformation, Irishmen were persecuted for their faith. The speaker copiously used still continues, and Ireland is still misruled by England. He quoted Froude, himself the author of many calumnies against Ireland, to show the atrocities committed by English landlords by virtue of English laws, by statements from Bancroft and other historians. He told how wantonly Irish land was distributed by the English conquerors, and as an instance told how a lackey of Cromwell's received an immense tract of land.

He also dwelt on the work of the Irish in the building of this republic and paid a deserved tribute to those who fought and fell shoulder to shoulder with their American brethren.

The musical program, under the direction of Miss Margaret McDonald, was pleasing. The first number was the laughing chorus from "Der Freischütz" by the cathedral choir and J. S. Lynn.

It is one of the prettiest choruses from Weber's opera, and it was rendered in a correct and pleasing manner. The "Gloria" from Mozart's superb Twelfth Mass was sung beautifully.

Miss Julia Donovan sang "Asthore," a charming ballad and rendered it with ease and sympathy. She was heartily applauded. The next number was a recitation of Miss Kennedy, Miss Callahan and Miss Rice, sang several selections and were obliged to respond to an enthusiastic ovation.

Dr. B. D. Dickford, of Westport, Vt., one of Vermont's eminent physicians, stated:

"I have used Dr. Greene's Nervura blood and nerve remedy for some time, first trying it on myself, and I found it did me so much good that I now recommend it to my patients. The fact that I have used it in my own case shows that I know what I am talking about. As a blood and nerve invigorant it is the best of all to build up a person."

Dr. Robert W. Lane, of South Woodbury, Vt., from whom there is no more eminent physician in the state of Vermont, says:

"I have known about Dr. Greene's Nervura blood and nerve remedy for some time, after hard sickness and the cure of nervous females. They have received great good from its use. I do not hesitate to recommend it to my patients."

Dr. Willard H. Morse, F. B. S. Sc. of Westfield, N. J., the great expert on medicines, says of this grand discovery of Dr. Greene:

"The true remedy for nervous diseases is Dr. Greene's Nervura blood and nerve remedy. I act by affecting the organs of nutrition, entering into the formation of new nerve tissue, which generates nerve force. This means the making of new nerves. Dr. Greene's Nervura blood and nerve remedy is the American nerve tonic."

The well-known Dr. Emil Neumer, superintendent physician of the New York Lodge and Association hospital states:

"We are using Dr. Greene's Nervura blood and nerve remedy at this hospital for our patients with great success. This enthusiastic endorsement by physicians, stamps this remarkable medical discovery as the greatest tonic and restorative ever known to the world."

One reason which gives the people so much confidence in it is the fact that it is the discovery and prescription of Dr. Greene, of St. Louis, the well-known and probably most successful specialist in curing nervous and chronic diseases, and to the further fact that he can be consulted free of charge by anyone, personally or by letter.

Look at this. We have a beautiful building lot on East First street that actually cost the owner \$3000—\$1800 buys it on easy terms. D. H. Stevenson & Co., 327 West Superior street.

Tunnels. The Romans, who were great engineers, excavated some remarkable tunnels for aqueducts, but it has been reserved to the moderns to use them in road building. One of the first was that under the River Thames at London, commenced in 1825, finished in 1843, and for a while one of the world's supposed wonders. It has since been eclipsed by the Severn tunnel (also constructed under a river) which is four and one-third miles long. The most noted railroad tunnels are: St. Gotthard, 9 1/2 miles; Mont Cenis, 7 1/2 miles; and the Hoosac, 4 1/2 miles.

The railway from Bologna to Pistoia, across the Apennines (Italy) has forty-six tunnels in a distance of sixty-two miles, equalled only by the Black Forest railway (Germany) which has twenty-nine tunnels in fifteen miles, and which forms a complete letter "S." The world now has eighty-six canal tunnels, length, sixty-six miles; 957 railway tunnels, 291 miles; eight subaqueous tunnels, six and a half miles; and thirty-seven aqueducts, eighty miles. North America has 115 railroad tunnels, several of them engineering works of great skill and cost.

But that and the Burlington route has none of them, its attractions in the way of equipment, speed, safety and scenery are such that it is the favorite line with hundreds of thousands of intelligent travelers between the great cities of Chicago, St. Louis, Denver, Kansas City, Omaha, Minneapolis and St. Paul. For tickets, maps, folders and any information, apply to your home ticket agent, or to W. J. C. Kenyon, St. Paul, Minn.

REFORM IN TOBACCO. (Clew and Smoke)

MAILED. No Chemicals. Nicotine Neutralized. No Nerves Quaking. No Heart Palpitating. No Dyspeptic Aching. ANTI-NEUROUS. ANTI-DYSPEPTIC.

Are Prosecuting Hudson. A. L. Hudson alias J. F. Dodge, the man who was arrested here about ten days ago and sent to Minneapolis, was arraigned yesterday on indictments charging him with forgery and larceny. His trials were set for Friday and Monday and his bail was fixed at \$500 for each offense.

Salvation Army Meetings. There will be a big meeting of the Salvation Army next Wednesday evening at Maj. Stillwell will speak and Lieut. Call will assist by singing. The Swedish brass band will be present. Special meeting every night following. Men and rescue work explained Thursday night.

NO NEED OF IT.

Homes Filled With Weak and Nervous.

No Need to Feel so Weak, Tired and Nervous.

Eminent Physicians Give Assurance of This Fact.

And Tell How to Overcome the Terrible Weakness.

Now is the Best Time to Get Strong and Well.

That there is no need whatever for a person to be weak, tired and nervous—the three great curses of our people—seems now a certain fact.

Eminent physicians affirm the truth of this welcome news, and ample proofs demonstrate the reliability of the information we are able so gladly to give.

It is certainly a good thing to those of our people who have weak nerves and tired bodies, who feel exhausted in strength and vitality, who cannot sleep well, and who are run down and debilitated, to know positively that Dr. Greene's Nervura blood and nerve remedy is a sure invigorator and strength giver, and will invariably make a person strong and well. Particularly is it a blessing at this time of year, for in the spring almost everybody feels languid, nervous and out of order and needs this best of all spring medicines.

Doctors are enthusiastic in their approval and endorsement of this remedy. They heartily recommend and advise its use, and many of our best known physicians are loud in their praise of its wonderful curative power.

Dr. B. D. Dickford, of Westport, Vt., one of Vermont's eminent physicians, states:

"I have used Dr. Greene's Nervura blood and nerve remedy for some time, first trying it on myself, and I found it did me so much good that I now recommend it to my patients. The fact that I have used it in my own case shows that I know what I am talking about. As a blood and nerve invigorant it is the best of all to build up a person."

Dr. Robert W. Lane, of South Woodbury, Vt., from whom there is no more eminent physician in the state of Vermont, says:

"I have known about Dr. Greene's Nervura blood and nerve remedy for some time, after hard sickness and the cure of nervous females. They have received great good from its use. I do not hesitate to recommend it to my patients."

Dr. Willard H. Morse, F. B. S. Sc. of Westfield, N. J., the great expert on medicines, says of this grand discovery of Dr. Greene:

I act by affecting the organs of nutrition, entering into the formation of new nerve tissue, which generates nerve force. This means the making of new nerves. Dr. Greene's Nervura blood and nerve remedy is the American nerve tonic."

The well-known Dr. Emil Neumer, superintendent physician of the New York Lodge and Association hospital states:

"We are using Dr. Greene's Nervura blood and nerve remedy at this hospital for our patients with great success. This enthusiastic endorsement by physicians, stamps this remarkable medical discovery as the greatest tonic and restorative ever known to the world."

One reason which gives the people so much confidence in it is the fact that it is the discovery and prescription of Dr. Greene, of St. Louis, the well-known and probably most successful specialist in curing nervous and chronic diseases, and to the further fact that he can be consulted free of charge by anyone, personally or by letter.

Look at this. We have a beautiful building lot on East First street that actually cost the owner \$3000—\$1800 buys it on easy terms. D. H. Stevenson & Co., 327 West Superior street.

Tunnels. The Romans, who were great engineers, excavated some remarkable tunnels for aqueducts, but it has been reserved to the moderns to use them in road building. One of the first was that under the River Thames at London, commenced in 1825, finished in 1843, and for a while one of the world's supposed wonders. It has since been eclipsed by the Severn tunnel (also constructed under a river) which is four and one-third miles long. The most noted railroad tunnels are: St. Gotthard, 9 1/2 miles; Mont Cenis, 7 1/2 miles; and the Hoosac, 4 1/2 miles.

The railway from Bologna to Pistoia, across the Apennines (Italy) has forty-six tunnels in a distance of sixty-two miles, equalled only by the Black Forest railway (Germany) which has twenty-nine tunnels in fifteen miles, and which forms a complete letter "S." The world now has eighty-six canal tunnels, length, sixty-six miles; 957 railway tunnels, 291 miles; eight subaqueous tunnels, six and a half miles; and thirty-seven aqueducts, eighty miles. North America has 115 railroad tunnels, several of them engineering works of great skill and cost.

But that and the Burlington route has none of them, its attractions in the way of equipment, speed, safety and scenery are such that it is the favorite line with hundreds of thousands of intelligent travelers between the great cities of Chicago, St. Louis, Denver, Kansas City, Omaha, Minneapolis and St. Paul. For tickets, maps, folders and any information, apply to your home ticket agent, or to W. J. C. Kenyon, St. Paul, Minn.

REFORM IN TOBACCO. (Clew and Smoke)

MAILED. No Chemicals. Nicotine Neutralized. No Nerves Quaking. No Heart Palpitating. No Dyspeptic Aching. ANTI-NEUROUS. ANTI-DYSPEPTIC.

Are Prosecuting Hudson. A. L. Hudson alias J. F. Dodge, the man who was arrested here about ten days ago and sent to Minneapolis, was arraigned yesterday on indictments charging him with forgery and larceny. His trials were set for Friday and Monday and his bail was fixed at \$500 for each offense.

Salvation Army Meetings. There will be a big meeting of the Salvation Army next Wednesday evening at Maj. Stillwell will speak and Lieut. Call will assist by singing. The Swedish brass band will be present. Special meeting every night following. Men and rescue work explained Thursday night.

THE LATEST

Now is the Best Time to Get Strong and Well.

That there is no need whatever for a person to be weak, tired and nervous—the three great curses of our people—seems now a certain fact.

Eminent physicians affirm the truth of this welcome news, and ample proofs demonstrate the reliability of the information we are able so gladly to give.

It is certainly a good thing to those of our people who have weak nerves and tired bodies, who feel exhausted in strength and vitality, who cannot sleep well, and who are run down and debilitated, to know positively that Dr. Greene's Nervura blood and nerve remedy is a sure invigorator and strength giver, and will invariably make a person strong and well. Particularly is it a blessing at this time of year, for in the spring almost everybody feels languid, nervous and out of order and needs this best of all spring medicines.

Doctors are enthusiastic in their approval and endorsement of this remedy. They heartily recommend and advise its use, and many of our best known physicians are loud in their praise of its wonderful curative power.

Dr. B. D. Dickford, of Westport, Vt., one of Vermont's eminent physicians, states:

"I have used Dr. Greene's Nervura blood and nerve remedy for some time, first trying it on myself, and I found it did me so much good that I now recommend it to my patients. The fact that I have used it in my own case shows that I know what I am talking about. As a blood and nerve invigorant it is the best of all to build up a person."

Dr. Robert W. Lane, of South Woodbury, Vt., from whom there is no more eminent physician in the state of Vermont, says:

"I have known about Dr. Greene's Nervura blood and nerve remedy for some time, after hard sickness and the cure of nervous females. They have received great good from its use. I do not hesitate to recommend it to my patients."

Dr. Willard H. Morse, F. B. S. Sc. of Westfield, N. J., the great expert on medicines, says of this grand discovery of Dr. Greene:

"The true remedy for nervous diseases is Dr. Greene's Nervura blood and nerve remedy. I act by affecting the organs of nutrition, entering into the formation of new nerve tissue, which generates nerve force. This means the making of new nerves. Dr. Greene's Nervura blood and nerve remedy is the American nerve tonic."

The well-known Dr. Emil Neumer, superintendent physician of the New York Lodge and Association hospital states:

"We are using Dr. Greene's Nervura blood and nerve remedy at this hospital for our patients with great success. This enthusiastic endorsement by physicians, stamps this remarkable medical discovery as the greatest tonic and restorative ever known to the world."

CITY BRIEFS.

Callum, dentist, top floor, Palladio.
Schiffman makes the best gold crowns.
Smoke Eudion cigar. W. A. Foote.
The Evening Herald is on sale in St. Paul at the Windsor Hotel news stand.
Elected unanimously, Duluth Imperial flour.

A meeting of Division No. 1, Daughters of Erin, will be held this evening at 8 o'clock in St. Thomas school house.
A. C. Weiss has taken out a permit for the erection of a 2-story frame residence on Superior street, between Sixteenth and Seventeenth avenues east, at a cost of \$5,550.

The 5-year-old daughter of E. L. Fish, 321 West Fourth street, is down with diphtheria.

In police court this morning Sylvester Panchell, Jack Columbus, John Norgreen, Jacob Schaeffer and Robert Eschman pleaded guilty to drunkenness. Norgreen and Schaeffer were sentenced to the county jail for ten days and the others were made happy with suspended sentences.

Tomorrow night, in the Parsons block hall, the Central Populist club will listen to an address by John Russett on the government ownership of railroads. He will be followed by other speakers among them J. W. Bull.

The funeral of George Marcotte, the boy who was killed at the Spalding on Saturday was held this forenoon at 10 o'clock from the residence of his parents, 118 Eighteenth avenue east.

Second papers have been granted by the district court to Julius Conlomb, Gust Schelen and August Carlson.

The will of Frank A. Kumrow, the police officer who died some time ago, was admitted to probate by Judge Ayer this morning. The estate is small.

PERSONAL.

E. K. Beebe, who formerly operated a grain commission business in Duluth, will arrive tonight from La Crosse, Wis., to take a position as Associated Press operator for the News Tribune. C. I. Hubbard, who has been operator for some months, left today with Mrs. Hubbard for Birmingham, Ala.

General Passenger Agent V. H. Russell, of the St. Paul & Duluth road, is in the city today.

John H. Finney, of St. Paul, is in the city.

A. Harrington came up from Minneapolis today.

S. B. Collins, of Jackson, Mich., is at the Spalding.

W. M. Hull, representing the Marie Jansen company, was in the city last evening.

R. C. Flanagan, of Norway, Mich., is in the city.

J. A. Smith, of Eau Claire, is in the city.

F. P. Breiver, of Saginaw, arrived in the city this morning.

C. A. Mackey, editor of the Cloquet Pine Knot, is in the city today.

Hugh Steele left today for the Seine River for a visit to the "Lucky Coon" mine in which he is interested.

Mrs. Lynne, who has been visiting her son, Dr. Lynne, will return to her home in Bar Harbor, Me., this week.

Mrs. Stephen L. Merchant will leave this evening for Carlisle, Pa., and from there will go to New York.

A. D. Thomson returned this morning from Chicago.

Capt. Florida returned today from Pittsburgh.

E. Geman, of Saginaw, is in the city.

C. L. Pratt, of Grand Rapids, is in the city.

Mrs. Wade Blaker came down from Grand Rapids today.

M. W. Skinner, of Northfield, is at the St. Louis.

George M. Deeks, of St. Paul, is in the city.

Miss Bessie Strayer has returned from Northfield, where she is attending college, to spend a vacation.

Mrs. N. S. Coffin is visiting her parents in Minneapolis. Mr. Coffin has gone to Omaha.

Madame Beuglet has returned from the East.

Mrs. William Hatley arrived today from Chicago.

Page Morris and family expect to occupy their new home about April 1.

C. D. Fraser, of Pittsburgh, Pa., Henry W. Oliver's representative, is in the city on business connected with the Oliver mining interests.

MACKENZIE DONE UP.

The Tall Policeman Met His Match as a Sprinter in Bob Benson.

Ever since Roy Mackenzie the Lombardy poplar of the police force, as it were, became acquainted with his fellow patrolmen, he has been bragging about his ability as a sprinter.

"Why," said he time and time again, "when I worked on the farm near Garafax, over in Canada, I beat every foot racer in that neighborhood. Last summer, in West Superior, I made 'em take my dust, policemen and all."

His boasts since he came onto the Duluth force, about a year ago, have always wound up with a banter for some fellow in particular and the whole force in general to match him for a race.

"Come right out here in the middle of the street," he would shout, "I'll run you for money or for fun." But his 7-foot legs scared the boys and no one ever took him up.

At last Duluth's force of detectives came bravely to the front, prepared to die and declaring that the credit of the department in the sprinting line should not be longer supported by Mackenzie.

"Now I'm older than you are," said Bob Benson to Tom Hayden "and I can run faster than you because I've run oftener and had more practice. You go him first and if he lays you out, I'll give him a whirl. See?"

"I'll go him if I lose," said Hayden. The race was run and Mackenzie stretched out his long trolleys and easily won.

"Now, Benson, if you ain't afraid, come and run me. I'll just put up \$5 on the race, too," wheedled Mackenzie.

"I can't afford to bet any," said Bob, "but I'd run you, even if you were geared like a theater-scenery wagon."

So the match was made. Night before last the race was run. From the very start, Benson threw dust in Mackenzie's face. Worse than that, as they went flying down Michigan street, back of the police station, Benson would stop every few feet, look over his shoulder and yell at his opponent—

"Come, hurry up, Shorty. Mackenzie nearly split his trousers stretching down the course but Benson beat him so badly that it nearly made the old champion Muskoka sick abed.

When the boys jolly him over his defeat, he looks wild and says:

"Why? That man Benson is a professional. I didn't agree to beat any professional."

The boys on the police force are now arranging a match between Mackenzie and Knute Mohr.

Will Succeed J. H. Tischart.

April 1 it is expected that Mountford S. Lloyd will succeed J. H. Tischart as deputy clerk of the municipal court. Mr.

Lloyd was employed in the office of the Duluth Street Railway company until about the time of the holidays. Since then he has been holding a position with the Marshall Wells Hardware company.

Will women rule in the next century? They rule now where Dr. Price's baking powder is used.

Dr. Routh Took His Position as Health Officer This Morning.

This morning Dr. Routh dropped into the city clerk's office and asked to be sworn in as health officer. Mr. Richardson promptly performed that duty, and then the doctor went quietly into the health office and took charge.

Rosier extended such information and assistance as was in his power and the knees of the various inspectors trembled as they dropped into the office and saw a new man in charge.

Dr. Goffe is on the sick list, hence was not present. It is expected that the next move will be for Dr. Goffe to take the matter into the courts and let them decide who really and truly is entitled to the position. There seems to be a determination on the part of both gentlemen to settle the question quietly and amicably and to avoid all bluster and noise.

North American Will Move.

On April 1 the North American Telegraph company will move its office from the Chamber of Commerce building to the intermediate floor of the Duluth Trust company's building. This will give the company a much larger and more conveniently arranged building.

Hermantown Officials.

The following officers have been elected at Hermantown: Board of supervisors, Peter Fishan, chairman, Andrew Gulbrandson and Hans Matteson; town clerk, W. M. Jancig; treasurer, Peter Hanson; assessor, Rudolph Lang; justices of the peace, Ben Erickson, one year; constable, Joseph Melchak.

Save Plenty of Money

By having Duluth Van company to move your office fixtures and safes.

TO RECOMMEND A CUT.

Chamber of Commerce Committee Will Report Tomorrow on the Auditor's Necessity for More Clerk Hire.

It is Understood That a Recommendation That Present Salaries Be Reduced May Be Made.

Auditor Halden Does Not Like This and Says He Is Not Paying Too Much.

The committee from the chamber of commerce appointed for the purpose of looking into County Auditor Halden's application for an increased allowance for clerk hire, paid a brief visit to the auditor's office yesterday afternoon and spent half an hour in looking over the work of the office and listening to the auditor's arguments in favor of the increase.

The result of the committee's investigations has not yet been officially announced, nor will it be until the meeting of the chamber tomorrow afternoon, but it is understood that the members have arrived at a definite conclusion on which their report will be based. They expressed themselves as satisfied that the business of the office could not well be transacted with a smaller number of clerks, but nevertheless it is not likely that their report will be favorable to the desired increase. It is understood that they will report in favor of compelling the auditor to get along with his present allowance by reducing the salaries of his employees all around so as to bring the amount within the legal allowance.

Mr. Halden this morning said in reference to the matter, when informed that the committee was likely to report adversely to his request, that while he recognized the fact that this was a bad time to ask for more money, nevertheless he thought it absolutely necessary or he would not have asked for it. "As to reducing salaries," he said, "I hardly think that will do. If you want good work you must have good men, and you cannot get good men for \$30 or \$40 a month."

"My present force is thoroughly satisfactory, and not one is paid a cent more than he is worth. The work of the auditor's office is the most important of any

connected with the county, and it requires more and better men than any other office. You cannot fill the office with cheap men and obtain satisfactory results. I hope that the committee's report will be favorable to the increase."

The committee is composed of the following members: J. H. Tischart, Dr. Boyer, M. O. Holland, G. A. Leland.

Which baking powder wins at all the great fairs? Dr. Price's of course.

ST. CLEMENT'S CADETS.

Fine Entertainment Presented by Them at Normanna Hall Last Evening.

Never did Normanna hall hold such a crowd as that which gathered last night to hear the St. Clement's cadets play "Shaan Aroon." Long before the play began standing room was at a premium. The entertainment was good. Miss Rachel Knutson, as Molly, won new laurels. Much credit is due William McKen for the excellent manner in which he played Dan O'Grady. He had a very short time in which to study his part, but acted it admirably. Miss Annie Farrington, as Mrs. O'Grady, was also very good. H. Cairncross as Tom O'Grady, Hennings and Patrick, kept the audience in a constant fit of laughter. The others deserving special mention are E. Kreimer, D. H. McDonald and F. Rooney.

Ladies of Duluth.

Madam Beuglet having just returned from the East takes pleasure in announcing to her numerous customers and the ladies of Duluth that she has ready for inspection the finest millinery ever exhibited in the city. Well selected novelties, Parisian pattern hats of the latest designs. Parlor or a wide-lane shoe store. A cordial invitation extended to all.

Are Having a Conference.

The county commissioners and the trustees on the bond of the American Loan and Trust company to the county are having a conference this afternoon. It is not for the purpose of instituting harsh measures, but to arrive at a definite understanding of just what the situation is and what the county may expect.

Have You Had the Grip?

If you have, you probably need a reliable medicine like Foley's Honey and Tar to help your lungs. What the situation is and what the county may expect.

Coal Office Removed.

Duluth Fuel company's office is now in the Herald building.

Ten-Acre Tracts.

On Vermillion road, two and one-half miles from Woodland park line, for sale by J. C. & R. M. Hunter.

Wanted.

Man and wife with small capital to take charge of Lester Park hotel.

LAKESIDE LAND COMPANY.

M. S. BURROWS & CO.

ASSIGNEE'S BOND FILED.

Samuel E. Webb Qualifies for \$6000 for the Stephen Produce Company.

Samuel E. Webb, assignee for the Stephen Produce company, has filed his bonds in the sum of \$6000, with W. D. Edson, H. W. Coffin, Colby Smith and George Taylor as sureties. The liabilities of the company amount to \$3080.50, mostly for merchandise. The assets are \$2757.61, of which \$216.80 is stock, \$390 is fixtures and \$1471.81 outstanding accounts.

David Hudson has filed an answer in the matter of the enforcement of 1893 tax collection on West Duluth property. He alleges that the assessment on which the taxes are based was made without authority by the village of West Duluth and is therefore void.

Maria T. Stoddard has sued Johanna McKenzie et al for \$1200 on a note and mortgage.

Farwell, Osmond, Kirk & Co., have sued Johnson & Dahl on a judgment for \$235.50.

Luscious as California fruit is the food made with Dr. Price's baking powder. Dr. Price's received gold medal at the California Midwinter fair.

BAD FIRE IN VERMONT.

Several Factories and Mills Burned and a Watchman Lost His Life.

BURLINGTON, VT., March 19.—A disastrous fire broke out today in the wood-working shops of J. Booth. The Pioneer Lumber mills were destroyed and the flames spread to the large storehouse and works of the Baldwin Refrigerator works and to the shops of the Vermont Roller Shade company, and practically wiped out those buildings.

During the fire, W. L. Millington, aged 65 years, a watchman in the employ of the mill, fell through the roof of the building into the flames and was burned to death. The total loss is estimated at \$300,000. About 325 men are thrown out of employment. It is stated that the mills will not be rebuilt at present.

Dollars in Your Pocket!

An eight-room house three blocks from New Board of Trade, upper side of street, \$200, \$800 cash; can take vacant lot in part payment. Here is your chance.

GEORGE R. LAYBOURN,

14 Phoenix Block.

"Eight Bells" Coming.

The Brothers Byrne, unexcelled artists in pantomime, will present their series "Eight Bells," at the Temple next Friday and Saturday evenings. "Eight Bells" is from the pen of John F. Byrne, who are the inventions and novel mechanisms. In the production, this season, many new and startling tricks will be presented, as also an entirely new pantomime. The Brothers Byrne have made a close study of what the people want and have spared no money in making this superior pantomime a revelation in stage-craft.

Abandoned in Mid-ocean.

LIVERPOOL, March 19.—The British tank steamer Delaware, Capt. Thomas, from New York, March 6, has arrived in the river Mersey, having on board the crew of the steamer Donau which was abandoned in mid-ocean. When sighted by the Delaware the Donau had been on fire for thirty-six hours, and the crew had taken to the boats.

Russia's Foreign Minister.

ST. PETERSBURG, March 19.—The appointment of Prince Lobanoff-Kostovskii, recently Russian ambassador to Vienna, as Russian minister of foreign affairs in succession to the late M. de Giers was officially announced this morning.

Advertise your houses and rooms for rent in The Evening Herald.

McCOMBER, The Florist,

230 West Superior Street.

Choicest Varieties.

ASSIGNEE'S BOND FILED.

Samuel E. Webb Qualifies for \$6000 for the Stephen Produce Company.

Samuel E. Webb, assignee for the Stephen Produce company, has filed his bonds in the sum of \$6000, with W. D. Edson, H. W. Coffin, Colby Smith and George Taylor as sureties. The liabilities of the company amount to \$3080.50, mostly for merchandise. The assets are \$2757.61, of which \$216.80 is stock, \$390 is fixtures and \$1471.81 outstanding accounts.

David Hudson has filed an answer in the matter of the enforcement of 1893 tax collection on West Duluth property. He alleges that the assessment on which the taxes are based was made without authority by the village of West Duluth and is therefore void.

Maria T. Stoddard has sued Johanna McKenzie et al for \$1200 on a note and mortgage.

Farwell, Osmond, Kirk & Co., have sued Johnson & Dahl on a judgment for \$235.50.

Luscious as California fruit is the food made with Dr. Price's baking powder. Dr. Price's received gold medal at the California Midwinter fair.

BAD FIRE IN VERMONT.

Several Factories and Mills Burned and a Watchman Lost His Life.

BURLINGTON, VT., March 19.—A disastrous fire broke out today in the wood-working shops of J. Booth. The Pioneer Lumber mills were destroyed and the flames spread to the large storehouse and works of the Baldwin Refrigerator works and to the shops of the Vermont Roller Shade company, and practically wiped out those buildings.

During the fire, W. L. Millington, aged 65 years, a watchman in the employ of the mill, fell through the roof of the building into the flames and was burned to death. The total loss is estimated at \$300,000. About 325 men are thrown out of employment. It is stated that the mills will not be rebuilt at present.

Dollars in Your Pocket!

An eight-room house three blocks from New Board of Trade, upper side of street, \$200, \$800 cash; can take vacant lot in part payment. Here is your chance.

14 Phoenix Block.

"Eight Bells" Coming.

The Brothers Byrne, unexcelled artists in pantomime, will present their series "Eight Bells," at the Temple next Friday and Saturday evenings. "Eight Bells" is from the pen of John F. Byrne, who are the inventions and novel mechanisms. In the production, this season, many new and startling tricks will be presented, as also an entirely new pantomime. The Brothers Byrne have made a close study of what the people want and have spared no money in making this superior pantomime a revelation in stage-craft.

Abandoned in Mid-ocean.

LIVERPOOL, March 19.—The British tank steamer Delaware, Capt. Thomas, from New York, March 6, has arrived in the river Mersey, having on board the crew of the steamer Donau which was abandoned in mid-ocean. When sighted by the Delaware the Donau had been on fire for thirty-six hours,
